## Compliance Status Report

	only.	
V.	Local planning authority to ensure the structural stability of building for which vertical expansion is proposed.	Noted.
VI.	PP to upload the HRC NoC.	Complied. HRC NoC is received & enclosed as Annexure - VII.
VII.	The PP to get NOC from competent authority with reference to Thane creek flamingo sanctuary if the project site falls within 10 Km radius from the said sanctuary boundary. The planning authority to ensure fulfilment of this condition before granting CC.	Noted, Plot doesn't fall within 10 Km radius from the said sanctuary boundary.  As per ESZ notification dated 14 <sup>th</sup> October 2021, our project does not come under ESZ area of Flamingo sanctuary.
VIII.	PP to submit CER plan to Municipal Commissioner/District Collector and submit the acknowledgement to Member Secretary, SEIAA.	CER was earlier included as per MoEF & Circular Dated 01/05/2018. However, we have now been informed that the said 'MoEF & Circular Dated 01/05/2018' has been expressly superseded (i.e. replaced and rendered void) by OM No. 22-65/2017/IA.III dt. 30/09/2020, and it is inter alia further mandated that the activity proposed by the Project Proponent of prescribed by EAC/SEAC (as the case may be), shall be part of the Environment Management Plan. As stated in the said OM dt. 30/09/20, this OM was issued pursuant to receipt of several representations regarding imposing a percentage of the project cost as CER, and the said OM was also challenged in the High Court. Consequently, CER as per the (superseded) MoEF & Circular Dated 01/05/2018 is not applicable or required to be proposed or undertaken.
IX.	PP Shall comply with Standard EC conditions mentioned in the Office Memorandum issued by MoEF & CC vide F. No. 22-34/2018-IA.III dt. 04.01.2019.	Noted. We affirm that we will comply with Standard EC conditions mentioned in the Office Memorandum issued by MoEF & CC vide F. No. 22-34/2018-IA.III dt. 04.01.2019.
X.	SEIAA decided to grant EC for: FSI: 132631.46 m2, Non-FSI: 260503.05 m2 and Total BUA: 393134.51 m2 (IOD no- EB/5204/E/A, Date-13.03.2019)	Noted.

## Compliance Status Report

GENERAL CONDITIONS		
I	E-waste shall be disposed through Authorized vendor as per E-waste (Management and Handling) Rules, 2016.	E- Waste is being disposed off through authorized vendor regularly. Copy of E-Waste Returns for year 2021-2022 enclosed as <b>Annexure - VIII</b> .
II	The Occupancy Certificate shall be issued by the Local Planning Authority to the project only after ensuring sustained availability of drinking water, connectivity of sewer line to the project site and proper disposal of treated water as per environmental norms.	<ul style="list-style-type: none"> <li>Building No 1 has been Completed and Building Completion Certificate from MCGM has been obtained on 30.11.13. VII	All required sanitary and	Yes, all the sanitary & hygienic measures have been

**Compliance Status Report**

	hygienic measures should be in place before starting construction activities and to be maintained throughout the construction phase.	taken during construction phase and they are as under: 1. Safe & clean water for workers. 2. Temporary toilets 3. Regular medical checkups 4. Accumulation of stagnant water is / will be avoided to prevent breeding of mosquitoes. 5. Regular pest Control is carried out. 6. Workers are provided with safe & clean drinking water. The above measures will be maintained throughout the construction phase.
VIII	Adequate drinking water and sanitary facilities should be provided for construction workers at the site. Provision should be made for mobile toilets. The safe disposal of wastewater and solid wastes generated during the construction phase should be ensured.	Yes, we have made provision of drinking water, first aid room, toilets, washrooms for workers at construction site. Photographs are enclosed as <b>Annexure - XI</b> .
IX	The solid waste generated should be properly collected and segregated. Dry / inert solid waste should be disposed off to the approved sites for land filling after recovering recyclable material.	The construction debris will be disposed as per the "Construction & Demolition & Desilting Waste (Management & Disposal) Rules 2016. SWM NoC is enclosed as <b>Annexure - XII</b> .
X	Disposal of muck during construction phase should not create any adverse effect on the neighboring communities and be disposed taking the necessary precautions for general safety and health aspects of people, only in approved sites with the approval of competent authority.	The quantity of sub-stratum removed during excavation for building foundation has been disposed of as per royalty compliances.  Necessary precautions for general safety and health aspects are taken in account.
XI	Arrangement shall be made that wastewater and storm water do not get mixed.	Arrangement such as RWH tank & STP wastewater is done to avoid mixing of waste water with storm water.
XII	All the topsoil excavated during construction activities should be stored for use in horticulture /	Topsoil was not stored as there was existing structure at site.

## Compliance Status Report

	landscape development within the project site.	
XIII	Additional soil for leveling of the proposed site shall be generated within the sites (to the extent possible) so that natural drainage system of the area is protected and improved.	There is no additional soil requirement for filling within site as there is basement.
XIV	Green Belt Development shall be carried out considering CPCB guidelines including selection of plant species and in consultation with the local DFO/ Agriculture Dept.	Green Belt development is done for Bldg no 1, 2 & 3. Photographs are attached as <b>Annexure - XIII</b> .  Preference is given to native plant / drought tolerant species.
XV	Soil and ground water samples will be tested to ascertain that there is no threat to ground water quality by leaching of heavy metals and other toxic contaminants.	There is no ground water source available at site.  Soil analysis is being carried out to ensure that no contaminant occurs. Please refer post monitoring report attached as <b>Annexure - I</b> .
XVI	Construction spoils, including bituminous material and other hazardous materials must not be allowed to contaminate watercourses and the dumpsites for such material must be secured so that they should not leach into the ground water.	There is no generation of bituminous material at site till date and if generated will be disposed of as per MPCB norms.
XVII	Any hazardous waste generated during construction phase should be disposed off as per applicable rules and norms with necessary approvals of the Maharashtra Pollution Control Board.	DG sets are not used during construction phase and there is no generation of DG spent oil.
XVIII	The diesel generator sets to be used during construction phase should be low sulphur diesel type and should conform to Environments (Protection) Rules prescribed for air and	DG sets are not used during construction phase.

## Compliance Status Report

	noise emission standards.	
XIX	The diesel required for operating DG sets shall be stored in underground tanks and if required, clearance from concern authority shall be taken.	<p>DG sets are not used during construction phase. DG sets are provided for Building No. 1, 2 &amp; 3 for operation phase &amp; will be used as power backup. Day storage tank of 990 Ltr is used to store diesel for operation of D.G sets. Copy of Hazardous Waste Returns for 2021-2022 enclosed as <b>Annexure - XIV</b>.</p> <p>Photograph of DG set is enclosed as <b>Annexure - XV</b>.</p>
XX	Vehicles hired for bringing construction material to the site should be in good condition and should have a pollution check certificate and should conform to applicable air and noise emission standards and should be operated only during non-peak hours.	<p>The vehicles hired for bringing construction material at site have valid PUC certificate. All vehicles are less than 8 years old only. Also, they are used only in non-peak hours.</p> <p>Copy of valid PUC certificates is enclosed as <b>Annexure - XVI</b>.</p>
XXI	Ambient noise levels should conform to residential standards both during day and night. Incremental pollution loads on the ambient air and noise quality should be closely monitored during construction phase. Adequate measures should be made to reduce ambient air and noise level during construction phase, so as to conform to the stipulated standards by CPCB/MPCB.	Above condition is complied, Environmental monitoring report is attached, please refer Post Monitoring Reports.
XXII	Fly ash should be used as building material in the construction as per the provisions of Fly Ash Notification of September 1999 and amended as on 27th August 2003. (The above condition is applicable only if the project site is located within the 100Km of Thermal Power Stations).	<p>Fly Ash is used in the Ready-Mix Concrete for the construction.</p> <p>Average fly-ash consumption in RMC is 130 kg/cum to 145 kg/cum in various grades of concrete</p>
XXIII	Ready mixed concrete must be used in building	Yes, Ready mix concrete is used for construction activity.

## Compliance Status Report

	construction.	
XXIV	Storm water control and its re-use as per CGWB and BIS standards for various applications.	The harvested rainwater is used for secondary purposes such as flushing and gardening.  Details of storm water drainage pattern and details of rainwater harvesting system provided at site are enclosed as <b>Annexure - XVII</b> .
XXV	Water demand during construction should be reduced by use of pre-mixed concrete, curing agents and other best practices referred.	The measures such as, use of ready-mix concrete, admixture is being used to reduce water demand during construction phase.
XXVI	The ground water level and its quality should be monitored regularly in consultation with Ground Water Authority.	There is no bore well at site. Hence, carrying out monitoring of ground water is not possible.
XXVII	The installation of the Sewage Treatment Plant (STP) should be certified by an independent expert and a report in this regard should be submitted to the MPCB and Environment department before the project is commissioned for operation. Discharge of this unused treated effluent, if any should be discharge in the sewer line. Treated effluent emanating from STP shall be recycled/refused to the maximum extent possible. Discharge of this unused treated effluent, if any should be discharge in the sewer line. Treatment of 100% gray water by decentralized treatment should be done. Necessary measures should be made to mitigate the odour problem from STP.	Yes, 3 nos. of Sewage Treatment Plants (with MBBR technology) with capacity of 100 CMD for Bldg. No. 2, 100 CMD for Bldg. No. 3 & 20 CMD for MPPL are installed. Recycled water is used for flushing, gardening, and car washing.  STP of 320 CMD combined capacity is provided in Bldg no 1, 2 & PPL for treatment of wastewater and is under operation.  Photographs of STP are enclosed as <b>Annexure - XVIII</b> .
XXVIII	Permission to draw ground water and construction of basement if any shall be obtained from the	Not Applicable, the prime source of water during construction phase is the tanker water & BMC Water, which is safe and adequate drinking water.

## Compliance Status Report

	competent Authority prior to construction/operation of the project.	
XXIX	Separation of gray and black water should be done by the use of dual plumbing line for separation of gray and black water.	Dual plumbing line will be provided for black water and grey water.
XXX	Fixtures for showers, toilet flushing and drinking should be of low flow either by use of aerators or pressure reducing devices or sensor based control.	Yes, Water efficient fixtures with low flow rates will be used during operation phase.
XXXI	Use of glass may be reduced up to 40% to reduce the electricity consumption and load on air conditioning. If necessary, use high quality double glass with special reflective coating in windows.	We are using high performance glass with low E value and high SHGC coefficient. Energy modeling exercise is conducted to determine the insulation level acceptable as per the code.
XXXII	Roof should meet prescriptive requirement as per Energy Conservation Building Code by using appropriate thermal insulation material to fulfill requirement.	U value of overall constructed Roof assembly is 0.45 W/m <sup>2</sup> °k.
XXXIII	Energy conservation measures like installation of CFLs /TFLs for the lighting the areas outside the building should be integral part of the project design and should be in place before project commissioning. Use CFLs and TFLs should be properly collected and disposed off/sent for recycling as per the prevailing guidelines/rules of the regulatory authority to avoid mercury contamination. Use of solar panels may be done to the extent possible like installing solar streetlights,	Following measures will be taken to maximize energy usage: <ul style="list-style-type: none"> <li>▪ Electronic ballast will be used to save energy consumption.</li> <li>▪ Use of low loss transformers &amp; switchgears</li> <li>▪ CO sensor for parking bay.</li> <li>▪ Efficient light fixtures like led, CFL will be used.</li> <li>▪ Energy efficient pump is used</li> <li>▪ Energy efficient air conditioning units will be used.</li> </ul>

## Compliance Status Report

	common solar water heaters system. Project proponent should install, after checking feasibility, solar plus hybrid non-conventional energy source as source of energy.							
XXXIV	Diesel power generating sets proposed as source of backup power for elevators and common area illumination during operation phase should be of enclosed type and conform to rules made under the Environment (Protection) Act, 1986. The height of stack of DG sets should be equal to the height needed for the combined capacity of all proposed DG sets. Use low sulphur diesel. The location of the DG sets may be decided with in consultation with Maharashtra Pollution Control Board.	DG sets will be of enclosed type & height of stack will be in compliance of environment (Protection) Act, 1986.						
XXXV	Noise should be controlled to ensure that it does not exceed the prescribed standards. During nighttime the noise levels measured at the boundary of the building shall be restricted to the permissible levels to comply with the prevalent regulations.	Noise does not exceed the prescribed standards. Please refer Post Monitoring Reports.						
XXXVI	Traffic congestion near the entry and exit points from the roads adjoining the proposed project site must be avoided. Parking should be fully internalized and no public space should be utilized.	<p>The proposed site is accessible by 27.43 m wide Maulna Azad Road and 36.6 m wide Dr. A.L Nair Marg.</p> <p>Parking provided:</p> <table border="1"> <thead> <tr> <th colspan="2">Four Wheeler</th><th>Two Wheeler</th></tr> </thead> <tbody> <tr> <td>679 (Residential)</td><td>1339 (MPPL)</td><td>402</td></tr> </tbody> </table>	Four Wheeler		Two Wheeler	679 (Residential)	1339 (MPPL)	402
Four Wheeler		Two Wheeler						
679 (Residential)	1339 (MPPL)	402						
XXXVII	Opaque wall should meet prescriptive requirement as per Energy Conservation Building Code, which is	The building will be complied with the ECBC Code using the Whole Building Performance (WBP) Method.						

**Compliance Status Report**

	proposed to be mandatory for all air-conditioned spaces while it is aspiration for non-air-conditioned spaces by use of appropriate thermal insulation material to fulfill requirement.	Energy modeling exercise is conducted to determine the energy savings.
XXXVII I	The building should have adequate distance between them to allow movement of fresh air and passage of natural light, air and ventilation.	Yes, buildings layout planning is done in such a way that adequate distance between them is provided to allow movement of fresh air and passage of light to the occupants.
XXXIX	Regular supervision of the above and other measures for monitoring should be in place all through the construction phase, so as to avoid disturbance to the surroundings.	There is regular supervision by site engineers throughout the construction phase so as to avoid disturbance to the surrounding.
XL	Under the provisions of Environment (Protection) Act, 1986, legal action shall be initiated against the project proponent if it was found that construction of the project has been started without obtaining environmental clearance.	We have already received Environment Clearance vide letter No. 21-68/2006 - IA.III Dated: 1 <sup>st</sup> September 2006 & Revised Environmental Clearance is obtained vide letter No.: SEAC-2014/CR-35/TC-1 Dated: 29 <sup>th</sup> September 2014.  Also, Amendment in Environment Clearance obtained on 13.09.2019.
XLI	Six monthly monitoring reports should be submitted to the Regional office MoEF, Nagpur with copy to this department and MPCB.	Yes, six monthly monitoring report will be submitted to Environmental Department, Mantralaya & Maharashtra Pollution Control Board regularly.
XLII	Project proponent shall ensure completion of STP, MSW disposal facility, green belt development prior to occupation of the buildings. As agreed during the SEIAA meeting, PP to explore possibility of utilizing excess treated water in the adjacent area for gardening before discharging it into sewer line No physical occupation or allotment will	Yes, completion of STP & MSW disposal facility is ensured prior to occupation and precertification from appropriate authority is obtained before occupation of buildings no 1,2,3.

## Compliance Status Report

	be given unless all above said environmental infrastructure is installed and made functional including water requirement in Para 2. Prior certification from appropriate authority shall be obtained.							
XLIII	Wet garbage should be treated by Organic Waste Converter and treated waste (manure) should be utilized in the existing premises for gardening and, no wet garbage will be disposed outside the premises. Local authority should ensure this.	Yes, wet garbage is composted using Organic Waste Converter provided at site and used as organic manure for landscaping in Bldg. 1 & 2.						
XLIV	Local body should ensure that no occupation certification is issued prior to operation of STP/MSW site etc. with due permission of MPCB.	We have obtained occupation certificate only after operation of STP & MSW facility for Bldg no 1,2,3.						
XLV	A complete set of all the documents submitted to Department should be forwarded to the Local authority and MPCB.	Yes, A complete set of all the documents submitted to Department is forwarded to the MPCB.						
XLVI	In the case of any change(s) in the scope of the project, the project would require a fresh appraisal by this Department.	Yes, in the case of any change(s) in the scope of the project, fresh appraisal will be taken.						
XLVII	A separate environment management cell with qualified staff shall be set up for implementation of the stipulated environmental safeguards.	We have environmental management cell with qualified staff to supervise all aspects of the Environmental Management Plan.						
XLVIII	Separate funds shall be allocated for implementation of environmental protection measures/EMP along with item-wise breaks-up. These costs shall be included as	<p>Above condition is noted. Construction Phase- Budget Allocation</p> <table border="1"> <thead> <tr> <th>Attributes</th><th>Parameter</th><th>Total Cost per annum (Rs. ## Compliance Status Report

	local concerned within seven days of issue of this letter, informing that the project has been accorded environmental clearance and copies of clearance letter are available with the Maharashtra Pollution Control Board and may also be seen at Website at <a href="http://ec.maharashtra.gov.in">http://ec.maharashtra.gov.in</a> .	
L	Project management should submit half yearly compliance reports in respect of the stipulated prior environment clearance terms and conditions in hard & soft copies to the MPCB & this department, on 1 <sup>st</sup> June & 1 <sup>st</sup> December of each calendar year.	Yes, above condition is noted. Six monthly compliance report as per condition stipulated in Environmental Clearance will be submitted to MPCB & department regularly.
LI	A copy of the clearance letter shall be sent by proponent to the concerned Municipal Corporation and the local NGO, if any, from whom suggestions/representation s, if any, were received while processing the proposal. The clearance letter shall also be put on the website of the Company by the proponent.	Yes. Environment Clearance letter is attached as annexure II & III.  Yes, said condition is complied.  Environmental clearance is uploaded on company webpage, refer link <a href="http://krahejacorphomes.com">PDF File (krahejacorphomes.com)</a>
LII	The proponent shall upload the status of compliance of the stipulated EC conditions, including results of monitored data on their website and shall update the same periodically. It shall simultaneously be sent to the Regional Office of MoEF&CC, the respective Zonal Office of CPCB and the SPCB. The criteria pollutant levels namely; SPM, RSPM. SO <sub>2</sub> , NO <sub>x</sub> (ambient levels as	Yes, monitoring at the site is carried out regularly & post monitoring reports are enclosed.  Reports are regularly sent to MoEF, CPCB & MPCB along with six monthly EC compliance submissions.  Monitoring report is also uploaded along with EC compliance on company webpage, refer link: <a href="https://www.krahejacorphomes.com/project/wp-content/uploads/download/vivarea-ec-compliance.pdf">https://www.krahejacorphomes.com/project/wp-content/uploads/download/vivarea-ec-compliance.pdf</a>

## Compliance Status Report

	well as stack emissions) or critical sector parameters, indicated for the project shall be monitored and displayed at a convenient location near the main gate of the company in the public domain.	
LIII	The project proponent shall also submit six monthly reports on the status of compliance of the stipulated EC conditions including results of monitored data (both in hard copies as well as by e-mail) to the respective Regional Office of MoEF&CC, the respective Zonal Office of CPCB and the SPCB.	Yes, six monthly Compliance reports with monitoring data are enclosed as <b>Annexure - I</b> .
LIV	The environmental statement for each financial year ending 31st March in Form-V as is mandated to be submitted by the project proponent to the concerned State Pollution Control Board as prescribed under the Environment (Protection) Rules, 1986, as amended subsequently, shall also be put on the website of the company along with the status of compliance of EC conditions and shall also be sent to the respective Regional Offices of MoEF&CC by e-mail.	<p>Yes. We will submit Environmental Statement for each financial year as Form - V.</p> <p>We have submitted Form -V for 2021-2022 &amp; the same is uploaded on company webpage, refer link: <a href="http://krahejacorporphomes.com">Enviornment Statement (krahejacorporphomes.com)</a></p> <p>Copy of the same is enclosed as <b>Annexure - XX</b>.</p>

## STATE LEVEL ENVIRONMENT IMPACT ASSESSMENT AUTHORITY

Environment department,  
Room No. 217, 2nd floor,  
Mantralaya, Annexe,  
Mumbai- 400 032.  
Date: September 13, 2019

To,  
**Genext Hardware & Parks Pvt. Ltd. C.A to Capricon Realty Ltd.**  
at Sub plot "B" bearing C.S. No. 1903, 1904, 1905, 1/1905, 2/1905 of Byculla Division abutting Dr. A. L. Nair road and Maulana Azad Road, Jacob Circle, Mahalaxmi, Maharashtra

**Subject:** Environment Clearance for for amendment in EC for the residential complex along with the proposed composite residential building with a Municipal Public Parking Lot at Sub Plot 'B' bearing C.S. No. 1903, 1904, 1905, 1/1905, 2/1905 of Byculla Division abutting Dr. A.L. nair Road and Maula Azad Road, Jacob Circle, Mahalaxmi by Genext Hardware & Parks Pvt. Ltd.

Sir,

This has reference to your communication on the above mentioned subject. The proposal was considered as per the EIA Notification - 2006, by the State Level Expert Appraisal Committee-II, Maharashtra in its 103rd meeting and recommend the project for prior environmental clearance to SEIAA. Information submitted by you has been considered by State Level Environment Impact Assessment Authority in its 174th meetings.

2. It is noted that the proposal is considered by SEAC-II under screening category 8 (b) as per EIA Notification 2006.

**Brief Information of the project submitted by you is as below :-**

1.Name of Project	Hindustan Mill
2.Type of institution	Private
3.Name of Project Proponent	Genext Hardware & Parks Pvt. Ltd. C.A to Capricon Realty Ltd.
4.Name of Consultant	Dr. D. A. Patil, Mahabal Enviro Engineers Pvt. Ltd.
5.Type of project	Residential Project along with Municipal Public Parking Lot
6.New project/expansion in existing project/modernization/diversification in existing project	Amendment in existing project. (Vertical expansion to residential wing of Building No.3 has been proposed)
7.If expansion/diversification, whether environmental clearance has been obtained for existing project	We have obtained EC u/n. SEAC-2014/CR-35/TC-1 dt. 29/09/2014 for the plot area 61,520.46 m2 and FSI area of 1,29,988.78 m2, Non FSI area of 2,58,043.03 m2 with total construction area of 3,88,031.81 m2 (Entire project).
8.Location of the project	Sub plot "B" bearing C.S. No. 1903, 1904, 1905, 1/1905, 2/1905 of Byculla Division abutting Dr. A. L. Nair road and Maulana Azad Road, Jacob Circle, Mahalaxmi, Maharashtra
9.Taluka	Mumbai
10.Village	Byculla Division abutting Dr. A. L. Nair road and Maulana Azad Road, Jacob Circle, Mahalaxmi
Correspondence Name:	-
Room Number:	-
Floor:	-
Building Name:	Raheja Tower
Road/Street Name:	Plot No. C-30, Block G, Opp SIDBI,
Locality:	Bandra Kurla Complex
City:	Bandra (East), Mumbai.
11.Whether in Corporation / Municipal / other area	Municipal Corporation of Greater Mumbai (MCGM)

<b>27.Sewage and Waste water</b>	<b>Sewage generation in KLD:</b>	167 KLD
	<b>STP technology:</b>	MBBR Technology
	<b>Capacity of STP (CMD):</b>	3 STPs will be provided with total 220 m3 capacity i.e. 100 m3 (for bldg. No. 2), 100 m3 (for bldg No. 3) and 20 m3 for PPL
	<b>Location &amp; area of the STP:</b>	Bldg No. 2: Ground Floor, Bldg No. 3: a. Resi. Bldg: 2nd Floor Parking Lvl. & b. PPL: Ground Floor.
	<b>Budgetary allocation (Capital cost):</b>	45 Lakh
	<b>Budgetary allocation (O &amp; M cost):</b>	9 Lakh/year

28.Solid waste Management		
Waste generation in the Pre Construction and Construction phase:	Waste generation:	Construction debris: 4,200 m <sup>3</sup>
	Disposal of the construction waste debris:	The construction debris will be disposed as per the "Construction and Demolition and Desilting Waste (Management and Disposal) Rules 2016.
Waste generation in the operation Phase:	Dry waste:	269 Kg/day
	Wet waste:	403 Kg/day
	Hazardous waste:	Used oil from DG
	Biomedical waste (If applicable):	NA
	STP Sludge (Dry sludge):	2 KLD
	Others if any:	Household E-waste generation
Mode of Disposal of waste:	Dry waste:	Dry garbage will be disposed off to recyclers
	Wet waste:	Wet garbage will be composted using Mechanical Composting unit and used as organic manure for landscaping.
	Hazardous waste:	Authorized recyclers
	Biomedical waste (If applicable):	NA
	STP Sludge (Dry sludge):	Sludge use as manure for gardening
	Others if any:	Authorized recyclers
Area requirement:	Location(s):	Ground
	Area for the storage of waste & other material:	100 m <sup>2</sup>
	Area for machinery:	25 m <sup>2</sup>
Budgetary allocation (Capital cost and O&M cost):	Capital cost:	Rs. 12 lakh
	O & M cost:	Rs. 6 Lakh/year

Government of  
Maharashtra

	<b>Date of online submission</b>	-

**3. The proposal has been considered by SEIAA in its 174th meeting & decided to accord environmental clearance to the said project under the provisions of Environment Impact Assessment Notification, 2006 subject to implementation of the following terms and conditions:**

**Specific Conditions:**

<b>I</b>	It is noted that, representative of PP not submitted the authority letter. PP to submit the same along with copy of company resolution.
<b>II</b>	PP to submit the company merger document.
<b>III</b>	PP to submit dated Architect certificate addressing to committee regarding building wise construction done on site as per EC accorded in 2006 & 2014.
<b>IV</b>	PP stated that there is minor change in FSI (1,32,631.46 Sq.mt instead of 132331.76 Sq.mt) & NoN- FSI area (260503.05 Sq.mt instead of 260802.75 Sq.mt) stated in the CS while total built up area is the same. PP to revise the online CS to that extent only.
<b>V</b>	Local planning authority to ensure the structural stability of building for which vertical expansion is proposed.
<b>VI</b>	PP to upload the HRC NoC.
<b>VII</b>	The PP to get NOC from competent authority with reference to Thane creek flamingo sanctuary if the project site falls within 10 Km radius from the said sanctuary boundary. The planning authority to ensure fulfilment of this condition before granting CC.
<b>VIII</b>	PP to submit CER plan to Municipal Commissioner/District Collector and submit the acknowledgement to Member Secretary, SEIAA.

<b>IX</b>	PP Shall comply with Standard EC conditions mentioned in the Office Memorandum issued by MoEF & CC vide F.No.22-34/2018-IA.III dt.04.01.2019.
<b>X</b>	SEIAA decided to grant EC for: FSI: 132631.46 m2, Non-FSI: 260503.05 m2 and Total BUA: 393134.51 m2 ( IOD no-EB/5204/E/A, Date-13.03.2019)

**General Conditions:**

<b>I</b>	E-waste shall be disposed through Authorized vendor as per E-waste (Management and Handling) Rules, 2016.
<b>II</b>	The Occupancy Certificate shall be issued by the Local Planning Authority to the project only after ensuring sustained availability of drinking water, connectivity of sewer line to the project site and proper disposal of treated water as per environmental norms.
<b>III</b>	This environmental clearance is issued subject to obtaining NOC from Forestry & Wild life angle including clearance from the standing committee of the National Board for Wild life as if applicable & this environment clearance does not necessarily imply that Forestry & Wild life clearance granted to the project which will be considered separately on merit.
<b>IV</b>	PP has to abide by the conditions stipulated by SEAC & SEIAA.
<b>V</b>	The height, Construction built up area of proposed construction shall be in accordance with the existing FSI/FAR norms of the urban local body & it should ensure the same along with survey number before approving layout plan & before according commencement certificate to proposed work. Plan approving authority should also ensure the zoning permissibility for the proposed project as per the approved development plan of the area.
<b>VI</b>	If applicable "Consent for Establishment" shall be obtained from Maharashtra Pollution Control Board under Air and Water Act and a copy shall be submitted to the Environment department before start of any construction work at the site.
<b>VII</b>	All required sanitary and hygienic measures should be in place before starting construction activities and to be maintained throughout the construction phase.
<b>VIII</b>	Adequate drinking water and sanitary facilities should be provided for construction workers at the site. Provision should be made for mobile toilets. The safe disposal of wastewater and solid wastes generated during the construction phase should be ensured.
<b>IX</b>	The solid waste generated should be properly collected and segregated. dry/inert solid waste should be disposed off to the approved sites for land filling after recovering recyclable material.
<b>X</b>	Disposal of muck during construction phase should not create any adverse effect on the neighboring communities and be disposed taking the necessary precautions for general safety and health aspects of people, only in approved sites with the approval of competent authority.
<b>XI</b>	Arrangement shall be made that waste water and storm water do not get mixed.
<b>XII</b>	All the topsoil excavated during construction activities should be stored for use in horticulture / landscape development within the project site.
<b>XIII</b>	Additional soil for leveling of the proposed site shall be generated within the sites (to the extent possible) so that natural drainage system of the area is protected and improved.
<b>XIV</b>	Green Belt Development shall be carried out considering CPCB guidelines including selection of plant species and in consultation with the local DFO/ Agriculture Dept.
<b>XV</b>	Soil and ground water samples will be tested to ascertain that there is no threat to ground water quality by leaching of heavy metals and other toxic contaminants.
<b>XVI</b>	Construction spoils, including bituminous material and other hazardous materials must not be allowed to contaminate watercourses and the dumpsites for such material must be secured so that they should not leach into the ground water.
<b>XVII</b>	Any hazardous waste generated during construction phase should be disposed off as per applicable rules and norms with necessary approvals of the Maharashtra Pollution Control Board.
<b>XVIII</b>	The diesel generator sets to be used during construction phase should be low sulphur diesel type and should conform to Environment (Protection) Rules prescribed for air and noise emission standards.
<b>XIX</b>	The diesel required for operating DG sets shall be stored in underground tanks and if required, clearance from concern authority shall be taken.
<b>XX</b>	Vehicles hired for bringing construction material to the site should be in good condition and should have a pollution check certificate and should conform to applicable air and noise emission standards and should be operated only during non-peak hours.
<b>XXI</b>	Ambient noise levels should conform to residential standards both during day and night. Incremental pollution loads on the ambient air and noise quality should be closely monitored during construction phase. Adequate measures should be made to reduce ambient air and noise level during construction phase, so as to conform to the stipulated standards by CPCB/MPCB.

XXII	Fly ash should be used as building material in the construction as per the provisions of Fly Ash Notification of September 1999 and amended as on 27th August, 2003. (The above condition is applicable only if the project site is located within the 100Km of Thermal Power Stations).
XXIII	Ready mixed concrete must be used in building construction.
XXIV	Storm water control and its re-use as per CGWB and BIS standards for various applications.
XXV	Water demand during construction should be reduced by use of pre-mixed concrete, curing agents and other best practices referred.
XXVI	The ground water level and its quality should be monitored regularly in consultation with Ground Water Authority.
XXVII	The installation of the Sewage Treatment Plant (STP) should be certified by an independent expert and a report in this regard should be submitted to the MPCB and Environment department before the project is commissioned for operation. Discharge of this unused treated effluent, if any should be discharge in the sewer line. Treated effluent emanating from STP shall be recycled/refused to the maximum extent possible. Discharge of this unused treated effluent, if any should be discharge in the sewer line. Treatment of 100% gray water by decentralized treatment should be done. Necessary measures should be made to mitigate the odour problem from STP.
XXVIII	Permission to draw ground water and construction of basement if any shall be obtained from the competent Authority prior to construction/operation of the project.
XXIX	Separation of gray and black water should be done by the use of dual plumbing line for separation of gray and black water.
XXX	Fixtures for showers, toilet flushing and drinking should be of low flow either by use of aerators or pressure reducing devices or sensor based control.
XXXI	Use of glass may be reduced up to 40% to reduce the electricity consumption and load on air conditioning. If necessary, use high quality double glass with special reflective coating in windows.
XXXII	Roof should meet prescriptive requirement as per Energy Conservation Building Code by using appropriate thermal insulation material to fulfill requirement.
XXXIII	Energy conservation measures like installation of CFLs /TFLs for the lighting the areas outside the building should be integral part of the project design and should be in place before project commissioning. Use CFLs and TFLs should be properly collected and disposed off/sent for recycling as per the prevailing guidelines/rules of the regulatory authority to avoid mercury contamination. Use of solar panels may be done to the extent possible like installing solar street lights, common solar water heaters system. Project proponent should install, after checking feasibility, solar plus hybrid non-conventional energy source as source of energy.
XXXIV	Diesel power generating sets proposed as source of backup power for elevators and common area illumination during operation phase should be of enclosed type and conform to rules made under the Environment (Protection) Act, 1986. The height of stack of DG sets should be equal to the height needed for the combined capacity of all proposed DG sets. Use low sulphur diesel. The location of the DG sets may be decided with in consultation with Maharashtra Pollution Control Board.
XXXV	Noise should be controlled to ensure that it does not exceed the prescribed standards. During nighttime the noise levels measured at the boundary of the building shall be restricted to the permissible levels to comply with the prevalent regulations.
XXXVI	Traffic congestion near the entry and exit points from the roads adjoining the proposed project site must be avoided. Parking should be fully internalized and no public space should be utilized.
XXXVII	Opaque wall should meet prescriptive requirement as per Energy Conservation Building Code, which is proposed to be mandatory for all air-conditioned spaces while it is aspiration for non-air-conditioned spaces by use of appropriate thermal insulation material to fulfill requirement.
XXXVIII	The building should have adequate distance between them to allow movement of fresh air and passage of natural light, air and ventilation.
XXXIX	Regular supervision of the above and other measures for monitoring should be in place all through the construction phase, so as to avoid disturbance to the surroundings.
XL	Under the provisions of Environment (Protection) Act, 1986, legal action shall be initiated against the project proponent if it was found that construction of the project has been started without obtaining environmental clearance.
XLI	Six monthly monitoring reports should be submitted to the Regional office MoEF, Bhopal with copy to this department and MPCB.
XLII	Project proponent shall ensure completion of STP, MSW disposal facility, green belt development prior to occupation of the buildings. As agreed during the SEIAA meeting, PP to explore possibility of utilizing excess treated water in the adjacent area for gardening before discharging it into sewer line No physical occupation or allotment will be given unless all above said environmental infrastructure is installed and made functional including water requirement in Para 2. Prior certification from appropriate authority shall be obtained.

<b>XLIII</b>	Wet garbage should be treated by Organic Waste Converter and treated waste (manure) should be utilized in the existing premises for gardening. And, no wet garbage will be disposed outside the premises. Local authority should ensure this.
<b>XLIV</b>	Local body should ensure that no occupation certification is issued prior to operation of STP/MSW site etc. with due permission of MPCB.
<b>XLV</b>	A complete set of all the documents submitted to Department should be forwarded to the Local authority and MPCB.
<b>XLVI</b>	In the case of any change(s) in the scope of the project, the project would require a fresh appraisal by this Department.
<b>XLVII</b>	A separate environment management cell with qualified staff shall be set up for implementation of the stipulated environmental safeguards.
<b>XLVIII</b>	Separate funds shall be allocated for implementation of environmental protection measures/EMP along with item-wise breaks-up. These cost shall be included as part of the project cost. The funds earmarked for the environment protection measures shall not be diverted for other purposes and year-wise expenditure should reported to the MPCB & this department.
<b>XLIX</b>	The project management shall advertise at least in two local newspapers widely circulated in the region around the project, one of which shall be in the Marathi language of the local concerned within seven days of issue of this letter, informing that the project has been accorded environmental clearance and copies of clearance letter are available with the Maharashtra Pollution Control Board and may also be seen at Website at <a href="http://ec.maharashtra.gov.in">http://ec.maharashtra.gov.in</a> .
<b>L</b>	Project management should submit half yearly compliance reports in respect of the stipulated prior environment clearance terms and conditions in hard & soft copies to the MPCB & this department, on 1st June & 1st December of each calendar year.
<b>LI</b>	A copy of the clearance letter shall be sent by proponent to the concerned Municipal Corporation and the local NGO, if any, from whom suggestions/representations, if any, were received while processing the proposal. The clearance letter shall also be put on the website of the Company by the proponent.
<b>LII</b>	The proponent shall upload the status of compliance of the stipulated EC conditions, including results of monitored data on their website and shall update the same periodically. It shall simultaneously be sent to the Regional Office of MoEF, the respective Zonal Office of CPCB and the SPCB. The criteria pollutant levels namely; SPM, RSPM, SO <sub>2</sub> , NO <sub>x</sub> (ambient levels as well as stack emissions) or critical sector parameters, indicated for the project shall be monitored and displayed at a convenient location near the main gate of the company in the public domain.
<b>LIII</b>	The project proponent shall also submit six monthly reports on the status of compliance of the stipulated EC conditions including results of monitored data (both in hard copies as well as by e-mail) to the respective Regional Office of MoEF, the respective Zonal Office of CPCB and the SPCB.
<b>LIV</b>	The environmental statement for each financial year ending 31st March in Form-V as is mandated to be submitted by the project proponent to the concerned State Pollution Control Board as prescribed under the Environment (Protection) Rules, 1986, as amended subsequently, shall also be put on the website of the company along with the status of compliance of EC conditions and shall also be sent to the respective Regional Offices of MoEF by e-mail.

# Government of Maharashtra

4. The environmental clearance is being issued without prejudice to the action initiated under EP Act or any court case pending in the court of law and it does not mean that project proponent has not violated any environmental laws in the past and whatever decision under EP Act or of the Hon'ble court will be binding on the project proponent. Hence this clearance does not give immunity to the project proponent in the case filed against him, if any or action initiated under EP Act.

5. In case of submission of false document and non-compliance of stipulated conditions, Authority/ Environment Department will revoke or suspend the Environment clearance without any intimation and initiate appropriate legal action under Environmental Protection Act, 1986.

6. The Environment department reserves the right to add any stringent condition or to revoke the clearance if conditions stipulated are not implemented to the satisfaction of the department or for that matter, for any other administrative reason.

7. Validity of Environment Clearance: The environmental clearance accorded shall be valid as per EIA Notification, 2006, and amendments by MoEF&CC Notification dated 29th April, 2015.

8. In case of any deviation or alteration in the project proposed from those submitted to this department for clearance, a fresh reference should be made to the department to assess the adequacy of the condition(s) imposed and to incorporate additional environmental protection measures required, if any.

9. The above stipulations would be enforced among others under the Water (Prevention and Control of Pollution) Act, 1974, the Air (Prevention and Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986 and rules there under, Hazardous Wastes (Management and Handling) Rules, 1989 and its amendments, the public Liability Insurance Act, 1991 and its amendments.

10. Any appeal against this Environment clearance shall lie with the National Green Tribunal (Western Zone Bench, Pune), New Administrative Building, 1st Floor, D- Wing, Opposite Council Hall, Pune, if preferred, within 30 days as prescribed under Section 16 of the National Green Tribunal Act, 2010.

Construction House 'A', 24<sup>th</sup> Road,  
Khar, (W)  
Mumbai 400052

**Subject: Environmental Clearance for construction of Residential Complex at  
Byculla Mumbai by M/s K. Raheja Corporation Pvt. Ltd.**

Sir,

I am directed to refer to your application seeking prior environmental clearance for the above project under the EIA Notification 1994 as amended on July 7, 2004. The above proposal has been appraised as per prescribed procedure on the basis of the mandatory documents enclosed with the application viz., the Questionnaire, EIA, EMP, Public Hearing proceedings and the additional clarifications furnished in response to the observations of the Expert Appraisal Committee (EAC) constituted by the competent authority in its meeting held on 26-27 July, 2006.

2. The project proponent is setting up a Residential Complex at sub plot B of CS No. 1903 (Pt.), 1904 (Pt.), 1905, 1/1905, 2/1905 of Byculla Division, Dr A. L Nair Road, Jacob Circle, Byculla, Mumbai. The project involves construction of 486 dwelling units in four buildings. ~~The project area is 1.59 ha. The total built up area will be 330 m<sup>3</sup>/day and total wastewater generated will be 296 m<sup>3</sup>/day. Separate sewage treatment plant will be provided to treat sewage generated from each building. Additionally, a common STP is also proposed to treat 460 m<sup>3</sup>/day sewage. The solid waste generation will be 0.49 t/day during operation phase. The in-vessel composting of biodegradable waste will be done. The non-biodegradable waste will be disposed of for land filling.~~

3. The EIA report submitted along with the application predicts negligible impacts with regard to Ambient Air Quality and minor & negligible impact with regard to Noise during both the construction as well as the operation phase. There will be positive impact on hydrology and natural drainage due to proposed measures for construction of storm water drain. Due to plantation of 1198 trees and development of recreational area, surrounding area will have positive impact on land use.

4. The EAC after due consideration of the relevant documents submitted by the project proponent, responses to the public concerns expressed during the public hearing and additional clarifications furnished in response to its observations have recommended the grant of environmental clearance for the projects mentioned above subject to compliance with the EMP and other stipulated conditions. Accordingly, the Ministry hereby accords necessary environmental clearance for the project subject to the strict compliance with the specific and general conditions mentioned below:

## PART A- SPECIFIC CONDITIONS

### I. Construction Phase

- i) All required sanitary and hygienic measures should be in place before starting construction activities and to be maintained throughout the construction phase.
- ii) Soil and ground water samples will be tested to ascertain that there is no threat to groundwater quality by leaching of heavy metals and other toxic contaminants.
- iii) A First Aid Room will be provided at the project site both during construction and operation of the project.
- iv) Adequate drinking water and sanitary facilities should be provided for construction workers at the site. The safe disposal of wastewater and solid wastes generated during the construction phase should be ensured.
- v) All the top soil excavated during construction activities should be stored for use in horticulture/landscape development within the project site.
- vi) Disposal of muck including excavated material during construction phase should not create any adverse effects on the neighboring communities and be disposed off taking the necessary precautions for general safety and health aspects of people.
- vii) Use of diesel power generating sets during construction phase should be enclosed type to prevent noise and should conform to rules made under Environment (Protection) Act 1986, prescribed for air and noise emission standards.
- viii) Vehicles hired for bringing construction material at site should be in good condition and should conform to applicable air and noise emission standards and should be operated only during non-peaking hours.
- ix) Ambient noise levels should conform to residential standards both during day and night. Incremental pollution loads on the ambient air and noise quality should be closely monitored during construction phase.

x) Construction spoils including bituminous material and other hazardous materials must not be allowed to contaminate watercourses and the dump sites for such material must be secured so that they should not leach into the ground water.

xi) Regular supervision of the above and other measures for monitoring should be in place all through the construction phase so as to avoid disturbance to the surroundings.

## II: Operation Phase

The environmental clearance recommended to the project is subject to the specific conditions as follows:

i. Only one DG set of adequate capacity shall be provided for backup power.

ii. Adequate parking space shall be provided for buses and cars and also for their movement at ground level. Vehicles shall not be parked on the main road outside the plot area.

iii. During night time the noise levels measured at the boundary of the building shall be restricted to the permissible levels to comply with the prevalent regulations.

iv. Oil & Grease trap shall be provided to remove oil and grease from the surface run off and suspended matter shall be removed in a settling tank before its utilization for rainwater harvesting.

v. The leachate from vermi-composting shall be treated in sewage treatment plant.

vi. The sewage treatment plant (STP) should be certified by an independent expert for efficiency as well as adequacy and should submit a report in this regard to the Ministry before the project is commissioned for operation. The wastewater should be treated to tertiary level and after treatment reused for flushing of toilets and gardening. Discharge of treated sewage shall conform to the norms & standards prescribed by Maharashtra State Pollution Control Board.

vii. Water harvesting system and energy conservation measures like installation of solar panels for lighting the areas outside the building should be integral part of the project design and should be in place before project commissioning.

viii. Noise barriers should be provided at appropriate locations so as to ensure that the noise levels do not exceed the prescribed standards.

ix. The solid waste generated should be properly collected & segregated before disposal to the City Municipal Facility. Wet garbage should be disposed by the vermi-culture method.

x. Any hazardous waste including biomedical waste should be disposed of as per applicable Rules & norms with necessary approvals of the Maharashtra State Pollution Control Board.

xi. Diesel power generating sets proposed as source of back up power for lifts and common area illumination should be of enclosed type and conform to rules made under Environment (Protection) Act 1986, prescribed for air and noise emission standards as per CPCB guidelines. Exhausts should be discharged by stack, raised to 4 meters above the rooftop.

xii. The green belt design along the periphery of the plot shall achieve attenuation factor conforming to the day and night noise standards prescribed for residential land use. The open spaces inside the plot should be suitably landscaped and covered with vegetation of indigenous variety.

xiii. Incremental pollution loads on the ambient air quality, noise and water quality should be periodically monitored after commissioning of the project.

xiv. The ground water levels and its quality should be monitored regularly.

xv. Adequate measure should be taken to avoid any traffic congestion near the entry and exit points from the roads adjoining the proposed project site.

xvi. A Report on the energy conservation measures should be prepared incorporating details about building materials & technology, R & U Factors etc and submitted to the Ministry in three months time.

xvi. The values of R & U for the building envelope should meet the requirements of the hot & humid climatic location. Details of the building envelope should be worked out and furnished in three months time.

xvii. Suitable insulation material should be provided in the roof structure to reduce the U value to about 0.35 Watts per sqm per degree Centigrade.

## **PART – B. GENERAL CONDITIONS**

i) The environmental safeguards contained in the EIA Report should be implemented in letter and spirit.

ii) Provision should be made for the supply of kerosene or cooking gas and pressure cooker to the laborers during construction phase.

iii) All the laborers to be engaged for construction works should be screened for health and adequately treated before the issue of work permits:

iv) 6 monthly monitoring reports should be submitted to the Ministry and its Regional Office.

5. Officials from the Regional Office of MOEF, Bhopal who would be monitoring the implementation of environmental safeguards should be given full cooperation, facilities and documents / data by the project proponents during their inspection. A complete set of all the documents submitted to MoEF should be forwarded to the CCF, Regional office of MOEF, Bhopal.

6. In the case of any change(s) in the scope of the project, the project would require a fresh appraisal by this Ministry.

7. The Ministry reserves the right to add additional safeguard measures subsequently, if found necessary, and to take action including revoking of the environment clearance under the provisions of the Environment (Protection) Act, 1986, to ensure effective implementation of the suggested safeguard measures in a time bound and satisfactory manner.

8. All other statutory clearances such as the approvals for storage of diesel from Chief Controller of Explosives, Fire Department, Civil Aviation Department (if required), CRZ Regulations etc. shall be obtained by project proponents from the competent authorities.

9. A copy of the environmental clearance letter would be marked to the local NGO(s), if any, from whom suggestion/representation were received at the time of public hearing.

10. The project proponent should advertise in at least two local Newspapers widely circulated in the region, one of which shall be in the vernacular language informing that the project has been accorded environmental clearance and copies of clearance letters are available with the Maharashtra State Pollution Control Board and may also be seen on the website of the Ministry of Environment and Forests at <http://www.envfor.nic.in>. The advertisement should be made within 7 days from the day of issue of the clearance letter and a copy of the same should be forwarded to the Regional office of this Ministry at Bhopal.

11. These stipulations would be enforced among others under the provisions of the Water (Prevention and Control of Pollution) Act, 1974, the Air (Prevention and control of Pollution) act 1981, the Environment (Protection) Act, 1986, the Public Liability (Insurance) Act, 1991 and EIA Notification, 1994 including the amendments.

12. The project authority will enter in to MOU with all buyers of the property/flat etc. to ensure operation and maintenance of the assets handed over to the society formed by the residents/owners of the buildings.

Mumbai- 400 032.  
Dated: 29<sup>th</sup> September, 2014

To,  
M/s. Genext Hardware & Parks Pvt. Ltd (Developers)  
CA To Capricon Realty Ltd.  
Raheja Tower  
Plot No. C-30, Block G, Opp SIDBI,  
BandraKurla Complex, Bandra (East), Mumbai

**Subject: Environment clearance for proposed residential complex & composite building with commercial wing and a Municipal Parking Lot wing on plot bearing CS No. 903 (pt), 1904 (pt), 1905, 1/1905, 2/1905 at Byculla Division, Mumbai by M/s K Raheja Corp - Genext Hardware & Parks Private Ltd.**

Sir,

This has reference to your communication on the above mentioned subject. The proposal was considered as per the EIA Notification - 2006, by the State Level Expert Appraisal Committee-II, Maharashtra in its 27<sup>th</sup> meeting and recommend the project for prior environmental clearance to SEIAA. Information submitted by you has been considered by State Level Environment Impact Assessment Authority in its 73<sup>rd</sup> meeting.

2. It is noted that the proposal is for grant of Environmental Clearance for proposed residential complex & composite building with commercial wing and a Municipal Parking Lot wing on plot bearing CS No. 903 (pt), 1904 (pt), 1905, 1/1905, 2/1905 at Byculla Division, Mumbai. SEAC-II considered the project under screening category 8(b) B1 as per EIA Notification 2006.

**Brief Information of the project submitted by Project Proponent is as-**

Name of Project	Proposed additional development and expansion to the Residential Complex along with the proposed Composite Building with a Municipal Public Parking Lot and a Residential wing.
Project Proponent	M/s K Raheja Corp - Genext Hardware & Parks Private Ltd.
Consultant	Mahabal Enviro Engineers Pvt. Ltd.
Type of project	It is expansion and additional development of Residential Project along with Municipal Public Parking Lot.

Location of the project	Sub plot "B" bearing C.S. No. 1903 (pt), 1904 (pt), 1905, 1/1905, 2/1905 of Byculla Division abutting Dr. A. L. Nair road and Maulana Azad Road, Jacob Circle, Mahalaxmi.			
Whether in corporation / Municipal / Other area	Municipal Corporation of Greater Mumbai			
Applicability of the DCR	Regulations Nos. 23, 58 and 33(24) of DCR 1991 modified till date.			
Note on the initiated work (if applicable)	Total constructed work (FSI + Non FSI):	Construction work of three towers from the previous EC is done. The Built up area of 65,846.16 m <sup>2</sup> and construction area of 1,82,485.39 m <sup>2</sup> is completed. Construction work for further development not started.		
	Date and area details in the necessary approvals issued by the competent authority (attach scan copy)	EC No. 21-68/2006-IA.III dt.1 <sup>st</sup> September 2006.		
LOI / NOC from MHADA / Other approvals (if applicable)	IOD / LOI for PPL are obtained.			
Total Plot Area Deductions Net plot area	Plot Area = 61,520.46 m <sup>2</sup> Road Setback = 3062.00 m <sup>2</sup> MHADA = 542.10 m <sup>2</sup> BMC R.G = 662.61 m <sup>2</sup>  ----- Net Plot Area = 57,253.75 m <sup>2</sup>			
Permissible FSI (Including TDR etc.)	Plot FSI : 81,101.22 m <sup>2</sup> Public Parking Lot FSI (Incentive): 32,727.07 m <sup>2</sup> Fungible FSI : 16793.74 m <sup>2</sup>  ----- Total Permissible : 1,30,622.04 m <sup>2</sup>			
Proposed Built-up Area (FSI & Non-FSI)		As per EC	Work Completed	Proposed Expansion
	FSI Area (m <sup>2</sup> )	81,101.22 m <sup>2</sup>	65846.16m <sup>2</sup>	64,142.62 m <sup>2</sup>
	Non FSI Area (m <sup>2</sup> )	-	1,16,639.23 m <sup>2</sup>	1,41,403.80 m <sup>2</sup>
	Construction area (m <sup>2</sup> )	-	1,82,485.39m <sup>2</sup>	2,05,546.42m <sup>2</sup>
Ground coverage percentage (Note: Percentage of plot not open to sky)	Since Bldg. No. 1 has been completed and BCC from MCGM has been obtained, the proposed development (Bldg. No. 2 and Bldg. No.3) envisages provision of Ground Coverage of 43%.			

Estimated cost of the project	Rs. 888.0 Cr	
No. of Buildings & its configuration	As per EC received	Proposed Development
	<u>Towers B1,B2 and A1:</u> Stilt + 41 upper floors over two levels of podium.	<u>Bldg No. 2:</u> 2 Basements + 2 Parking Floors + Stilts + 44 Upper Floors. (17 Floors are as per the Residual Construction from EC No. 21-68/2006-IA.III dt. 1 <sup>st</sup> September 2006)
	<u>Tower B3:</u> 2Parking Floors + Stilts+39 upper floors 2 Parking floors are common for all four tower	<u>Bldg No. 3:- Composite Bldg. (Additional Construction) :</u>  Residential Wing:- 3 Basement (pt)+Gr (pt) + intermediate Parking Floor + 4 Parking Floors (pt)+2 Parking Floors (full) + Stilts + 43 Upper Floors Municipal Public Parking Lot: 3 Basements (pt) + Ground (pt) +4 Upper Floors (pt). To be handed over to MCGM and 5 <sup>th</sup> & 6 <sup>th</sup> Floor above MPPL will be retained for Residential parking.
Number of tenants	As per EC construction completed	Proposed Development
	318	230
Number of expected residents / users	1150	
Tenant density per hector	-	
Height of the building(s)	Maximum Height of the building : 190.10 m	
Right of way (width of the road from the nearest fire station to the proposed building)	36.60 m wide Dr. A.L. Nair Marg on West side (proposed) 27.43 m wide Maulana Azad Marg on East side Nearest fire station : Byculla fire station at ~ 1.0 km	
Turning radius for easy access of fire tender movement from all around the building excluding the width for the plantation	Min width of 9.00 m	

Existing Structure	Building No. 1 consists of Tower A, B and C for which OC is obtained as per the NOC obtained from New Delhi u/r 21-68/2006-IA.III dated 1 <sup>st</sup> Sept 2006.	
Details of the demolition with disposal (if applicable)	NA	
Particular	DETAILS	PROPOSED
Total Water requirement	Dry Season	
	Fresh water (KLD)	108 KLD
	Source	MCGM
	Recycled Water (KLD)	96 KLD
	Total water requirement (KLD)	170 KLD(Domestic + Flushing)
	Swimming pool make up (cum)	-
	Firefighting (cum)	As per NBC
	Wet Season	
	Fresh water (KLD)	73 KLD
	Source	MCGM
	Recycled Water (KLD)	62 KLD
	Total water requirement (KLD)	135 KLD (Domestic + Flushing)
	Swimming pool make up (cum)	-
	Firefighting (cum)	As per NBC
Rain Water Harvesting (RWH)	Level of ground water table	3 m
	Size and No. of RWH tanks and quantity	Two Numbers of RWH tanks with 85.0 m <sup>3</sup> capacity each.
	Location of RWH tank	Lower Basement
	Size and no. of recharge pits and quantity	-
	Budgetary allocation	Capital Cost: 25 Lakh O & M Cost: 2 Lakh
UG Tanks	Location of UG tank	Lower Basement
Storm Water Drainage	Natural water drainage pattern	Toward East and West Side
	Quantity of storm water	2980.71 m <sup>3</sup> /hr
	Size of SWD	0.35 x 0.35m, 0.45 x 0.6m, 0.6 x 0.8m
Sewage and waste	Sewage generation (CMD)	159 KLD

water		
	STP Technology	MBBR Technology
	Capacity of STP (CMD)	3 STPs will be provided with capacity 100 m <sup>3</sup> (for bldg. No. 2), 100 m <sup>3</sup> (for bldg No. 3) and 20 m <sup>3</sup> for MPPL
	Location of the STP	Bldg No. 2: Ground Floor Bldg No. 3: a. Resi. Bldg: 2nd Floor Parking Lvl. b. MPPL: Ground Floor.
	DG sets (during emergency)	Building No. 2: 1 x 1250 kVA Building No. 3 : Resi. Bldg: 2 x 500kVA, 1 x 250 kVA MPPL: 1 x 1250 kVA
	Budgetary allocation	Capital Cost: 45 Lakh O & M Cost: 9 Lakh
Solid waste management	Waste generation in the pre-construction and construction phase for Bldg. No. 2 and Bldg. No. 3	
	Waste generation	-
	Quantity of the top soil to be preserved	Nil
	Disposal of the construction way debris	The construction debris will be disposed as per the "Construction and Demolition and Desilting Waste (Management and Disposal) Rules 2006.
	Waste generation in the Operation phase	
	Dry Waste (kg/d)	385 Kg/day
	Wet Waste (kg/d)	257 Kg/day
	E – Waste (kg/month)	-
	Hazardous Waste (kg/month)	NA
	Biomedical Waste (kg/month)	NA
	STP Sludge (dry sludge) (kg/d)	2 m <sup>3</sup>
	Mode of Disposal of Waste	
	Dry Waste	Dry garbage will be segregated & disposed off to recyclers
	Wet Waste	Wet garbage will be composted using Mechanical Composting Technology and used as organic manure for landscaping.
	E-waste	NA

	Hazardous Waste	NA
	Biomedical Waste	NA
	STP sludge (dry sludge)	Sludge use as manure for gardening
	Area requirement	
	Location and total area provided for the storage and treatment of the solid waste	On Ground Floor
	Budgetary allocation	Capital Cost: 12 Lakh O & M Cost: 6 Lakh
Green Belt Development		
	Existing Landscape.	13,656.16 m <sup>2</sup>
	R.G on ground	425 m <sup>2</sup>
	Proposed Landscape area on Podium of Bldg. No. 2 and 3	6,202.66 m <sup>2</sup>
	Proposed Landscape area on Ground	425 m <sup>2</sup>
	Plantation	
	Number and list of trees species to be planted on the ground RG.	
	Number and list of shrubs and bushes species to be planted in the podium RG	Nil
	Number and list of trees species to be planted around the border of nallah / stream / pond (if any)	NA
	Number, size, age and species of trees to be cut, trees to be transplanted	
	NOC for the tree cutting / transplantation/ compensatory plantation, if any	Trees cutting permission obtained as shown in the above list.
	Budgetary allocation	Capital Cost: 116 Lakh O & M Cost: 12 Lakh
Energy	Power supply	
	Maximum demand	Bldg. 2 : 1532 kW Bldg. 3 : 1411 kW MPPL : 892.5 kW
	Connect load	Bldg. 2 : 4383kW Bldg. 3 : 3920 kW MPPL : 1561 kW

3. The proposal has been considered by SEIAA in its 73<sup>rd</sup> meeting & decided to accord environmental clearance to the said project under the provisions of Environment Impact Assessment Notification, 2006 subject to implementation of the following terms and conditions :

- (i) This environmental clearance is issued subject to land use verification. Local authority / planning authority should ensure this with respect to Rules, Regulations, Notifications, Government Resolutions, Circulars, etc. issued if any. Judgments/orders issued by Hon'ble High Court, Hon'ble NGT, Hon'ble Supreme Court regarding DCR provisions, environmental issues applicable in this matter should be verified. PP should submit exactly the same plans appraised by concern SEAC and SEIAA. If any discrepancy found in the plans submitted or details provided in the above para may be reported to environment department. This environmental clearance issued with respect to the environmental consideration and it does not mean that State Level Impact Assessment Authority (SEIAA) approved the proposed land use.
- (ii) This environmental clearance is issued subject to obtaining NOC from Forestry & Wild life angle including clearance from the standing committee of the National

Board for Wild life as if applicable & this environment clearance does not necessarily implies that Forestry & Wild life clearance granted to the project which will be considered separately on merit.

- (iii) PP has to abide by the conditions stipulated by SEAC & SEIAA
- (iv) The height, Construction built up area of proposed construction shall be in accordance with the existing FSI/FAR norms of the urban local body & it should ensure the same along with survey number before approving layout plan & before according commencement certificate to proposed work. Plan approving authority should also ensure the zoning permissibility for the proposed project as per the approved development plan of the area.
- (v) "Consent for Establishment" shall be obtained from Maharashtra Pollution Control Board under Air and Water Act and a copy shall be submitted to the Environment department before start of any construction work at the site.
- (vi) All required sanitary and hygienic measures should be in place before starting construction activities and to be maintained throughout the construction phase.
- (vii) Project proponent shall ensure completion of STP, MSW disposal facility, green belt development prior to occupation of the buildings. No physical occupation or allotment will be given unless all above said environmental infrastructure is installed and made functional including water requirement in Para 2. Prior certification from appropriate authority shall be obtained.
- (viii) Provision shall be made for the housing of construction labour within the site with all necessary infrastructure and facilities such as fuel for cooking, mobile toilets, mobile STP, safe drinking water, medical health care, crèche and First Aid Room etc.
- (ix) Adequate drinking water and sanitary facilities should be provided for construction workers at the site. Provision should be made for mobile toilets. The safe disposal of wastewater and solid wastes generated during the construction phase should be ensured.
- (x) The solid waste generated should be properly collected and segregated. dry/inert solid waste should be disposed off to the approved sites for land filling after recovering recyclable material.
- (xi) Wet garbage should be treated by Organic Waste Converter and treated waste (manure) should be utilized in the existing premises for gardening. And, no wet garbage will be disposed outside the premises. Local authority should ensure this.
- (xii) Arrangement shall be made that waste water and storm water do not get mixed.
- (xiii) All the topsoil excavated during construction activities should be stored for use in horticulture / landscape development within the project site.

- (xiv) Additional soil for leveling of the proposed site shall be generated within the sites (to the extent possible) so that natural drainage system of the area is protected and improved.
- (xv) Green Belt Development shall be carried out considering CPCB guidelines including selection of plant species and in consultation with the local DFO/ Agriculture Dept.
- (xvi) Disposal of muck during construction phase should not create any adverse effect on the neighboring communities and be disposed taking the necessary precautions for general safety and health aspects of people, only in approved sites with the approval of competent authority.
- (xvii) Soil and ground water samples will be tested to ascertain that there is no threat to ground water quality by leaching of heavy metals and other toxic contaminants.
- (xviii) Construction spoils, including bituminous material and other hazardous materials must not be allowed to contaminate watercourses and the dumpsites for such material must be secured so that they should not leach into the ground water.
- (xix) Any hazardous waste generated during construction phase should be disposed off as per applicable rules and norms with necessary approvals of the Maharashtra Pollution Control Board.
- (xx) The diesel generator sets to be used during construction phase should be low sulphur diesel type and should conform to Environments (Protection) Rules prescribed for air and noise emission standards.
- (xxi) The diesel required for operating DG sets shall be stored in underground tanks and if required, clearance from concern authority shall be taken.
- (xxii) Vehicles hired for bringing construction material to the site should be in good condition and should have a pollution check certificate and should conform to applicable air and noise emission standards and should be operated only during non-peak hours.
- (xxiii) Ambient noise levels should conform to residential standards both during day and night. Incremental pollution loads on the ambient air and noise quality should be closely monitored during construction phase. Adequate measures should be made to reduce ambient air and noise level during construction phase, so as to conform to the stipulated standards by CPCB/MPCB.
- (xxiv) Fly ash should be used as building material in the construction as per the provisions of Fly Ash Notification of September 1999 and amended as on 27th August, 2003. (The above condition is applicable only if the project site is located within the 100Km of Thermal Power Stations).
- (xxv) Ready mixed concrete must be used in building construction.
- (xxvi) The approval of competent authority shall be obtained for structural safety of the buildings due to any possible earthquake, adequacy of fire fighting equipments etc. as per National Building Code including measures from lighting.

- (xxvii) Storm water control and its re-use as per CGWB and BIS standards for various applications.
- (xxviii) Water demand during construction should be reduced by use of pre-mixed concrete, curing agents and other best practices referred.
- (xxix) The ground water level and its quality should be monitored regularly in consultation with Ground Water Authority.
- (xxx) The installation of the Sewage Treatment Plant (STP) should be certified by an independent expert and a report in this regard should be submitted to the MPCB and Environment department before the project is commissioned for operation. Discharge of this unused treated effluent, if any should be discharge in the sewer line. Treated effluent emanating from STP shall be recycled/refused to the maximum extent possible. Discharge of this unused treated effluent, if any should be discharge in the sewer line. Treatment of 100% gray water by decentralized treatment should be done. Necessary measures should be made to mitigate the odour problem from STP.
- (xxxi) Local body should ensure that no occupation certification is issued prior to operation of STP/MSW site etc. with due permission of MPCB.
- (xxxii) Permission to draw ground water and construction of basement if any shall be obtained from the competent Authority prior to construction/operation of the project.
- (xxxiii) Separation of gray and black water should be done by the use of dual plumbing line for separation of gray and black water.
- (xxxiv) Fixtures for showers, toilet flushing and drinking should be of low flow either by use of aerators or pressure reducing devices or sensor based control.
- (xxxv) Use of glass may be reduced up to 40% to reduce the electricity consumption and load on air conditioning. If necessary, use high quality double glass with special reflective coating in windows.
- (xxxvi) Roof should meet prescriptive requirement as per Energy Conservation Building Code by using appropriate thermal insulation material to fulfill requirement
- (xxxvii) Energy conservation measures like installation of CFLs /TFLs for the lighting the areas outside the building should be integral part of the project design and should be in place before project commissioning. Use CFLs and TFLs should be properly collected and disposed off/sent for recycling as per the prevailing guidelines/rules of the regulatory authority to avoid mercury contamination. Use of solar panels may be done to the extent possible like installing solar street lights, common solar water heaters system. Project proponent should install, after checking feasibility, solar plus hybrid non conventional energy source as source of energy.
- (xxxviii) Diesel power generating sets proposed as source of back up power for elevators and common area illumination during operation phase should be of enclosed type and conform to rules made under the Environment (Protection) Act, 1986. The height of stack of DG sets should be equal to the height needed for the combined capacity of all

proposed DG sets. Use low sulphur diesel. The location of the DG sets may be decided with in consultation with Maharashtra Pollution Control Board.

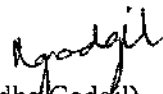

- (xxxix) Noise should be controlled to ensure that it does not exceed the prescribed standards. During nighttime the noise levels measured at the boundary of the building shall be restricted to the permissible levels to comply with the prevalent regulations.
- (xl) Traffic congestion near the entry and exit points from the roads adjoining the proposed project site must be avoided. Parking should be fully internalized and no public space should be utilized.
- (xli) Opaque wall should meet prescriptive requirement as per Energy Conservation Building Code, which is proposed to be mandatory for all air-conditioned spaces while it is aspirational for non-air-conditioned spaces by use of appropriate thermal insulation material to fulfill requirement
- (xlii) The building should have adequate distance between them to allow movement of fresh air and passage of natural light, air and ventilation.
- (xliii) Regular supervision of the above and other measures for monitoring should be in place all through the construction phase, so as to avoid disturbance to the surroundings.
- (xliv) Under the provisions of Environment (Protection) Act, 1986, legal action shall be initiated against the project proponent if it was found that construction of the project has been started without obtaining environmental clearance.
- (xlv) Six monthly monitoring reports should be submitted to the Regional office MoEF, Bhopal with copy to this department and MPCB.
- (xlvi) A complete set of all the documents submitted to Department should be forwarded to the Local authority and MPCB.
- (xlvii) In the case of any change(s) in the scope of the project, the project would require a fresh appraisal by this Department.
- (xlviii) A separate environment management cell with qualified staff shall be set up for implementation of the stipulated environmental safeguards.
- (xlix) Separate funds shall be allocated for implementation of environmental protection measures/EMP along with item-wise breaks-up. These cost shall be included as part of the project cost. The funds earmarked for the environment protection measures shall not be diverted for other purposes and year-wise expenditure should reported to the MPCB & this department.
- (l) The project management shall advertise at least in two local newspapers widely circulated in the region around the project, one of which shall be in the Marathi language of the local concerned within seven days of issue of this letter, informing that the project has been accorded environmental clearance and copies of clearance letter are available with the Maharashtra Pollution Control Board and may also be seen at Website at <http://ec.maharashtra.gov.in>.

- (li) Project management should submit half yearly compliance reports in respect of the stipulated prior environment clearance terms and conditions in hard & soft copies to the MPCB & this department, on 1<sup>st</sup> June & 1<sup>st</sup> December of each calendar year.
  - (lii) A copy of the clearance letter shall be sent by proponent to the concerned Municipal Corporation and the local NGO, if any, from whom suggestions/representations, if any, were received while processing the proposal. The clearance letter shall also be put on the website of the Company by the proponent.
  - (liii) The proponent shall upload the status of compliance of the stipulated EC conditions, including results of monitored data on their website and shall update the same periodically. It shall simultaneously be sent to the Regional Office of MoEF, the respective Zonal Office of CPCB and the SPCB. The criteria pollutant levels namely; SPM, RSPM, SO<sub>2</sub>, NO<sub>x</sub> (ambient levels as well as stack emissions) or critical sector parameters, indicated for the project shall be monitored and displayed at a convenient location near the main gate of the company in the public domain.
  - (liv) The project proponent shall also submit six monthly reports on the status of compliance of the stipulated EC conditions including results of monitored data (both in hard copies as well as by e-mail) to the respective Regional Office of MoEF, the respective Zonal Office of CPCB and the SPCB.
  - (lv) The environmental statement for each financial year ending 31<sup>st</sup> March in Form-V as is mandated to be submitted by the project proponent to the concerned State Pollution Control Board as prescribed under the Environment (Protection) Rules, 1986, as amended subsequently, shall also be put on the website of the company along with the status of compliance of EC conditions and shall also be sent to the respective Regional Offices of MoEF by e-mail.
4. The environmental clearance is being issued without prejudice to the action initiated under EP Act or any court case pending in the court of law and it does not mean that project proponent has not violated any environmental laws in the past and whatever decision under EP Act or of the Hon'ble court will be binding on the project proponent. Hence this clearance does not give immunity to the project proponent in the case filed against him, if any or action initiated under EP Act.
  5. In case of submission of false document and non compliance of stipulated conditions, Authority/ Environment Department will revoke or suspend the Environmental Clearance without any intimation and initiate appropriate legal action under Environmental Protection Act, 1986.
  6. The Environment department reserves the right to add any stringent condition or to revoke the clearance if conditions stipulated are not implemented to the satisfaction of the department or for that matter, for any other administrative reason.
  7. **Validity of Environment Clearance:** The environmental clearance accorded shall be valid for a period of 5 years.
  8. In case of any deviation or alteration in the project proposed from those submitted to this department for clearance, a fresh reference should be made to the department to assess the adequacy of the condition(s) imposed and to incorporate additional environmental protection measures required, if any.

9. The above stipulations would be enforced among others under the Water (Prevention and Control of Pollution) Act, 1974, the Air (Prevention and Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986 and rules there under, Hazardous Wastes (Management and Handling) Rules, 1989 and its amendments, the public Liability Insurance Act, 1991 and its amendments.
10. Any appeal against this environmental clearance shall lie with the National Green Tribunal (Western Zone Bench, Pune), New Administrative Building, 1<sup>st</sup> Floor, D-, Wing, Opposite Council Hall, Pune, if preferred, within 30 days as prescribed under Section 16 of the National Green Tribunal Act, 2010.
11. This Environment Clearance is issued for proposed residential complex & composite building with commercial wing and a Municipal Parking Lot wing on plot bearing CS No. 903 (pt), 1904 (pt), 1905, 1/1905, 2/1905 at Byculla Division, Mumbai by M/s K Raheja Corp - Genext Hardware & Parks Private Ltd.

THIS DEED OF ASSIGNMENT FOR TRANSFER OF DEVELOPMENT RIGHTS (this  
Deed) is executed at Mumbai this 6th day of August, 2007.

BETWEEN

K. RAHEJA CORP PRIVATE LIMITED, a company incorporated under the provisions  
of the Companies Act, 1956 and having its registered office at Construction House "A",  
24th Road, Khar, Mumbai 400 052 hereinafter called "the Original Developer" (which  
expression shall unless it be repugnant to the context or meaning thereof be deemed to  
mean and include its successors) of the **ONE PART;**

AND

GENEXT HARDWARE & PARKS PRIVATE LIMITED, a company incorporated under  
the provisions of the Companies Act, 1956 and having its registered office at  
Construction House "A", 24th Road, Khar, Mumbai 400 052 hereinafter called "the  
Assignee Developer" (which expression shall unless it be repugnant to the context or  
meaning thereof be deemed to mean and include its successors and assigns) of the  
**OTHER PART;**

WHEREAS:

- A. Pursuant to the Rehabilitation Scheme sanctioned by Board of Industrial and  
Financial Reconstruction ("BIFR") on April 1, 2004 ("the said Sanctioned  
Scheme"), one, The Hindoostan Spinning And Weaving Mills Limited, a  
company registered under the Act No. X of 1866 under the name of Indian  
Manufacturing Company Limited and incorporated under the provisions of  
the Companies Act, 1913 and thereafter deemed to be incorporated under  
the provisions of the Companies Act, 1956 and having its registered office at  
Sir Vithaldas Chambers, 16, Bombay Samachar Marg, Mumbai - 400001  
("the Original Owner") and Capicon Realty Limited, a company  
incorporated under the provisions of the Companies Act, 1956 and having

its registered office at Sir Vithaldas Chambers, 15, Bombay Samachar Marg, Mumbai -400001 ("the Present Owner") have by and under a Development Agreement dated August 24, 2004 (registered with the Sub-Registrar of Assurance at Mumbai under Sr. No. BBE-1 9565/2004) ("the said Development Agreement") read with the Security Trustee Agreement dated 18<sup>th</sup> February 2005 (registered with the Sub-Registrar of Assurance at Mumbai under Sr. No. 5262 of 2005) ("the said Security Trustee Agreement") (the said Development Agreement and the said Security Trustee Agreement are hereinafter collectively called "the Agreements"), inter-alia, granted to the Developer, development rights in respect of the "the Developable Land" admeasuring 60054.83 sq. mtrs. (as described in the said Security Trustee Agreement and in the Schedule hereunder written and demarcated in Red Colour Boundary lines on the Plan hereto annexed and marked Annexure "A") on the terms and conditions more particularly contained therein. The development of the Developable Land as envisaged in the said Agreements is also known as and hereinafter referred to as the "Mahalaxmi Project". The capitalized terms referred herein but not defined shall have the same meaning as ascribed to them under the Agreements.

As per the Agreements, the aggregate Chargeable Area as available for development on the Developable Land has been divided in the following manner:

- (i) an area admeasuring 379741 square feet. Chargeable Area ("Debt Asset Swap Premises") is swapped by the Debt Asset Swap Bank (as defined in the said Agreements) as provided in the said Agreements and the same is to be constructed by the Developer and on completion is to be handed over to the Debt Asset Swap Banks;
- (ii) The Developer is entitled to develop and market on its own account and for its own benefit an area 352530 sq. ft. Chargeable Area ("the Developer's Premises") together with all other rights under the said Agreements;
- (iii) The remaining Chargeable Area after deduction of the Debt Asset Swap Premises and the Developer's Premises ("the Residual Premises") is to be developed and marketed by the Developer and the realizations from such Marketing is to be distributed in the ratio of 52:48 to the Present Owner : Developer ("Agreed Ratio")

- C. Pursuant to clause 5(d) of the said Development Agreement, to recover the Advance (as defined therein), the Developer is entitled to and vested with the right to exclusively develop and market Chargeable Area of approximately 197206 sq. ft. out of the Residual Premises ("Adjusted Residual Premises") together with all other rights under the said Deeds read with the said Agreements, which has been confirmed under the Deed in respect of the Adjusted Residual Premises dated 26<sup>th</sup> February 2007,

registered with the Sub-Registrar of Assurances at Bombay under Sr. No. 8275/ 2007 read with the Deed of Rectification dated 25<sup>th</sup> July 2007 registered with the Sub-Registrar of Assurances at Bombay under Sr. No. 8276 2007 and executed between the Developer, the Owner and the Present Owner.

- D. Further, the Developer has also purchased and acquired rights of IDB under the said Agreements in respect of the Developable Land viz. the IDB Premises being the Premises (out of the Debt Asset Swap Premises) equivalent to 74432 square feet Chargeable Area together with all other rights under the said Deeds read with the said Agreements, which acquisition has been confirmed under the Deed dated 6/2/07 registered with the Sub-Registrar of Assurances at Bombay under Sr. No. 8275-1/2007 2007.

The Deed dated 26<sup>th</sup> February 2007 read with the Deed of Rectification dated 25<sup>th</sup> July 2007 in respect of the Adjusted Residual Premises and the Adjusted Residual Portion and the Deed dated 6/2/07 in respect of the IDB Premises and the IDB Portion are hereinafter collectively referred to as the "said Deeds".

- E. The Present Owner and the Original Developer have on 26<sup>th</sup> February 2007 agreed (the said Writing) and the same is recorded in the letter of even date, that, instead of the Original Developer Marketing the existing Balance Residual Premises (as per the existing FSI available in respect of the Developable Land) of 1,60,954 sq. ft. (Chargeable Area) and thereafter sharing such Realisations in the Agreed Ratio as recited in Rectar B(ii) hereinabove, to divide such existing Balance Residual Premises in accordance with the Agreed Ratio i. e. 83696 square feet. Chargeable Area to the Present Owner and 77,258 sq. ft. Chargeable Area to the Original Developer ("Developers Share in the existing Balance Residual Premises") together with all other rights under the said letter read with the said Agreements. The Present Owner and the Original Developer have also confirmed that all future FSI that will be available in respect of the said Developable Land shall be constructed by the Original Developer and the realization of the same shall be shared in the Agreed Ratio, as provided in the said Agreements. The formal documentation in respect of such sharing of the existing Balance Residual Premises has still to be executed between the Present Owner and the Original Developer. The said Agreements, the said Deeds and the said Writing are hereinafter collectively called the said Documents.

- F. Accordingly, the Developer's Premises comprises of Chargeable Area of 6,22,168 square feet as reflected in Rectals B(ii) & G & D above together with the right to construct and exclusively market 77,258 sq. ft. Chargeable

Area being the Developers Share in the existing Balance Residual Premises as recited in Recital E hereinabove together with all other rights under the said Documents.

- G. The Assignee Developer has offered to the Original Developer to acquire the entire development rights (including to exclusively develop and market the Developers Premises together with all the obligations of the Original Developer under the said Agreements and the said Deeds and the afore-recited Letter dated 26<sup>th</sup> February 2007 and the below-recited said NOC Letters (hereinafter collectively referred to as the 'said Rights and Obligations'), at or for the consideration and the terms and conditions herein contained and the Original Developer has agreed to assign the same to the Assignee Developer in the manner and on the terms and conditions hereinbelow recorded.

- II. The Debt Asset Banks originally comprised of ICICI Bank Limited, Union Bank of India, UCO Bank, Punjab National Bank, One, Reliance India Limited has informed the Original Developer that it has acquired from ICICI Bank the ICICI Premises being a portion of the DAS Premises. One, Himani Properties Pvt. Ltd. has informed the Original Developer that it has acquired from UCO Bank the UCO Premises being a portion of the DAS Premises. One, A to Z Broking Services Private Limited has informed the Original Developer that it has acquired from Punjab National Bank, 3390 sq. ft. Chargeable Area of the PNB Premises being a portion of the DAS Premises. Kamal Agri Properties Private Limited has informed the Original Developer that it has acquired from Punjab National Bank, 3390 sq. ft. Chargeable Area of the PNB Premises being a portion of the DAS Premises. By virtue of the aforesaid, Reliance India Limited, Himani Properties Pvt. Ltd. A to Z Broking Services Private Limited and Kamal Agri Properties Private Limited have purchased and acquired, ICICI Premises, UCO Premises and portion of PNB Premises and the balance portion of PNB Premises, respectively.

- I. The parties had agreed that the consent of the Original Owner/Present Owner and Debt Asset Swap Banks should be obtained prior to the assignment as envisaged herein. The Original Developer has addressed letters to ICICI, UCO and PNB acknowledging the transfer of the respective rights pertaining to ICICI Premises, UCO Premises and PNB Premises as aforesaid. By and under a letter dated 26<sup>th</sup> February 2007, the Original Owner and the Present Owner have granted their no objection for the assignment of the Original Developers rights and obligations under the said Agreements and the afore-recited letter dated 26<sup>th</sup> February 2007 to the Assignee Developer in the manner and on the terms as stated therein. Accordingly, on account of the herein recited acquisitions, Reliance India Limited, Himani Properties Pvt. Ltd., A to Z Broking Services Private Limited

and Kamal Agri Properties Private Limited, have each issued letters dated 5<sup>th</sup> June 2007, 5<sup>th</sup> June 2007, 23<sup>rd</sup> April 2007 and 18<sup>th</sup> June 2007 respectively granting their no objection for the assignment and transfer of the Original Developers obligation under the said Agreements to construct and hand over the Debt Asset Swap Premises to the respective Debt Asset Swap Bank on the terms and conditions contained therein. By and under its letter dated 28<sup>th</sup> June 2007 Union Bank has granted its no objection for the assignment and transfer of the Original Developers obligation under the said Agreements to construct and hand over the UBI Premises to Union Bank on the terms and conditions contained therein. (The NOC Letter dated 26<sup>th</sup> February 2007, the NOC Letters dated 5<sup>th</sup> June 2007, 5<sup>th</sup> June 2007, 23<sup>rd</sup> April 2007 and 18<sup>th</sup> June 2007 and the NOC Letter dated 28<sup>th</sup> June 2007 are hereinafter collectively referred to as "the said NOC Letters")

1. Each of the Parties hereto confirm and declare that they have the necessary authority and power and also the requisite approval to enter into and execute these presents and that each of the signatories to these presents are duly constituted and fully authorised to execute these presents.

NOW THIS DEED WITNESSETH AND IT IS HEREBY AGREED BY AND BETWEEN THE PARTIES HERETO AS UNDER:

1. **DEFINITIONS:** The under mentioned expression shall have the under mentioned meaning in addition to the definitions set out in the recitals aforesaid and elsewhere in this Agreement:

- (a) **"AGREEMENT/S"** shall mean and include any deeds, documents, writings, Letters of Allotment, Letters of Reservation, Memoranda of Understanding, Letters of Intent, Arrangements under any statute or scheme for disposal, transfer, Marketing, Sale or alienation of the Developers Premises / future Residual Premises / Developable Land or parts thereof including lease/Sub-Lease/ Leave and License/ Business Centre etc.
- (b) **"ASSOCIATION"** shall mean and include any society, body corporate, company, condominium, Association of the prospective purchasers of the Premises as may be formed by the Assignee Developer in accordance with law.
- (c) **"Debt Asset Swap Bank"** shall mean and include its assigns/nominees, as provided in the said Agreements.
- (d) **"MARKETING"** (and all its derivatives) shall mean and (include the fixation and receipt of price, sale on ownership basis, outright sale, granting of lease, granting of leave and license, granting of occupation as a business centre or any other method of disposal, transfer or alienation of Premises as may be from time to time be decided by the Assignee Developer in respect of the Developers Premises and the future

Agreements, the said Deeds, the said NOC Letters and the afore-recited Letter dated 26<sup>th</sup> February 2007 and the Original Developer confirms that, to the best of its knowledge, the Present Owner has not done any act of commission or omission which prejudicially affects the representations of the Present Owner (under the said Agreements, the said Deeds and the afore-recited Letter dated 26<sup>th</sup> February 2007) or the said Agreements or the said Deeds or the afore-recited Letter dated 26<sup>th</sup> February 2007 or the said Development Rights.

7. The Original Developer doth hereby further declares, represents and warrants to the Assignee Developer that (subject to the said Agreements, the said Deeds, the said NOC Letters and the afore-recited Letter dated 26<sup>th</sup> February 2007) the Original Developer is absolutely and fully entitled to develop the said Developable Land and has exclusive, irrevocable and uninterrupted development rights with respect to the said Developable Land and has an irrevocable license to enter the said Developable Land under the said Agreements and the Original Developer has not done any act of commission or omission which prejudicially affects the said Development Rights and that the title of the Original Developer to the said Development Rights is clear and marketable and free from all encumbrances and there is no impediment, litigation, attachment, acquisition, reservation, prohibitory order, notice of any nature whatsoever in or upon the said Development Rights and (save and except as disclosed in the said Agreements, the said Deeds, the said NOC Letters and the afore-recited Letter dated 26<sup>th</sup> February 2007) nobody either as a co-owner, partner, tenants, encumbrancers, trespassers, occupants, or otherwise howsoever has any right, title, interest, claim or demand of any nature whatever in to or upon the said Developable Land or any part thereof including by way of sale, agreement for sale, charge, mortgage, gift, trust, lease, sub-lease, license, tenancy, easement, encumbrance, or otherwise howsoever and there are no outstanding Developable Land taxes, income tax dues, rates, duties, cesses, levies including non agricultural assessments, assessments, water charges, electricity charges or any other amount due and payable to any authority in respect of the said Developable Land and the Original Developer has good right, full power and absolute authority to assign and transfer the said Development Rights (including the said obligations) to the Assignee Developer, as envisaged herein, and has not done any act of commission or omission whereby its said Development Rights is in any manner prejudicially affected and that the said Agreements, the said Deeds and the afore-recited Letter dated 26<sup>th</sup> February 2007 and the said NOC Letters are valid and subsisting and the Original Developer has not received any notice from the Present Owner, the Original Owner, the Debt Asset Swap Banks, Reliance India Limited, Himani Properties Pvt. Ltd, A to Z Broking Services Private Limited, Kamal Agri Properties Private Limited and NCD Banks for breach of any terms and conditions of the said Agreements. The Original Developer has not omitted to disclose to the Assignee Developer any material fact, in respect of

29  
1-1

the said Developable Land, which is within the knowledge of the Original Developer.

8. The Original Developer has not done and in future shall not do any act of commission or omission or allow any person or party to do any act of commission or omission whereby the rights and the said obligations of the Assignee Developer under the said Agreements, the said Deeds, the afore-rected Letter dated 26<sup>th</sup> February 2007, the said NOC Letters and the Deed are prejudicially affected.

9. On the execution hereof, the Assignee Developer shall, entirely at its risk, responsibility, costs, charges and expenses, be absolutely, fully, exclusively, freely and without any interruption from the Original Developer, entitled to enter upon the said Developable Land, and exercise the said Development Rights and develop the said Developable Land as per the terms and conditions contained in the said Agreements, the said Deeds, the afore-rected Letter dated 26<sup>th</sup> February 2007 and the said NOC Letters and carry out all the obligations towards Union Bank of India, Reliance India Limited, Himani Properties Pvt. Ltd, A to Z Booking Services Private Limited and Kamal Agri Properties Private Limited, the Original Owner and the Present Owner and the Original Developer shall co-operate and execute all such necessary deeds, documents and writings as and when called upon by the Assignee Developer so as to enable the Assigned Developer to deal with the said Developable Land and develop the said Developable Land and market the Developers Premises and the future Residual Premises as provided in the said Agreements, the said Deeds, the afore-rected Letter dated 26<sup>th</sup> February 2007 and the said NOC Letters.

10. The Original Developer has represented that subsequent to the grant of Development Rights, the Original Developer has undertaken various steps in respect of the said Developable Land and the Assignee Developer hereby confirms that it has verified all the applications, documents, papers, approvals, orders, etc. made/received by the Original Developer in respect of the development of the said Developable Land. The Original Developer confirms that the assignment of the said Development Rights shall include the assignment of the benefit arising out of all the steps taken / works undertaken / applications filed / approvals and orders received, contracts entered, appointments made, etc. by the Original Owner / Present Owner / Original Developer towards and in respect of the development of the said Developable Land including by the Original Developer in the exercise of the said Development Rights, including the benefit of the various approvals, appointment of architects etc. and also of all the obligations and liabilities thereunder incurred upto the date hereof. The Original Developer shall not be entitled to any additional monies or reimbursement of any costs, charges and expenses in respect of the same and the consideration reserved hereunder shall be deemed to be inclusive of all such costs, charges

Residual Premises to be constructed on the Developable Land and in respect of the Developable Land or parts thereof to the Prospective Purchaser and to execute Agreements in respect of such Marketing and to receive and accept the Realisations on account of such Marketing and give full and effectual discharge for the payments received and to execute such Agreements and receipts in respect thereof subject to the provisions of the said Agreements. The expression "Marketing" shall also mean and include the expression "Promotion".

(e) "PREMISES" shall mean and include all the flats/dwelling units/floor area/ units / apartments / any saleable / buildings / transferable area or right in the buildings to be constructed by the Assignee Developer on the said Developable Land under these presents including proportionate car parking and common areas and amenities etc.

(f) "PROSPECTIVE PURCHASER" shall mean and include a person/ company/ partnership/ body corporate/ firm / trust/ Financial Institution/ identified by the Assignee Developer, who has or will be entering into an Agreement in respect of such Marketed premises, on the Marketing of the Developers Premises and the future Residual Premises.

(g) "REALISATIONS" (with all its derivatives and cognate expression) shall mean and include the gross sale price, gross amount of deposit and/or premium on the granting of Lease/sub-lease/ License or business centre or any other basis, the gross Rent, gross license fee/compensation or any other gross amount by whatever name called that may be received/ receivable by the Assignee Developer from the Prospective Purchaser on the Marketing of the Developers Premises and the share of the Assignee Developer on the Marketing of the "Future Residual Premises". It is clarified that amounts such as Association Deposits, Residual Maintenance charges, Residual Security charges and other accountable charges of such nature shall not be included in the terms of "Realisation" and the Assignee Developer shall collect such charges separately from the Prospective Purchaser and maintain a separate register for the collection and receipt of the same. It is further clarified that monies expended by the Assignee Developer on the Marketing and advertising of the Developers' Premises and the "Future Residual Premises" are not deductible from the Realisations.

"Words" / "Phrases" / "expressions" unless defined herein specifically shall be the same as defined in the said Agreements, the said Devising Letters, the afore-referenced Letter dated 28th February 2007 and the said NDC Letters.

2. Pursuant to the aforesaid agreement and in consideration agreed to be paid to the Original Developer in the manner provided in Clause 4 hereinbelow, the Original Developer hereby grants and assigns to the Assignee Developer, all the benefits and all the said obligations (i.e. obligations under the said Agreements

and the said Deeds and the afore-quoted Letter dated 26<sup>th</sup> February 2007 and the said NOC Letters), including the said Development Rights as set out in Clauses 3 & 4 of the said Development Agreement in respect of the said Developable Land together with all other rights under the said Documents including specifically (i) the right to exclusively develop and market the Developers Premises aggregating to 6,93,426 square feet Chargeable Area together with all other rights under the said Documents, on its own account and for its own benefit (ii) the obligation to construct and hand over the Debt Asset Swap Premises to the transferee of the respective Debt Asset Swap Bank (iii) the obligation to construct and handover the Present Owners share in the existing Balance Residual Premises and (iv) the obligation to construct and market the future Residual Premises and share the realisations in respect of the future Residual Premises, if any, that may be available for development, in the manner as provided in the said Agreements and the Assignee Developer has agreed to accept the assignment and transfer of the same for the consideration in the manner and on the terms and conditions herein contained.

3. On the execution of hereof, the Assignee Developer has deposited and shall keep deposited with the Original Developer, a sum of Rs.50,00,00,000/- (Rupees Ninety Crores Only) as and by way interest free refundable security deposit ("the Security Deposit"), as and by way of security for the performance of the obligations of the Assignee Developer under the said Agreements, the said Deeds, the said NOC Letters and the afore-quoted Letter dated 26<sup>th</sup> February 2007 and as envisaged herein.

4. (a) In consideration of the assignment as contemplated herein and all the benefit and all the obligations under the said Agreements, the said Deeds, the said NOC Letters and the afore-quoted Letter dated 26<sup>th</sup> February 2007 as provided in clause 2 above by the Original Developer to the Assignee Developer, the Assignee Developer shall pay to the Original Developer an amount equivalent to the (i) 15% (Fifteen percent) of all such "Realisations" received / receivable by the Assignee Developer, from the Marketing of the Developers Premises and Future Residual Premises and the Premises envisaged in Clause 15(b) hereibelow; and (ii) the Unmarketed Premises, if any, coming to the share of the Original Developer.

(b) It is clarified that the full Realisations from the Marketing of the Developers Premises and from the Developers Share in the Marketing of the future Residual Premises, shall belong to the Assignee Developer on its own account and its own benefit and the Assignee Developer shall issue full receipt to the Prospective Purchaser in respect of the same (It is agreed by and between the parties hereto that in the first instance, the consideration to be paid by the Assignee Developer to the Original Developer being the amount equivalent to 15% of the

Realisations payable by the Assignee Developer to the Original Developer as aforesaid, shall first be adjusted and appropriated by the Assignee Developer and the Original Developer against the Security Deposit till the Security Deposit is completely adjusted and appropriated. Once the Security Deposit is completely adjusted and appropriated, then all further Realisations shall be received by the Assignee Developer in the following manner :

(i) 15% of the Realisations payable by the Assignee Developer to the Original Developer as aforesaid, shall be collected by the Assignee Developer for and on behalf of the Original Developer from the Prospective Purchaser by way of a separate cheque / pay order issued in the name of the "Original Developer" and such cheque / pay order shall be forthwith, without demur, handed over by the Assignee Developer to the Original Developer. The Assignee Developer shall issue receipts to the Prospective Purchaser in respect of the same;

(ii) the balance 85% (Eighty Five percent) of all such Realisations shall be received by the Assignee Developer from the Prospective Purchaser by way of a cheque / pay order to be issued in the name of the Assignee Developer.

5. On the execution hereof :

- (a) the Original Developer has assigned its irrevocable license to enter on the Developable Land to the Assignee Developer.
- (b) The Original Developer has executed irrevocable substituted powers of attorney in favour of the Assignee Developer in respect of each power of attorney (listed in Annexure "B" hereto) received by the Original Developer from the Original Owner and Present Owner.
- (c) The Original Developer has handed over to the Assignee Developer all the original documents (including the said Agreements, Deeds, NOC Letters etc.), writings, contracts, correspondence, undertakings, applications, orders, permissions, approvals of all the Public/Statutory Authorities/Bodies/Institutes and revenue records relating to the said Developable Land including all the original powers of attorney received by the Original Developer from the Original Owner and Present Owner;
- (d) The Original Developer and the Assignee Developer have intimated the Original Owner, the Present Owner and the Security Trustee about the completion of the assignment as contemplated herein.
- (e) The Original Developer shall and will from time to time and at all times hereafter, at the costs, charges and expenses of the Assignee Developer, execute such deeds, documents and writings and do such acts, deeds, things and assurances as may be required by the Assignee Developer in respect of the assignment as contemplated herein herein provided.

6. The Original Developer doth hereby confirms that save and except the formal title of the Present Owner to the said Developable Land, the Original Developer is fully entitled to develop the said Developable Land subject to the said

U4  
No. 10

and expenses, monies expended by the Original Developer till 10<sup>th</sup> October 2006 in respect of the said Developable Land. However, the Assignee Developer shall be liable to reimburse the costs, charges and expenses incurred by the Original Developer in exercise of the development rights, on and from 10<sup>th</sup> October 2006 till date. It is further agreed that any refund of the amount of Staircase Premium or any other refundable deposit paid by the Original Developer in respect of the development of the said Developable Land, which has been paid/deposited by the Original Developer prior to 10<sup>th</sup> October 2006 shall belong to the Original Developer and refund of any such amount paid by the Original Developer subsequent to 10<sup>th</sup> October 2006 shall belong to the Assignee Developer and accordingly if the Assignee Developer receives the refundable deposit which pertains to a period prior to 10<sup>th</sup> October 2006, then the Assignee Developer shall refund the same to the Original Developer and if the Original Developer receives the refundable deposit which pertains to a period subsequent to 10<sup>th</sup> October 2006, then the Original Developer shall refund the same to the Assignee Developer.

11. The Assignee Developer has represented to and assured the Original Developer that the Assignee Developer shall be responsible and entitled to obtain all the necessary approvals, permissions, consents, no objections from the relevant authorities for the development of the said Developable Land and in exercise of the said Development Rights entirely at its own risk, responsibility, cost, charges and expenses, including payment of any premiums etc. Neither the Original Developer nor the Original Owner / Present Owner shall in any manner whatsoever be responsible or liable for the development of the said Developable Land and /or any consequences or implications thereto and/or for any manner concerning or regarding the development / Marketing of the said Developable Land. The Assignee Developer also hereby agrees, declares and confirms that it shall, at its own, risk, responsibility, costs, charges and expenses, fulfil / comply with / undertake all the said obligations, save and except as stated in clause 10 hereinafter, then agreed to be undertaken by the Original Developer in respect of the said Developable Land and/or towards the Original Owner / Present Owner / Union Bank of India / Reliance Indus Limited / Himani Properties Pvt. Ltd. / A to Z Housing Services Private Limited / Karnal Agri Properties Private Limited, under the said Agreements/said Deeds/ the afore-referred Letter dated 25<sup>th</sup> February 2007/said NOC Letters, and the Original Developer shall not be liable for the same. The Assignee Developer has executed appropriate indemnities in favour of the Original Developer. The Original Developer shall however remain liable under the indemnities issued by it in favour of the Original Owner / Present Owner for the period from the date of execution of the aforesaid Development Agreement till the date hereof and from the date hereof for such indemnities, the Assignee Developer shall be liable to the Original Owner / Present Owner under the indemnities issued by the Original Developer in favour of the Original Owner / Present Owner.

12. The Assignee Developer agrees, confirms, declares and covenants that it shall maintain a proper register recording therein full particulars of the Marketing of the Developers Premises and the future Residual Premises, including the date of Agreement, names and full addresses of the Prospective Purchaser, the consideration, paid and/or payable dates of payment and amount of instalments, if any, date of receipt of instalments, delays/ defaults, if any and interest charged and/or received if any, refunds / repayments received, if any and shall give full, free and complete inspection of the same as and when required by the Original Developer on reasonable notice of atleast two working days. The Assignee Developer shall furnish to the Original Developer, on the 15<sup>th</sup> day of every month the extract of the aforesaid register duly certified by the Developer as "True Copy" alongwith the certified copy of the Agreement/s executed with the Prospective Purchaser of the Developers Premises and the future Residual Premises. The Assignee Developer shall give clarifications relating to the progress of the development of the said Developable Land and the Marketing of the Developers Premises and the future Residual Premises as may be reasonably sought by the Original Developer.

13. The parties agree, declare, confirm and covenant that in the event the Agreement with any Prospective Purchaser of the Developers Premises or the future Residual Premises is lawfully terminated by the Assignee Developer / Prospective Purchaser and the Assignee Developer and the Original Developer are required to refund (in accordance with the terms and conditions of such Agreement/termination) to such Prospective Purchaser the consideration or any part thereof received from such Prospective Purchaser under such Agreement, then the Assignee Developer and the Original Developer shall forthwith refund to such Prospective Purchaser the amount required to be refunded in the proportion of 15% by the Original Developer and 85% by the Assignee Developer and as received by them. It is clarified that in the event such refund is to be made prior to the complete adjustment and appropriation of the Security Deposit, then the Assignee Developer shall be liable to make the complete refund of the amount required to be refunded (that is including amount pertaining to the share of the Original Developer) and the adjustment and appropriation of the amount so refunded against the Security Deposit shall stand reversed. However, subsequent to complete adjustment and appropriation of the Security Deposit as provided hereinabove, the amount required to be refunded shall be refunded in the proportion of 15% by the Original Developer and 85% by the Assignee Developer and as received by them. It is clarified by the parties hereto, that other than on account of adjustment and appropriation, as provided herein, the Security Deposit shall not stand reduced below the said sum of Rs.90 Crores.

14. It is hereby agreed by and between the parties hereto that the Assignee Developer has undertaken and shall market the Developer's Premises and the

*[Signature]*

future Residual Premises, from time to time, and shall do the same at the best fair price as prevalent at the time of such Marketing.

| 92            | 92 |

15. (a) It is hereby agreed by and between the parties hereto, that, in lieu of the said 15% Realisation payable by the Assignee Developer to the Original Developer under Clause 4 hereinabove, if any of the "Developers Premises" or "Premises coming to the share of the Developer in the future Residual Premises" have not been Marketed and/or are unsold (hereinafter collectively referred to as "Unmarketed Premises"), at the time of expiry of the period of 5 years from the date hereof or when all the Buildings in which the Developers Premises or Future Residual Premises are contained are completed, then on such date, (i) 15% of the Unmarketed Premises shall vest and belong solely and exclusively to the Original Developer and the Original Developer shall be solely entitled to deal with the same as it so desires without any reference to the Assignee Developer and on its own account and its own benefit, but subject to the Any lease/license agreements then existing and (ii) 85% of the Unmarketed Premises shall vest and belong solely and exclusively to the Assignee Developer and the Assignee Developer shall be solely entitled to deal with the same as it so desires without any reference to the Original Developer and on its own account and its own benefit but subject to the any lease/license agreements then existing. The actual division and demarcation of the Unmarketed Premises, in keeping with the shares aforesaid shall be done in an equitable manner, such that, only complete "Flats/Apartments/Units/Car Parking Spaces" are divided and vested in each of the parties in the aforesaid proportion. If on implementation of this clause, it results in some "Flats/Apartments/Units/Car Parking Spaces" remaining balance (as they would otherwise have to be divided into two portions to effectuate the division), then instead of dividing such Flats/Apartments/Units/Car Parking Spaces in the aforesaid proportion, appropriate accounting / payment at a fair price prevalent at the relevant time shall be made between the parties for the same, so that effectually the principle underlying the provision contained in this clause is adequately fulfilled and adhered to. The Assignee Developer shall execute such necessary agreement, deeds, documents and writings for effectual transfer of the Unmarketed Premises contemplated herein (as may be required) in favour of the Original Developer (its nominee). Any stamp duty or registration charges, payable on the instrument of transfer, of the Unmarketed Premises, by the Assignee Developer to the Original Developer or its nominee pursuant to this clause shall be borne and paid by the Original Developer or its nominee. Any stamp duty or registration charges, payable on the conveyance / assignment / transfer of the undivided portion of the Marketable land, either to the Original Developer or the Assignee Developer, equivalent to the Built up Area of the Unmarketed Premises pursuant to this clause, shall be borne and paid by the Original Developer / Assignee Developer or their respective nominees, as the case may be.

(b) the parties hereto agree that in the event any Premises remain unconstructed (whether on utilisation of existing FSI or future FSI) on the expiry of 5 years from the date hereof, then all the relevant provisions of this Deed shall apply to such Unconstructed Premises upon the same being constructed.

16. Notwithstanding the assignment as envisaged herein, it is agreed between the Original Developer and the Assignee Developer that the obligation of the Original Developer to pay any amount to the Debt Asset Swap Banks under the circumstances as stated in clause 22 (e), (f) & (g) of the Development Agreement and/or to the NCD Banks under the circumstances as stated in clause 23 of the Development Agreement, shall be continued to be of the Original Developer, subject to the rights of the Original Developer under the said Agreements and the correspondence / documents exchanged between the parties to the said Agreements/their assigns. The Assignee Developer hereby agrees to indemnify and keeps indemnified the Original Developer in respect of any payments required to be made by the Original Developer to the NCD Banks/ Union Bank of India Reliance India Limited, Human Properties Pvt. Ltd, A to Z Broking Services Private Limited and Kamal Agri Properties Private Limited, under Clauses 23 or 32 (f) / 32 (g) of the Development Agreement. It is clarified that the Assignee Developer shall not indemnify the Original Developer against the payment of interest obligation as provided in clause 32(e) of the Development Agreement.

17. The Assignee Developer agrees to indemnify and keeps indemnified and save harmless the Original Owner / Present Owner and the Original Developer (their respective directors and employees (existing and those in the future), from and against any and all actions, suits, claims, proceedings, costs, damages and expenses (collectively, "loss") relating to or arising out of -

(a) From and against all losses, damages or consequences arising out of the implementation of this Deed/ said Agreements and/or consequential, incidental or pursuant to the same and against any act of commission or omission in pursuance of the said Agreements, the said Deeds, the afore-referred letter dated 26<sup>th</sup> February, 2007 and the said NCD Letters by the Assignee Developer;

(b) From and against all claims, demands, actions, suits, litigation and proceedings of every nature by government agencies, regulatory authorities or otherwise relating to and/or arising out of the said Developable Land and/or the said Agreements, the said Deeds, the afore-referred letter dated 26<sup>th</sup> February, 2007 and the said NCD Letters, which the Original Owner / Present Owner, Original Developer, their respective directors and employees (existing and those in the future) may face or suffer or to which they may be made a party to;

- (c) From and against any contravention by the Assignee Developer of any law, rules, regulations, conditions, stipulations etc. of any statutory or regulatory agency or otherwise;
- (d) And generally from and against all losses, penalties, damages, costs, charges and expenses, which the Original Owner / Present Owner / Original Developer, their respective directors and employees (existing and those in the future) may directly or indirectly incur, suffer or face in that regard.
- (e) The Assignee Developer has handed over to the Original Developer an indemnity in favour of the Original Owner / Present Owner / Original Developer indemnifying the Original Owner / Present Owner / Original Developer as hereinabove provided.

18. Nothing contained in this Deed shall be deemed to constitute a partnership or a joint venture or association of persons between the parties hereto. It is hereby agreed and declared that each of the parties has undertaken obligations and has rights specified hereinabove on their own account and on principal to principal basis and not on behalf of, or on account of or as agent of any of them, or of anyone else. It is hereby clarified and confirmed that the Present Owner shall continue to be the owner of the said Developable Land and the Debt Asset Swap Premises and the Assignee Developer shall be "owner" of the Residual Premises (existing and future, however subject to the terms of the afore-recited letter dated 26<sup>th</sup> February 2007 in respect of the Owners Share in the existing Balance Residual Premises) and the Developer Premises till such time the said Developable Land and the Debt Asset Swap Premises, Residual Premises (existing and in future) and Developer Premises (or parts thereof) as the case may be, are conveyed (by a proper deed/s of conveyance/assignment/ Deed of Apartment / Transfer) to the Prospective Purchasers/Association.

19. The parties confirm that this Deed constitutes the entire agreement between them with respect to the subject matter hereof and shall on the execution thereof supersede all prior, understandings and negotiations, both written and oral, between them with respect to the subject matter of this Deed.

20. In the event of any breach of any of the covenants contained in these presents by any party, the other party shall be entitled to specific performance of these presents by the defaulting party and to claim damages, costs, charges and expenses of legal, after giving 15 days notice to the defaulting party to remedy such breach. If such breach is not remedied within the aforesaid period of 15 days.

21. It is agreed that any notice or communication to be served upon any of the parties to these presents shall be given by Registered Post A.D. / Speed Post A.D. / Courier at the address given in these presents.

22. All disputes, claims and questions whatsoever which may arise during the development of the said Developable Land between the parties hereto touching or relating to or arising out of these presents or as to any act of commission or omission of any party or as to any other matter in anyway relating to these presents shall be referred to the arbitration of a Sole Arbitrator, If mutually agreed upon by the parties or to three Arbitrators, one to be appointed by each party to the dispute and the two appointed arbitrators shall appoint the third arbitrator. Such arbitration shall be held in accordance with the provisions of Arbitration and Conciliation Act, 1996 or any statutory modification or re-enactment thereof for the time being in force. The Arbitration proceedings shall be held in Mumbai.

23. The Stamp duty and registration charges, payable on this Deed of Assignment, Substituted Powers of Attorney and any other deed, writing or document incidental thereto to be executed in favour of the Assignee Developer shall be borne and paid by Assignee Developer. Each party shall bear its respective Advocates fees.

**IN WITNESS WHEREOF** the parties hereto have hereunto set and subscribed their respective hands to this Deed on the day, month and year first hereinabove written.

 (M. M. Adtani)  
**Shri M.M.Adtani (Chairman SEAC-II)**

Representative of PP Mr. Nikhil Mehta was present during the meeting along with environmental consultant M/s. Mahabal Enviro Engineers Pvt. Ltd.

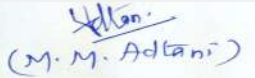

PP informed that, the project under consideration is *Residential Project along with Municipal Public Parking Lot Project - Redevelopment Type*. PP further stated that, the total plot area of the project is 61,520.46 Sq.mt. having total construction area 393134.51 Sq.mt. (FSI - 1,32,331.76 sq.mt + NON FSI 2,60,802.75sq.mt) and the building configuration is as follow-

| Building Name & number   | Number of floors  | Height (Mtrs) |
|--|---|---------------|
| Bldg No.1 (Tower B1, B2 & A1)                                      | Stilt + 41 upper floors on 2 levels of podium   | 172.275 m     |
| Bldg No. 2   | 2B + 2 Parking Floors + Stilts + 44 Upper Floors. (41 habitable floors + 2 fire check floors + 1 service floor)   | 177.65 m      |
| Bldg No. 3:- Composite Bldg a)<br><br>Residential Wing             | 2B (pt) + Gr (pt) + intermediate Parking Floor + 4 Parking Floors (pt) + 2 Parking Floors (full) + stilts + 44 Upper floors (habitable floors) + 2 fire check + 1 service floor | 206.50 m      |
| Bldg No. 3:- Composite Bldg b)<br><br>Municipal Public Parking Lot | 3B + G (pt) + 4 Upper Floors (pt).<br><br>To be handed over to MCGM and 5th & 6th Floor above MPPL will be retained for Residential parking.                                    | 26.30 m       |

It is noted that the project earlier considered in 85th SEAC-2 meeting held on 19-01-2019 and deferred as PP was absent.

It is noted that, the project has received Environmental clearance in 2006 & amendment in 2014.

The project proposal was discussed on the basis of presentation made and documents submitted by the proponent. All issues related to environment, including air, water, land, soil, ecology and biodiversity and social aspects were discussed. Committee noted that the project is under 8a (B1) category of EIA Notification, 2006. Consolidated statements, synopsis of compliances, form 1, 1A, presentation & plans submitted are taken on the record.

## DECISION OF SEAC

***In view of above, the proposal is deferred and shall be considered only after the compliance of above observations.***

### **Specific Conditions by SEAC:**

- 1) It is noted that, representative of PP not submitted the authority letter. PP to submit the same along with copy of company resolution.
- 2) PP to submit the company merger document.
- 3) PP to submit dated Architect certificate addressing to committee regarding building wise construction done on site as per EC accorded in 2006 & 2014.

## FINAL RECOMMENDATION

SEAC-II decided to defer the proposal. Please find SEAC decision above.

SEAC-MINUTES-0000003829

**Mr. Surykant Nikam**  
(Secretary SEAC-II)

Gentleman,

With reference to your above referred representation regarding subject matter, I have by direction to inform you that the High Rise Committee as constituted by the Govt. in Urban Development Deptt. as per G.R. U/No.TPB/4313/CR-41/2013/UD-11 dated 9<sup>th</sup> June,2014 has accepted your proposal for proposed development of composite Bldg.No.3, having Residential Tower & Municipal Public Parking lot on plot bearing C.S.Nos.1903, 1904, 1905, 1/1905 & 2/1905 of Byculla Division, at Dr.A.I.Nair Road & Maulana Azad Road, near Jacob Circle, Byculla, Mumbai, in 'E' Ward (for Dev.:M/s.Genext Hardware & Parks Pvt.Ltd.), as per the High Rise Committee meeting held on 6.10.2018, subject to the terms & conditions as mentioned below:-

The proposal envisages construction of proposed high rise composite building comprising of parking lot & residential building. The parking lot building is comprising of three level basement + ground floor + 1<sup>st</sup> to 6<sup>th</sup> upper floor whereby three basements + ground + 4 upper floors are proposed for public parking lot and entire 5<sup>th</sup> & 6<sup>th</sup> floors are proposed for captive parking of residential building with a total height of 34.80 mtrs. from the general ground level to podium level. The High Rise Residential Building comprising of 2 level basements + ground floor + intermediate floor + 6 parking floors + stilt (podium floor) + 1<sup>st</sup> to 47<sup>th</sup> floors including 1 service and 2 fire check floor with total height of **206.50 mt.** from general ground level upto terrace level.

**MANDATORY CONDITIONS:**

1. Access roads to the site and roads on the site that will be required as per plan permanently should be minimum water bound macadam road and constructed before construction activities commence. This will help in reducing local dust emissions to a great extent. The road can be converted to a black top road once the construction activities are completed.
2. As the site is located in an developed urban area, it is essential to enclose the site using barriers, to reduce the noise and dust impacts on surrounding buildings and sites.
3. Jack hammers and other construction equipments tend to generate a lot of noise, it is therefore essential that noise protective equipments like ear muffs & ear plugs be provided to the operator of the machine. To reduce the noise from the equipment, silencer/ dampers should be attached to the equipment.
4. All Stationary machinery that create noise should be installed at points away from sensitive receptor area.
5. Noise prone activities should be restricted to the extent possible during night time, particularly during the period 6p.m. to 6.a.m.
6. During excavation and transportation over un-metalled roads near the project site, there is a scope for local dust emissions. Frequent water sprinkling in the vicinity of the construction activity should be done and it should be continued even after the completion of the excavation till construction is complete.
7. Excavation should be carried out in such a manner that it will not reduce slope stability. As much of the top soil and waste materials as possible should be used for landscaping and leveling activities in the surrounding area. As far as possible store the excavated soil (the amount that would be required later for leveling and landscaping) on site, so that the soil can be reused during landscaping.
8. A basic surface drainage system for the site should be worked out to avoid water runoff on to the surrounding properties and roads, especially during the monsoon months.
9. If during excavation, water accumulates in the excavated areas, then it should be pumped out and disposed off either in the municipal storm water drain or into recharge soak pits or bore wells.
10. Load and unload trucks with construction material on site and not on surrounding roadside.
11. The responsibility to carry out the work as per submissions made to the Committee solely rests with the project proponents.
12. If the project attracts the provisions of the MOEF Notification under SO No.114(E) dt.19.2.1991 and recent Notification dt.6.1.2011 and Notification dtd.07-07-2004 & revised EIA Notification dtd.14.9.2006, the clearance in this respect shall be obtained and all the conditions mentioned therein shall be complied with.
13. The approval of High Rise Committee is for the proposed high rise building having total height of **206.50 mt.** only from general ground level up to terrace level, subject to obtaining sanction from Competent Authority as per various provisions of D.C.P. Regulations 2034 amended up to date,

such as deficiency in open spaces, CFO requirement, parking requirement, Civil Aviation NOC, if any, etc.

14. The conditions as stated in the NOC from C.F.O. U/No.FB/HR/CITY/150 dtd.30.5.2012, FB/HR/CITY/661 Dtd.18.6.2013 and Dtd.18.6.2018 shall be complied with. If the plans cleared by Committee, differ from the plans of CFO NOC, revised CFO NOC shall be submitted to the concerned Zonal Building Proposal Office.
15. That the NOC from Civil Aviation Authority for the height of the building under reference shall be obtained, if applicable, and all the conditions thereof shall be complied with.
16. The acceptance of proposal by High Rise Committee is not indicative of admissibility/approval of the proposal regarding D.C.P. Regulations 2034 other statutory compliances & the necessary building proposal shall be submitted to concerned Ex.Eng.(Bldg.Proposal) for requisite approval. The aspect such as permissible FSI applicable DC.P.Rules & policies in force shall be verified by the concerned Executive Engineer (Building Proposal) before approval of plans.
17. The Technical Committee for High Rise Buildings, however, reserves right to alter/ modify/ augment fire safety related provisions as well as disaster management related provisions, on the basis of decision to be taken in the upcoming meetings.
18. That the permission is granted based on the documents submitted by the Architect and if at any time are found fake/ fraudulent, then the permission issued shall be treated as revoked/ cancelled without further notice.
19. After the clearance given by HRC for a proposed building, not further changes of any kind shall be effected without permission of the HRC (Technical Committee for High Rise Buildings). If any changes made in the proposal without obtaining clearance from HRC, earlier clearance given by the HRC shall be treated as revoked/ invalid.
20. That the aspect regarding approval/ final NOC to the 33(24) component, if any, and its respective permission shall be scrutinized by Dy.Ch.Eng.(B.P.) as per the prevailing policy and the sanction from respective HPC shall be obtained.
21. The necessary other permissions from various other Departments/ Committees/ Authorities shall be obtained as per requirements.

**Recommendatory Condition**

1. At the time of site clearance, care must be taken to minimize the need for cutting of trees and damage to the native vegetation.
2. Clearing of site area may involve removal/ transplantation of trees, underbrush, vines, fences, shades etc. All the unwanted vegetation then becomes solid waste that needs to be disposed off site. As this is organic matter, instead of disposing it offsite, the mater should be composed on site.
3. Phase out the site clearing process to only areas that need excavation initially this will reduce the dust emission from currently unused areas. If site has been cleared, vegetate the area by growing temporary groundcover plants or flower beds in the area. Alternatively cover the ground with a sheet, this sheet can be made out of empty cement bags,

and the area then used to store materials, this will help reduce the dust emissions from these areas and provide a clean surface to store material on.

4. To reduce dust emissions and erosions from slopes on the site, apply non toxic chemical soil stabilizers (Geotextiles) to the area.
5. The short term traffic management plan should be worked out to prevent unnecessary traffic problems. One measure to be incorporated is to avoid trucks during the morning and evening rush hours i.e. before 10.00 a.m. and after 5.00 p.m.
6. In cases where the construction of paved access or Water bound macadam road is not possible, frequent water sprinkling required to reduce local dust emissions.
7. Traffic speeds on unpaved roads should be reduced to 15 Km.ph. or less, and all the vehicles should have reverse horns.
8. On windy days avoid excavation activities to reduce dust emissions.
9. Prevent the excavated soil from spilling out of the site boundaries onto adjoining roads and properties.
10. Prevent other garbage waste such as construction debris, plastic material from mixing with the excavated soil that is being transported out of the site for dumping off site. This soil will be used for land filling and mixing of garbage with it can lead to soil contamination.
11. Water the site at least twice a day to reduce the dust emissions. Once during mid morning and once in the evening.
12. Soil stockpiled for more than two days shall be covered, kept moist or treated with soil binders to prevent dust generation. (A good cover sheet can be formed by stitching empty cement bags silt open to form a sheet).
13. Since, there is likelihood of fugitive dust form the construction activity, material handling and from the truck movement in the vicinity of the project site, project proponents should go for tree plantation programme along the approach roads and the construction campus.
14. Re-vegetate disturbed areas as early as possible.
15. As soon as construction is over, the surplus earth should be utilized to fill up low lying areas. The rubbish should be cleared and all un built surfaces reinstated.
16. Construct appropriate temporary housing structures for the labourers on the site with due approval from the competent authority. Houses should be provided with proper light and ventilation, and should be located at a safe location on the site.
17. Provisions should be made for providing them with potable, drinking water.
18. The construction site should be provided with sufficient and suitable toilet facilities for workers to allow proper standards of hygiene. These facilities would be connected to septic tank and maintained properly to ensure minimum environmental affect. Care should be taken not to route the sanitary effluents to the river or any other natural water body.
19. To prevent unauthorized falling of trees in the nearby undeveloped areas by construction workers for their fuel needs, it should be ensured that the contractor provides fuel to the construction workers.
20. Arrangements should be made for daycare and education to construction workers children. Certain NGO's working in this area can be associated

with or alternatively one female worker can be paid to oversee the younger children and to prevent them from coming in harms way.

21. Solid waste generated from the labour camp as well as the construction site should be disposed off properly. Organic waste can be composted, and inorganic waste should be disposed in nearest municipal bins.
22. To sweep and clean adjacent roads of the site that get soiled due to the frequent movement of trucks to and fro from the site, at least once a day.
23. All outdoor lighting, including any construction related lighting should be designed, installed and operated in a manner that ensures that all direct rays from project lighting are contained within construction site and that residences are protected from spillover light and glare.
24. Parking for construction site workers should be provided on site to prevent clogging of surrounding roads.
25. Tea stalls if established for the site should be given space on site and not on access roads. This will prevent the gathering of labourers on the roads and obstruction of traffic.
26. Rotary piling method can be adopted for construction of bored cast in site/ bored pre-cast piles. Preferably, M.S. liner can be provided upto hard stratum.
27. Preferable minimum grade concrete in sub structure foundation can be M-40 grade and use of anti corrosive treatment can be considered for M.S. reinforcements.
28. Ground Water in Mumbai is likely to be saline and further there is a possibility of sewage contamination in well water, as such, municipal water be used for construction.
29. Withdrawal of ground water should be restricted as it may cause sudden draw-down and subsidence of surrounding land/buildings.
30. The electric meters and substation in the buildings be located on higher level to prevent power failure during floods.
31. The earlier HRC NOCs issued vide letter U/No.CHE/HRB-434/DPWS dtd.19.8.2013 is treated as cancelled.
32. Other features shown in the plan like temple on ground floor and swimming pool on podium floor, etc. are not in the purview of High Rise Committee and approvability of the same shall be separately dealt by concerned Planning Authority i.e. Building Proposal Section.

**Note: That the total height of Crown/ Architectural Elevation features above the terrace slab shall not be more than 9.00 Meter.**

If your client is agreeable to the aforesaid terms and conditions, you may approach to the DY.CH.ENG.(B.P.)CITY, who is being informed separately regarding subject matter.

Yours faithfully,

Sub: Proposed amended layout under modified D.C. Regn. 58 and sub division and layout on the property bearing Sub Plot B of C.S. No. 1903 (pt.), 1904 (pt.), 1905, 1905/1 and 1905/2 of Byculla Division at Dr. A.L. Nair Marg, Jacob Circle, Byculla, Mumbai for M/s Hindoostan Spg. and Wvg. Mills Ltd. (Unit A & B).

Ref Your letter dated 25.11.2011

Sir,

With reference to the above, this is to inform you that, the amended layout plans submitted by you are hereby approved subject to following conditions.

1. That the 12.00 M. wide temporary right of access provided for MHADA and M.C.G.M. plots shall be maintained in good condition, and be made available to both authorities till regular access from Maulana Azad Road is available.
2. That the terms and conditions of the layout dated 23.9.2004 are applicable and shall be complied with.
3. That the revised M.O.E.F. N.O.C. for Building No.3 i.e. public parking lot and residential building shall be submitted.

One set of plan duly signed and stamped is hereby returned in token of approval.

Yours faithfully,

KALPATARI POINT, 4<sup>th</sup> & 6<sup>th</sup> Floor  
Opp. Cineplanet, Near Sion Circle  
Sion (East), MUMBAI - 400 022

ORANGE/SI

Date: 10/04/2006

Consent No. BO/RQ/P&P/ 367

Consent to Establish is granted to

M/s. K. Raha Corporation Pvt. Ltd.,  
CA to Capricorn Realty Ltd.,  
(Hindustan Mill), Sub Plot B, C.S.No. 1903 (pt)  
1904 (pt), 1905, 1/1905, 2/1905 of Byculla Divn.,  
Off. Dr. A.L. Nair Rd., Maulana Azad Rd.,  
Jacob Circle, Byculla,  
Mumbai.

located in the area declared under the provisions of Water Act (P&CP) 1974, Air Act (P&CP), 1981 and Authorization under the provisions of H.W (M & H) Rules and amendments thereto subject to the provisions of the Acts and the Rules and the Orders that may be made further and subject to the following terms and conditions :-

1. The Consent to Establish is issued to M/s. K. Raha Corporation Pvt. Ltd.,  
CA to Capricorn Realty Ltd.,  
(Hindustan Mill), Sub Plot B, C.S.No. 1903 (pt)  
1904 (pt), 1905, 1/1905, 2/1905 of Byculla Divn.,  
Off. Dr. A.L. Nair Rd., Maulana Azad Rd.,  
Jacob Circle, Byculla,  
Mumbai.

For development of land/plot as new construction activities named as M/s. K. Raha Corporation Pvt. Ltd., CA to Capricorn Realty Ltd., (Hindustan Mill), Sub Plot B, C.S.No. 1903 (pt), 1904 (pt), 1905, 1/1905, 2/1905 of Byculla Divn., Off. Dr. A.L. Nair Rd., Maulana Azad Rd., Jacob Circle, Byculla, Mumbai on 91520.36 sq mtrs. including utilities and services such as commercial/residential/educational/health and recreation amenities etc. as per construction commencement certificate issued by local body.

## 2. CONDITION UNDER WATER ACT :-

The daily quantity of (a) sewage effluent from above construction project including (b) waste water from swimming tank/water sports shall not exceed 370 cubic meters per day.

- (i) Sewage Effluent Treatment : The Applicant shall provide a comprehensive sewage treatment plant as is warranted with reference to influent quality and corresponding mode of disposal and operate and maintain the same continuously so as to achieve the quality of treated effluent to the following standards:-

| PARAMETERS                  | Limit         | Standards for sub-streams |          |       |
|-----------------------------|---------------|---------------------------|----------|-------|
|                             |               | (A)                       | (B)      | Unit  |
| pH                          | In between    | 5.5 to 9                  | 7 to 8.5 |       |
| Suspended Solids            | Not to exceed | 100                       | 10       | mg/l  |
| B.O.D. 3 days 27 C          | Not to exceed | 30                        | 10       | mg/l  |
| Oil & Grease                | Not to exceed | 10                        | NAL      | mg/l  |
| Dissolved Phosphates (as P) | Not to exceed | 5                         | 5        | mg/l  |
| Dissolved Oxygen            | Not less than | 5                         | 5        | mg/l  |
| R. Chlorine                 | Not to exceed | 0.1                       | 0.1      | Mg/l. |

(K) **Sewage effluent Disposal:-**

The treated sewage effluent shall be recycled to the maximum extent for flushing, fire fighting etc. and excess treated effluent shall be disposed of on land for gardening/ irrigation/ lawns/ tree-plantations within own premises; and/or excess treated sewage effluent shall be disposed into to under ground drainage scheme provided by local body. In no case, effluent shall find its way to any water body directly/indirectly at any time.

(li) **Non-Hazardous Solid Waste:-**

The total quantity shall not exceed 1410 Kg per day and shall be segregated and treated as follows:-

| Sr | Type of Segregated solid waste | Quantity Karday | Treatment                         | Disposal                     |
|----|--------------------------------|-----------------|-----------------------------------|------------------------------|
| 1  | Organic                        | 665             | Universal Composting at site only | Self-use                     |
| 2  | Inert                          | 885             | Segregation                       | At approved landfill         |
| 3  | Paper Packing                  |                 | Segregation                       | Salvage                      |
| 4  | Rubber                         |                 | Segregation                       | At approved landfill         |
| 5  | Glass                          |                 | Segregation                       | Salvage                      |
| 6  | Miscellaneous(STP Sludge)      | 40              | Segregation                       | Salvage/At approved landfill |

3. **Other Conditions:-**

- All activities shall be in resonance with the provisions of Indian Forest Act, 1927 (18 of 1927), Forest (Conservation) Act, 1980 (59 of 1980) and Wildlife (Protection) Act, 1972 (53 of 1972), CRZ notification, and special notifications published for Dahanu, Murch Jangla, Matheran and Mahabaleshwar area wherever applicable and all the Environmental Statutes and Instruments.
- This Consent to Establish is issued only for Developing Construction Project purposes.
- No quarrying activities shall be commenced in the area unless appropriate permissions are obtained for a limited quarrying material required for construction of local residential housing and traditional road maintenance work, provided that such quarrying is not done on Forest Lands and the material is not exported to the outside area.
- There shall be no felling of trees whether on Forest, Government, Revenue or Private lands except as per prevailing Rules.
- Extraction of Groundwater for the residential complex shall require prior permission of the State Ground Water Authority or other relevant authorities, as applicable.
- Near the activities that are related to water (like activity of water parks, water sports) and/or in the vicinity of lake, Dissolved Oxygen shall not be less than 5 mg/liter.
- In order to ensure that the water from this residential complex do not enter into outside environment, the nallas crossing the township/complex premises, shall be lined, covered and made water tight by the applicant within the premises with intermittent inspection of chambers following good engineering practices as per the regulations of local body. This management shall be such as also to help in excluding the external pollutants degrading the internal environment of residential complex.
- The Applicant shall prepare management plan for water harvesting, roof-water reclamation, water/storm water conservation and implement the same before handing over of complex for occupation.
- The Applicant shall draw plans for the segregation of solid wastes into biodegradable and non-biodegradable components. The biodegradable material shall be recycled through scientific in-house composting with the approval of local body and the inorganic material shall be disposed off at approved Municipal Solid Waste landfill site of local body environmentally acceptable location and method. It is clarified that the term solid waste includes domestic, commercial, and garden wastes, but does not include hazardous and bio-medical wastes. The activities of bio-composting and engineered land fill shall be as per the Municipal Solid Waste (M&H) Rules, 2000.

10. Applicant shall be responsible to take adequate precautionary measures as detailed in this consent.
11. The applicant/generator shall be responsible for safe and scientific collection, transportation, treatment and disposal of Bio-Medical Waste as per the provisions made under the Bio-Medical Waste (Management & Handling) Rules, 1996. Any activity as defined under BAW (M & H) Rules has to obtain a separate Authorization from Maharashtra Pollution Control Board.
12. The applicant, during the construction stage shall provide Septic tank and soak pit of adequate capacity for the domestic effluent generated due to workers residing at site. Proper loading and unloading of construction material, excavated material and its proper disposal as per MSW (M&H) Rules 2000. Cutting of trees is not permitted, however in unavoidable conditions necessary permission from the local body shall be obtained. Green belt of 33% of the open space shall be developed excluding lawns.

4. The Applicant shall comply with all the provisions of, the Water (Prevention and Control of Pollution) Cess Act,

1977 (to be referred as Cess Act) and Rules as Amended, 2003 and Rules there under :-

The daily water consumption for the following categories shall not exceed, as under

| (i) Domestic                             | From ULB<br>(In CMD) | From other sources<br>(In CMD) |
|--|----------------------|--------------------------------|
| a) During construction stage             | ---                  | ---                            |
| b) After completion                      | 460                  | ---                            |
| (i) For swimming pool                    | ---                  | ---                            |
| d) For fire fighting (recycled effluent) | ---                  | ---                            |

The Applicant shall regularly submit to the Board, the returns of water consumption in the prescribed form and pay the cess as specified under Section 3 of the said Act.

5. CONDITIONS UNDER AIR ACT :-

The Applicant may install two numbers of diesel generating sets (DG Sets), of capacity 400 & 200 KVA, and shall be equipped with comprehensive control system as is warranted with reference to generations of emissions and operate and maintain the same continuously so as to achieve the level of pollutants to the following standards:-

(i) Standards for emissions of air Pollutants

|      |                 |               |     |                   |
|------|-----------------|---------------|-----|-------------------|
| i)   | SPM/TPM         | Not to Exceed | 100 | mg/m <sup>3</sup> |
| ii)  | SO <sub>2</sub> | Not to Exceed | 60  | PPM               |
| iii) | NO <sub>x</sub> | Not to Exceed | 60  | PPM               |

(ii) The Applicant shall observe the following fuel patterns

| No. | Type of Fuel | Quantity |
|-----|--------------|----------|
| --- | ---          | ---      |

(iii) The Applicant shall erect the Chimney (s) of the following specifications

| No. | Chimney attached to | Height above roof level |
|-----|---------------------|-------------------------|
| --- | ---                 | ---                     |

- a) The Applicant shall provide ports in the chimney and facilities such as ladder, platform etc for monitoring the air emissions and the same shall be open for inspection to and for use of the Board's staff. The chimneys shall be numbered as S-1, S-2 etc and these shall be painted/ displayed to facilitate identification.
- b) Water spraying shall be done on ground to avoid fugitive emissions.
- c) Construction material shall be carried in enclosed vehicles during construction activities.

## (iv) Conditions for DG Sets :-

1. Noise from DG Sets shall be controlled by providing acoustic enclosure or by treating the room acoustically.
2. Applicant should provide acoustic enclosure for control of noise. The acoustic enclosure/ acoustic treatment of the room shall be designed for minimum 25 dB(A) insertion loss or for meeting the ambient noise standards, whichever is on higher side. A suitable exhaust muffler with insertion loss of 25 dB(A) shall also be provided. The measurement of insertion loss shall be done at different points at 0.5 meters from acoustic enclosure/ room and then average.
3. The Applicant should make efforts to bring down noise level due to DG Set, outside the premises, with ambient noise level requirements by proper setting and control measures.
4. Installation of DG Set must be strictly in compliance with recommendations of DG set manufacturer.
5. A proper routine and preventive maintenance procedure for DG Set shall be set and followed in consultation with the DG manufacturers, which would help to prevent noise levels of DG Sets from deteriorating with use.
6. The DG set shall be operated only in case of power failure. The applicant shall make arrangement for regular electrical power.
7. The Applicant shall not cause any nuisance in the surrounding area due to operation of DG sets.
8. In case of problems, the D.G. set shall not be operated until it is set back to satisfactory position.

## (v) Conditions For Utilities like Kitchen, Eating Places etc., :-

1. The kitchen shall be provided with exhaust system chimney with oil catcher connected to chimney through ducting.
  2. The toilet shall be provided with exhaust system connected to chimney through ducting.
  3. The air conditioner shall be vibration proof and the noise shall not exceed 68 dB(A).
  4. The exhaust hot air from A.C. shall be attached to Chimney at least 5 mtrs. higher than the nearest tallest building through ducting and shall discharge into open air in such way that no nuisance is caused to neighbors.
- (a) The Applicant shall take adequate measures for control of noise levels from its own sources within the complex (residential cum Commercial) in respect of noise to less than 55 dB(A) during day time and 45 dB(A) during the night time. Day time is reckoned as between 6 a.m. to 10 p.m. and night time is reckoned between 10 p.m. to 6 a.m.
- (b) Construction equipments generating noise of less than 65/60 dB(A) are permitted.
- (c) No construction work is permitted during night time.

## 6. CONDITIONS UNDER HW (M &amp; H) &amp; AMENDMENT RULES 2003

- The Applicant shall not generate or handle any hazardous waste.
7. The proposed activity comes under Entry 31 (New Construction Project) listed in schedule 1 of the EIA Notification dated January 27, 1994 (as amended till date) issued by Ministry of Environment & Forest, Govt. of India, New Delhi and therefore, Environmental Clearance from Govt. of India (MoEF) shall be required as per conditions in the amended EIA Notification dated July 07, 2004.
  8. The applicant shall certify that the bricks used in construction are manufactured using the ash from Thermal Power stations if it is within a radius of 100 km. from Thermal Power Plant and submit the names of bricks manufacturer.
  9. This "Consent to Establish" is issued subject to the planning permission and permission for non-agricultural (N.A.) use from the Competent Authority.
  10. The applicant shall obtain Environmental Clearance from MoEF, GOI before taking any steps to develop/ start construction the site.

11. The applicant shall not handover the residential complex, unless obtain Consent to Operate/MOC from Maharashtra Pollution Control Board and compliance of Environment Clearance granted by MoEF Government of India.
12. The applicant shall take the proper remediation measures to ensure that the ground water and soil contamination is prevented and follow due diligence at the construction stage.
13. This Board reserves the right to amend or add any conditions in this consent and the same shall be binding on the Applicant.

For and on behalf of the  
Maharashtra Pollution Control Board

| Sr. no. | Type Of Waste     | Quantity & UoM | Treatment             | Disposal                    |
|---------|-------------------|----------------|-----------------------|-----------------------------|
| 1       | Biodegradable     | 385 kg/day     | Mechanical composting | Use as manure               |
| 2       | Non-biodegradable | 257 kg/day     | --                    | Sale to authorized recycler |

7. Conditions under Hazardous Waste (MH & TM) Rules, 2008 for treatment and disposal of hazardous waste:

| Sr. No. | Type Of Waste | Category | Quantity | UOM | Treatment | Disposal |
|---------|---------------|----------|----------|-----|-----------|----------|
|         | Nil           |          |          |     |           |          |

8. The Board reserves the right to review, amend, suspend, revoke etc. this consent and the same shall be binding on the industry.
9. This consent should not be construed as exemption from obtaining necessary NOC/permission from any other Government authorities.
10. EP shall submit the affidavit in Board's prescribed format within 15 days in the prescribed format regarding the compliance of conditions of EC/ CBZ clearance and C to E.
11. The applicant should not take any effective steps for implementation of the project before obtaining Environmental Clearance as per EIA Notification 2006 and amendments thereto. As per Para 2 of EIA notification dated-14/09/2006, the effective steps include starting of any construction work or preparation of land by the project management. However as clarified by the MoEF vide office memorandum no. J-1103/21/2006-IA.II(I); Dated-13/8/2010, fencing of the site to protect it from getting encroached & construction of temporary sheds for the guard(s) & acquisition of land shall not be treated as an effective step.

For and on behalf of the  
Maharashtra Pollution Control Board

(Rajeev Kumar Mittal, IAS)  
Member Secretary

3. CC/CAC desk- for record & website updation purposes.

### Schedule-I

#### Terms & conditions for compliance of Water Pollution Control:

- 1) A) As per your application, you have proposed three Sewage Treatment Plant (STPs) with the design capacity of 100 CMD each for bldg. no.2 and 3 and 20 CMD for public parking bldg.
- B) The Applicant shall operate the sewage treatment plant (STP) to treat the sewage so as to achieve the following standards prescribed by the Board or under EP Act, 1986 and Rules made there under from time to time, whichever is stringent.

| Sr No. | Parameters        | Standards prescribed by Board                 |
|--------|-------------------|---|
|        |                   | Limiting Concentration in mg/l, except for pH |
| 01     | BOD (3 days 27°C) | 30  |
| 02     | Suspended Solids  | 50  |
| 03     | COD               | 100   |
| 04     | Residual Chlorine | 1ppm  |

- C) The treated effluent shall be 60% recycled for secondary purposes such as toilet flushing, air conditioning, firefighting, Agriculture, on land for gardening etc and remaining shall be discharged in to the municipal sewerage system.
- D) Project proponent shall operate STP for five years from the date of obtaining occupation certificate.
- 2) The Board reserves its rights to review plans, specifications or other data relating to plant setup for the treatment of waterworks for the purification thereof & the system for the disposal of sewage or trade effluent or in connection with the grant of any consent conditions. The Applicant shall obtain prior consent of the Board to take steps to establish the unit or establish any treatment and disposal system or and extension or addition thereto.
- 3) The industry shall ensure replacement of pollution control system or its parts after expiry of its expected life as defined by manufacturer so as to ensure the compliance of standards and safety of the operation thereof.
- 4) The Applicant shall comply with the provisions of the Water (Prevention & Control of Pollution) Cess Act, 1977 and as amended, by installing water meters, filing water cess returns in Form-I and other provisions as contained in the said act.

| Sr. no. | Purpose for water consumed | Water consumption quantity (CMD) |
|---------|----------------------------|----------------------------------|
| 1.      | Domestic purpose           | 232                              |

### Schedule-II

#### Terms & conditions for compliance of Air Pollution Control:

1. As per your application, you have proposed to install Air pollution control (APC) system and also proposed to erect following stack (s) and to observe the following fuel pattern:

| Sr. No. | Stack Attached To   | APC System         | Height in Mtrs. | Type of Fuel | Quantity & UoM | S % | SO <sub>2</sub> kg/day |
|---------|---------------------|--------------------|-----------------|--------------|----------------|-----|------------------------|
| 1.      | DG Set (2x1250 KVA) | Acoustic enclosure | Mtrs Each       | HSD          | 203.8 hr/hr    | 1   | 97.8                   |
| 2.      | DG Set (2x500 KVA)  | Acoustic enclosure | Mtrs Each       | HSD          |                |     |                        |
| 3.      | DG Set (1x250 KVA)  | Acoustic enclosure | Mtrs Each       | HSD          |                |     |                        |

\* above the roof of the building in which it is installed.

2. The applicant shall operate and maintain above mentioned air pollution control system, so as to achieve the level of pollutants to the following standards:

|                    |               |                          |
|--------------------|---------------|--------------------------|
| Particulate matter | Not to exceed | 150 mg/Nm <sup>3</sup> . |
|--------------------|---------------|--------------------------|

3. The Applicant shall obtain necessary prior permission for providing additional control equipment with necessary specifications and operation thereof or alteration or replacement alteration well before its life come to an end or erection of new pollution control equipment.
4. The Board reserves its rights to vary all or any of the condition in the consent, if due to any technological improvement or otherwise such variation (including the change of any control equipment, other in whole or in part is necessary).

**Schedule-III**  
**Details of Bank Guarantees**

| Sr. No. | Consent (C to E/O/R)             | Amt of BG Imposed | Submission Period                     | Purpose of BG  | Compliance Period                                   | Validity Date                            |

#### Schedule-IV

#### **Conditions during construction phase**

|   |  |
|---|--|
| a | During construction phase, applicant shall provide temporary sewage disposal and MSW facility for staff and worker quarters.   |
| b | During construction phase, the ambient air and noise quality should be closely monitored to achieve Ambient Air Quality Standards and Noise by the project proponent through MoEF approved laboratory. |
| c | Noise generating activity shall be carried out during day time only.   |

#### **General Conditions:**

- 1) The applicant shall provide facility for collection of environmental samples and samples of trade and sewage effluents, air emissions and hazardous waste to the Board staff at the terminal or designated points and shall pay to the Board for the services rendered in this behalf.
- 2) Industry should monitor effluent quality, stack emissions and ambient air quality monthly/quarterly.
- 3) The applicant shall provide ports in the chimney(s) and facilities such as ladder, platform etc. for monitoring the air emissions and the same shall be open for inspection to and for use of the Board's Staff. The chimney(s) vents attached to various sources of emission shall be designated by numbers such as S-1, S-2, etc. and these shall be painted/ displayed to facilitate identification.
- 4) Whenever due to any accident or other unforeseen act or event, such emissions occur or is apprehended to occur in excess of standards laid down, such information shall be forthwith Reported to Board, concerned Police Station, office of Directorate of Health Services, Department of Explosives, Inspectorate of Factories and Local Body. In case of failure of pollution control equipments, the production process connected to it shall be stopped.
- 5) The applicant shall provide an alternate electric power source sufficient to operate all pollution control facilities installed to maintain compliance with the terms and conditions of the consent. In the absence, the applicant shall stop, reduce or otherwise, control production to abide by terms and conditions of this consent.
- 6) The firm shall submit to this office, the 30th day of September every year, the Environmental Statement Report for the financial year ending 31st March in the prescribed Form-V as per the provisions of rule 14 of the Environment (Protection) (Second Amendment) Rules, 1992.
- 7) The industry should comply with the Hazardous Waste (M.H & TM) Rules, 2008 and submit the Annual Returns as per Rule 5(6) & 22(2) of Hazardous Waste (M.H & TM) Rules, 2008 for the preceding year April to March in Form-IV by 30th June of every year.
- 8) An inspection hook shall be opened and made available to the Board's officers during their visit to the applicant.
- 9) The applicant shall obtain Consent to Operate from Board before commissioning of the project.
- 10) Industry shall strictly comply with the Water (P&CP) Act, 1974, Air (P&CP) Act, 1981 and Environmental Protection Act, 1986 and industry specific standard under EP Rules 1986 which are available on MPCB website ([www.mpcb.gov.in](http://www.mpcb.gov.in)).
- 11) The industry shall constitute an Environmental cell with qualified staff/personnel/agency to see the day to day compliance of consent condition towards Environment Protection.
- 12) The applicant shall install a separate meter showing the consumption of energy for operation of domestic and industrial effluent treatment plants and air pollution control system. A register showing consumption of chemicals used for treatment shall be maintained.
- 13) Conditions for D.G. Set
  - a) Noise from the D.G. Set should be controlled by providing an acoustic enclosure or by treating the room acoustically

*[Handwritten signature]*

- b) Industry should provide acoustic enclosure for control of noise. The acoustic enclosure/ acoustic treatment of the room should be designed for minimum 25 dB (A) insertion loss or for meeting the ambient noise standards, whichever is on higher side. A suitable exhaust muffler with insertion loss of 25 dB (A) shall also be provided. The measurement of insertion loss will be done at different points at 0.5 meters from acoustic enclosure/room and then average.
- c) Industry should make efforts to bring down noise level due to D/G set outside industrial premises within ambient noise requirements by proper siting and control measures.
- d) Installation of D/G Set must be strictly in compliance with recommendations of D/G Set manufacturer.
- e) A proper routine and preventive maintenance procedure for D/G set should be set and followed in consultation with the D/G manufacturer which would help to prevent noise levels of D/G set from deteriorating with use.
- f) D/G Set shall be operated only in case of power failure.
- g) The applicant should not cause any nuisance in the surrounding area due to operation of D/G Set.
- h) The applicant shall comply with the notification of MoEF dated 17.06.2002 regarding noise limit for generator sets run with diesel.
- 11) The industry should not cause any nuisance in surrounding area.
- 15) The industry shall take adequate measures for control of noise levels from its own sources within the premises so as to maintain ambient air quality standard in respect of noise to less than 75 dB (A) during day time and 70 dB (A) during night time. Day time is reckoned in between 6 a.m. and 10 p.m. and night time is reckoned between 10 p.m. and 6 a.m.
- 16) The applicant shall maintain good housekeeping.
- 17) The applicant shall bring minimum 33% of the available open land under green coverage/ plantation. The applicant shall submit a statement on available open plot area, number of trees surviving as on 31<sup>st</sup> March of the year and number of trees planted by September end, with the Environment Statement.
- 18) The non-hazardous solid waste arising in the factory premises, sweepings, etc. be disposed off scientifically so as not to cause any nuisance / pollution. The applicant shall take necessary permissions from civic authorities for disposal of solid waste.
- 19) The applicant shall not change or alter the quantity, quality, the rate of discharge, temperature or the mode of the effluent/emissions or hazardous wastes or control equipments provided for without previous written permission of the Board. The industry will not carry out any activity, for which this consent has not been granted without prior consent of the Board.
- 20) The industry shall ensure that fugitive emissions from the activity are controlled so as to maintain clean and safe environment in and around the factory premises.
- 21) The industry shall submit official e mail address and any change will be duly informed to the MPCR.
- 22) The industry shall achieve the National Ambient Air Quality standards prescribed vide Government of India, Notification dt. 16.11.2009 as amended.

Minutes of 19<sup>th</sup> CAC meeting of 2014-15 held on 13.10.2014

Your application CO1310000380  
 Dated: 28.10.2013

For: Consent to Operate for residential building project under Section 26 of the Water (Prevention & Control of Pollution) Act, 1974 & under Section 21 of the Air (Prevention & Control of Pollution) Act, 1981 and Authorization under Rule 5 of the Hazardous Wastes (M, H & T M) Rules 2008 is considered and the consent is hereby granted subject to the following terms and conditions and as detailed in the schedule I, II, III & IV annexed to this order:

1. The Consent to Operate is granted for a period up to 31.10.2015.
2. The capital investment of the project (part) is Rs. 826.81 Crs. (As per CA certificate submitted by PP)
3. The Consent to Operate is valid for residential building part of M/s. Genext Hardware and Parks Pvt. Ltd. on sub plot "B" bearing CTS no. 1903(part), 1904(part), 1905, (1/1905, 2/1905 of Byculla Division of Dr. A.L. Nair Road, Maulana Azad Road, Jacob circle, Byculla, on total plot area- 61520.36 sq. mtrs & and (FSI BUA of 68846.16 sq.m., Non-FSI BUA of 116629.23 sq.m.) construction BUA of 182485.39 sq.m. (as per revised EC) as per the occupation certificate issued by local body.

## 4. Conditions under Water (P&CP), 1974 Act for discharge of effluent:

| Sr. No. | Description       | Permitted quantity of discharge (CMD) | Standards to be achieved | Disposal   |
|---------|-------------------|---------------------------------------|--------------------------|--|
| 1.      | Trade effluent    | NIL                                   | NA                       | NA   |
| 2.      | Domestic effluent | 176 CMD                               | As per Schedule -I       | 60% recycle for secondary purposes such as flushing, ac cooling, gardening etc and remaining discharge to municipal sewer. |

## 5. Conditions under Air (P & CP) Act, 1981 for air emissions.

| Sr. No. | Description of stack / source | Number of Stack | Standards to be achieved |
|---------|-------------------------------|-----------------|--------------------------|
| 1.      | DG Set (10x1250 KVA)          | 10              | As per Schedule -II      |
| 2.      | DG Set (3x500 KVA)            | 3               | As per Schedule -II      |

*[Handwritten signature]*

6. **Conditions under Municipal Solid Waste (Management and Handling) Rule, 2000:**

| Sr. no. | Type Of Waste     | Quantity & UoM | Treatment | Disposal                    |
|---------|-------------------|----------------|-----------|-----------------------------|
| 1       | Biodegradable     | 685 kg/day     | OWC       | Use as manure               |
| 2       | Non-biodegradable | 685kg/day      |           | Sale to authorized recycler |
| 3       | STP sludge        | 40 kg/day      |           |                             |

7. **Conditions under Hazardous Waste (MH & TM) Rules, 2008 for treatment and disposal of hazardous waste:**

| Sr. No. | Type Of Waste | Category | Quantity | UOM | Treatment | Disposal |
|---------|---------------|----------|----------|-----|-----------|----------|
| Nil     |               |          |          |     |           |          |

8. The Board reserves the right to review, amend, suspend, revoke etc. this consent and the same shall be binding on the industry.
9. This consent should not be construed as exemption from obtaining necessary NOC/permission from any other Government authorities.
10. PP shall submit the affidavit in Board's prescribed format within 15 days in the prescribed format regarding the compliance of conditions of EC and C to O.
11. PP shall comply with the conditions stipulated in Environmental Clearance granted by GoI vide no. 21-08/2000-IA-III dated 1.9.2000 and revised EC granted by GoM vide no. vide no. SFAC-2014/CR-35/TC-1 dated 29.9.2014.

## Schedule-IV

### General Conditions:

- 1) The applicant shall provide facility for collection of environmental samples and samples of trade and sewage effluents, air emissions and hazardous waste to the Board staff at the terminal or designated points and shall pay to the Board for the services rendered in this behalf.
- 2) Industry should monitor effluent quality, stack emissions and ambient air quality monthly/quarterly.
- 3) The applicant shall provide ports in the chimney(s) and facilities such as ladder, platform etc. for monitoring the air emissions and the same shall be open for inspection to/and for use of the Board's Staff. The chimney(s) vents attached to various sources of emitting shall be designated by numbers such as S-1, S-2, etc. and these shall be painted/ displayed to facilitate identification.
- 4) Whenever due to any accident or other unforeseen act or event, such emissions occur or is apprehended to occur in excess of standards laid down, such information shall be forthwith Reported to Board, concerned Police Station, office of Directorate of Health Services, Department of Explosives, Inspectorate of Factories and Local Body. In case of failure of pollution control equipments, the production process connected to it shall be stopped.
- 5) The applicant shall provide an alternate electric power source sufficient to operate all pollution control facilities installed to maintain compliance with the terms and conditions of the consent. In the absence, the applicant shall stop, reduce or otherwise, control production to abide by terms and conditions of this consent.
- 6) The firm shall submit to this office, the 30th day of September every year, the Environmental Statement Report for the financial year ending 31st March in the prescribed Form-V as per the provisions of rule 14 of the Environment (Protection) (Second Amendment) Rules, 1992.
- 7) The industry should comply with the Hazardous Waste (M.H & TM) Rules, 2008 and submit the Annual Returns as per Rule 5(6) & 22(2) of Hazardous Waste (M.H & TM) Rules, 2008 for the preceding year April to March in Form-IV by 30<sup>th</sup> June of every year.
- 8) An inspection book shall be opened and made available to the Board's officers during their visit to the applicant.
- 9) The applicant shall make an application for renewal of the consent at least 60 days before the date of the expiry of the consent.
- 10) Industry shall strictly comply with the Water (P&CP) Act, 1974, Air (P&CP) Act, 1981 and Environmental Protection Act, 1986 and industry specific standard under EP Rules 1986 which are available on MPCB website ([www.mpcb.gov.in](http://www.mpcb.gov.in)).
- 11) The industry shall constitute an Environmental cell with qualified staff/personnel/agency to see the day to day compliance of consent condition towards Environment Protection.
- 12) The applicant shall install a separate meter showing the consumption of energy for operation of domestic and industrial effluent treatment plants and air pollution control system. A register showing consumption of chemicals used for treatment shall be maintained.
- 13) Conditions for D.G. Set
  - a) Noise from the D.G. Set should be controlled by providing an acoustic enclosure or by treating the room acoustically.
  - b) Industry should provide acoustic enclosure for control of noise. The acoustic enclosure/ acoustic treatment of the room should be designed for minimum 25 dB (A) insertion loss or for meeting the ambient noise standards, whichever is on higher side. A suitable exhaust muffler with insertion loss of 25 dB (A) shall also be provided. The measurement of insertion loss will be done at different points at 0.5 meters from acoustic enclosure/room and then average.
  - c) Industry should make efforts to bring down noise level due to DG set, outside industrial premises, within ambient noise requirements by proper siting and control measures.
  - d) Installation of DG Set must be strictly in compliance with recommendations of DG Set manufacturer.
  - e) A proper routine and preventive maintenance procedure for DG set should be set and followed in consultation with the DG manufacturer which would help to prevent noise levels of DG set from deteriorating with use.

*[Handwritten signature]*

- The industry shall submit official e-mail address and any change will be duly informed to the MPCB.
- The industry shall achieve the National Ambient Air Quality standards prescribed by Government of India, Notification dt. 16.11.2009 as amended.

Consent order No :- Format 1.0/BO/CAC-cell/EIC-MU-6910-15/CO(Part-I)/CAC-7502

Date: 02/06/2016

To,  
M/s. Genext Hardware and Parks Pvt. Ltd.  
Sub plot "B" bearing CTS no. 1903(pt), 1904(pt), 1905, 1/1905, 2/1905 of Byculla Division of Dr. A.L. Nair  
Road, Maulana Azad Road, Jacob circle, Mahalakshmi, Mumbai

Subject: Renewal of Consent to Operate (Part-I) for Residential Building no.1 in Orange Category.  
Ref :-

1. Consent to Establish (bldg. no.1) granted vide no. BO/RO(P&P)/367 dated 10.8.2006.
2. Consent to Establish (bldg. no.2 & 3) granted vide no. Format 1.0/BO/CAC-cell/EIC-MU -5978 -14 /CE/CAC- 7496 dated 8.8.2014.
3. EC granted by MoEF, Gov vide no. 21-68/2006-IA.III dated 1.9.2006 and by GoM vide no. SEAC-2014/CR-35/IC-1 dated 29.9.2014.
4. Consent to Operate granted vide BO/CAC-Cell/EIC-MU-5406-13/O(part)/CAC-10539 dated 17.11.2014 valid upto 31.10.2015.
5. Your application approved in 15<sup>th</sup> CAC meeting of 2015-2016 held on 09.03.2016.

Your application CR1510000030, Dated: 28.09.2015

For: Renewal of Consent to Operate (Part-I) for Residential Building no.1

under Section 26 of the Water (Prevention & Control of Pollution) Act, 1974 & under Section 21 of the Air (Prevention & Control of Pollution) Act, 1981 and Authorization under Rule 5 of the Hazardous Wastes (M, H & T M) Rules 2008 is considered and the consent is hereby granted subject to the following terms and conditions and as detailed in the schedule I, II, III & IV annexed to this order:

1. The Consent to Operate is granted for a period up to 31.10.2021.
2. The capital investment of the project (part) is Rs. 954.59 Crs. (As per CA certificate submitted by applicant)
3. The Consent to Operate (Part-I) is valid for Residential Building no.1 of M/s. Genext Hardware and Parks Pvt. Ltd. on sub plot "B" bearing CTS no. 1903(pt), 1904(pt), 1905, 1/1905, 2/1905 of Byculla Division of Dr. A.L. Nair Road, Maulana Azad Road, Jacob circle, Mahalakshmi, Mumbai on Total Plot Area of 61,520.36 sq. mtrs and construction BUA of 1,82,485.39 sq.m. (as per revised EC), including utilities and services.
4. Conditions under Water (P&CP), 1974 Act for discharge of effluent:

| Sr. no. | Description       | Permitted quantity of discharge (CMD) | Standards to be achieved | Disposal   |
|---------|-------------------|---------------------------------------|--------------------------|--|
| 1.      | Trade effluent    | NIL                                   | NA                       | NA   |
| 2.      | Domestic effluent | 176 CMD                               | As per Schedule -I       | The treated effluent shall be 60% (i.e. 106 CMD) recycled for secondary purposes such as toilet flushing, air conditioning, cooling tower make up, firefighting etc. and remaining shall be connected to the sewerage system provided by local body. |

5. Conditions under Air (P&CP) Act, 1981 for air emissions:

| Sr. no. | Description of stack / source | Number of Stack | Standards to be achieved |
|---------|-------------------------------|-----------------|--------------------------|
| 1.      | DG Set (10x1750 KVA)          | 10              | As per Schedule -II      |
| 2.      | DG Set (3x500 KVA)            | 3               | As per Schedule -II      |

6. Conditions under Municipal Solid Waste (Management and Handling) Rule, 2000:

| Sr. no. | Type Of Waste     | Quantity & UoM | Treatment | Disposal                    |
|---------|-------------------|----------------|-----------|-----------------------------|
| 1       | Biodegradable     | 685 kg/day     | OWC       | Use as manure               |
| 2       | Non-biodegradable | 685kg/day      |           | Sale to authorized recycler |
| 3       | STP sludge        | 40 kg/day      |           | manure                      |

7. Conditions under Hazardous Waste (MH & TM) Rules, 2008 for treatment and disposal of hazardous waste:

| Sr. No. | Type Of Waste | Category | Quantity | UOM | Treatment | Disposal |
|---------|---------------|----------|----------|-----|-----------|----------|
| Nil     |               |          |          |     |           |          |

8. The Board reserves the right to review, amend, suspend, revoke etc. this consent and the same shall be binding on the industry.
9. This consent should not be construed as exemption from obtaining necessary NOC/permission from any other Government authorities.
10. PP shall comply with the conditions stipulated in Environmental Clearance granted by GoI vide no. 21-68/2006-IA.III dated 1.9.2006 and revised EC granted by GoM vide no. vide no.SEAC-2014/CR-35/TC-1 dated 29.9.2014.

For and on behalf of the  
Maharashtra Pollution Control Board

(Dr. B.N. Patil)  
Member Secretary

Received Consent fee of -

| Sr. No. | Amount(Rs.) | DD. No. | Date       | Drawn On  |

Copy to:-

1. Regional Officer, Mumbai and Sub-Regional Officer MPCB, Mumbai-I  
-- They are directed to ensure the compliance of the consent conditions.
2. Chief Accounts Officer, MPCB, Mumbai.
3. CC/CAC desk- for record & website updation purposes.

### Schedule-I

#### Terms & conditions for compliance of Water Pollution Control:

- 1) A) As per your application, you have provided Sewage Treatment Plant (STP) with the design capacity of 200 CMD.
- B) The Applicant shall operate the sewage treatment plant (STP) to treat the sewage so as to achieve the following standards prescribed by the Board or under EP Act, 1986 and Rules made there under from time to time, whichever is stringent.

| Sr No. | Parameters        | Standards prescribed by Board                 |
|--------|-------------------|---|
|        |                   | Limiting Concentration in mg/l, except for pH |
| 01     | BOD (3 days 27°C) | 10  |
| 02     | Suspended Solids  | 10  |
| 03     | COD               | 50  |
| 04     | Residual Chlorine | 1ppm  |

- C) The treated effluent shall be 60% (i.e. 106 CMD) recycled for secondary purposes such as toilet flushing, air conditioning, cooling tower make up, firefighting etc. and remaining shall be connected to the sewerage system provided by local body. In no case, effluent shall find its way to any water body directly/indirectly at any time. Project proponent shall provide flow meter to ensure 60% recycling of treated sewage and shall maintain the record with data logging system. Project Proponent shall achieve the treated domestic effluent standard for the parameter BOD- 10 mg/lit. and shall install online monitoring system within 4 months.
- D) Project proponent shall operate STP for five years from the date of obtaining occupation certificate.
- 2) The Board reserves its rights to review plans, specifications or other data relating to plant setup for the treatment of waterworks for the purification thereof & the system for the disposal of sewage or trade effluent or in connection with the grant of any consent conditions. The Applicant shall obtain prior consent of the Board to take steps to establish the unit or establish any treatment and disposal system or and extension or addition thereto.
- 3) The industry shall ensure replacement of pollution control system or its parts after expiry of its expected life as defined by manufacturer so as to ensure the compliance of standards and safety of the operation thereof.
- 4) The Applicant shall comply with the provisions of the Water (Prevention & Control of Pollution) Cess Act, 1977 and as amended, by installing water meters, filing water cess returns in Form-I and other provisions as contained in the said act.

| Sr. no. | Purpose for water consumed | Water consumption quantity (CMD) |
|---------|----------------------------|----------------------------------|
| 1.      | Domestic purpose           | 232                              |

## Schedule-II

### Terms & conditions for compliance of Air Pollution Control:

1. As per your application, you have proposed to install Air pollution control (APC) system and also proposed to erect following stack (s) and to observe the following fuel pattern-

| Sr. No. | Stack Attached To    | APC System         | Height in Mtrs. | Type of Fuel | Quantity & UoM | S % |
|---------|----------------------|--------------------|-----------------|--------------|----------------|-----|
| 1.      | DG Set (10x1250 KVA) | Acoustic enclosure | 7.1* mtrs each  | HSD          | Kg/hr          | 1   |
| 2.      | DG Set (3x500 KVA)   | Acoustic enclosure | 4.5* mtrs. each | HSD          | Kg/hr          | 1   |

\* above the roof of the building in which it is installed.

2. The applicant shall operate and maintain above mentioned air pollution control system, so as to achieve the level of pollutants to the following standards:

|                    |               |                        |
|--------------------|---------------|------------------------|
| Particulate matter | Not to exceed | 150 mg/Nm <sup>3</sup> |
|--------------------|---------------|------------------------|

3. The Applicant shall obtain necessary prior permission for providing additional control equipment with necessary specifications and operation thereof or alteration or replacement alteration well before its life come to an end or erection of new pollution control equipment.
4. The Board reserves its rights to vary all or any of the condition in the consent, if due to any technological improvement or otherwise such variation (including the change of any control equipment, other in whole or in part is necessary).

\$

**Schedule-III**  
**Details of Bank Guarantees**

| Sr. No. | Consent (C to E/O/R)          | Amt of BG Imposed | Submission Period**                   | Purpose of BG                             | Compliance Period | Validity++                          |
|---------|-------------------------------|-------------------|---------------------------------------|---|-------------------|-------------------------------------|
| 1       | Renewal of Consent to Operate | Rs. 10 lakh       | 15 days from date of issue of consent | Towards O & M of pollution control system | Continuous        | Validity of this consent + 4 months |

\*\* The above Bank Guarantee(s) shall be submitted by the applicant in favour of Regional Officer at the respective Regional Office within 15 days of the date of issue of Consent.

++ The Bank Guarantee(s) shall be valid for a period upto: Validity of consent + 4 months

# Existing BG obtained for above purpose if any may be extended for period of validity as above.

#### Schedule-IV

##### General Conditions:

- 1) The applicant shall provide facility for collection of samples of sewage effluents, air emissions and hazardous waste to the Board staff at the terminal or designated points and shall pay to the Board for the services rendered in this behalf.
- 2) The firm shall strictly comply with the Water (P&CP) Act, 1974, Air (P&CP) Act, 1981 and environmental protection Act 1986 and Municipal Solid Waste (Management & Handling) Rule 2000 and E-Waste (Management & Handling) Rule 2011.
- 3) Drainage system shall be provided for collection of sewage effluents. Terminal manholes shall be provided at the end of the collection system with arrangement for measuring the flow. No sewage shall be admitted in the pipes/sewers downstream of the terminal manholes. No sewage shall find its way other than in designed and provided collection system.
- 4) Vehicles hired for bringing construction material to the site should be in good condition and should conform to applicable air and noise emission standards and should be operated only during non-peak hours.
- 5) Conditions for D.G. Set
  - a) Noise from the D.G. Set should be controlled by providing an acoustic enclosure or by treating the room acoustically.
  - b) Applicant should provide acoustic enclosure for control of noise. The acoustic enclosure/ acoustic treatment of the room should be designed for minimum 25 dB (A) insertion loss or for meeting the ambient noise standards, whichever is on higher side. A suitable exhaust muffler with insertion loss of 25 dB (A) shall also be provided. The measurement of insertion loss will be done at different points at 0.5 meters from acoustic enclosure/room and then average.
  - c) Applicant shall take adequate measures for control of noise levels from its own sources within the premises in respect of noise to less than 55 dB(A) during day time and 45 dB(A) during the night time. Day time is reckoned between 6 a.m. to 10 p.m and night time is reckoned between 10 p.m to 6 a.m.
  - d) Applicant should make efforts to bring down noise level due to DG set, outside their premises, within ambient noise requirements by proper siting and control measures.
  - e) Installation of DG Set must be strictly in compliance with recommendations of DG Set manufacturer.
  - f) A proper routine and preventive maintenance procedure for DG set should be set and followed in consultation with the DG manufacturer which would help to prevent noise levels of DG set from deteriorating with use.
  - g) D.G. Set shall be operated only in case of power failure.
  - h) The applicant should not cause any nuisance in the surrounding area due to operation of D.G. Set.
  - i) The applicant shall comply with the notification of MoEF dated 17.05.2002 regarding noise limit for generator sets run with diesel.
- 6) Solid Waste - The applicant shall provide onsite municipal solid waste processing system & shall comply with Municipal Solid Waste (Management & Handling) Rule 2000 & E-Waste (M & H) Rule 2011.
- 7) Affidavit undertaking in respect of no change in the status of consent conditions and compliance of the consent conditions the draft can be downloaded from the official web site of the MPCB.
- 8) Applicant shall submit official e-mail address and any change will be duly informed to the MPCB.
- 9) The treated sewage shall be disinfected using suitable disinfection method.
- 10) The firm shall submit to this office, the 30th day of September every year, the environment statement report for the financial year ending 31st march in the prescribed Form-V as per the provision of rule 14 of the Environmental (Protection) Second Amended rule 1992.
- 11) The applicant shall make an application for renewal of the consent at least 60 days before the date of the expiry of the consent.

For: grant of Consent to Operate under Section 26 of the Water (Prevention & Control of Pollution) Act, 1974 & under Section 21 of the Air (Prevention & Control of Pollution) Act, 1981 and Authorization under Rule 6 of the Hazardous and Other Wastes (Management and Transboundary Movement) Rules, 2016 is considered and the consent is hereby granted subject to the following terms and conditions and as detailed in the schedule I, II, III & IV annexed to this order:

1. The Consent to 1<sup>st</sup> Operate (Part-I) is valid for period upto 30/06/2019.
2. The capital investment of the project (Part) is Rs. 402.67 Crs (As per C.A. Certificate submitted by project proponent and capital investment of complete project is 888 Crs).
3. The Consent to 1<sup>st</sup> Operate (Part-I) is valid for Sale Building No. 2 (Tower-D) of Residential & Composite Building with Public Parking of M/s Genext Hardware & Parks Pvt. Ltd. at Sub Plot - B of C.S. No. 1903, 1904, 1905, 1/1905 & 2/1905 of Byculla Division, Sane Guruji Marg, Near Jacob Circle, Mahalaxmi, Mumbai-400 011 on total plot area of 68,274.86 Sq. Mtrs. for construction BUA (FSI) 31,935.02 Sq. Mtrs. out of Total construction BUA of 2,05,546.42 Sq. Mtrs. as per Environmental Clearance No. SEAC-2014/CR-35/TC-1 dated 29/09/2014 and Commencement Certificate issued by local body including utilities and services.

**4. Conditions under Water (P&CP), 1974 Act for discharge of effluent:**

| Sr. no. | Description       | Permitted quantity of discharge (CMD) | Standards to be achieved | Disposal  |
|---------|-------------------|---------------------------------------|--------------------------|---|
| 1.      | Trade effluent    | NIL                                   | NA                       | NA  |
| 2.      | Domestic effluent | 59                                    | As per Schedule-I        | The treated domestic effluent shall be 60% recycled for secondary purposes such as toilet flushing, air conditioning, cooling tower make up, firefighting etc. and remaining shall be utilized on land for gardening. |

**5. Conditions under Air (P&CP) Act, 1981 for air emissions:**

| Sr. No. | Description of stack/ source | Number Of Stack | Standards to be achieved |
|---------|------------------------------|-----------------|--------------------------|
| 1       | DG Sets (1 x 1,250 KVA)      | 1               | As Per Schedule -II      |

**6. Conditions under Solid Waste Management Rule, 2016:**

| Sr. no. | Type Of Waste | Quantity |
|---------|---------------|----------|
|---------|---------------|----------|

|   |                   |                | Treatment                  | Disposal  |
|---|-------------------|----------------|----------------------------|---|
| 1 | Biodegradable     | 165 Kg/day     | OWC followed by composting | Used as Manure                                      |
| 2 | Non-Biodegradable | 110 Kg/day     | ---                        | Segregate and Hand over to Local Body for recycling |
| 3 | STP Sludge        | As actual Kg/D | ---                        | Used as Manure                                      |

7. Conditions under Hazardous and Other Wastes (Management and Transboundary Movement) Rules, 2016 for treatment and disposal of hazardous waste:

| Sr. No. | HW Cat. & Type Of Waste | Quantity  | UOM    | Treatment | Disposal                          |
|---------|-------------------------|-----------|--------|-----------|-----------------------------------|
| 1       | 5.1 – Used/ Spent Oil   | As actual | Ltrs/A | ---       | Sale to Auth. Party/ Re-processor |

8. The Board reserves the right to review, amend, suspend, revoke etc. this consent and the same shall be binding on the industry.
9. This consent should not be construed as exemption from obtaining necessary NOC/permission from any other Government authorities.
10. Project Proponent shall comply conditions stipulated in Environmental clearance issued by SEIAA, GoM vide No. SEAC-2014/CR-35/TC-1 dtd. 29/09/2014.
11. Project Proponent shall submit an undertaking in Board's prescribed format within 15 days regarding compliance of Environmental Clearance (EC) and Consent to Operate conditions.
12. Project Proponent shall submit the undertaking within 15 days in the prescribed format towards part of the built up area/ building for which application for 1st Consent to Operate (Part-I) is made and that the same is included in the Environmental Clearance accorded.
13. Project Proponent shall achieve the treated domestic effluent standard for the parameter BOD- 10 mg/lit.
14. The treated effluent shall be 60% recycled for secondary purposes such as toilet flushing, air conditioning, cooling tower make up, firefighting etc. and remaining shall be utilized on land for gardening.
15. Project Proponent shall submit the Bank Guarantee of Rs. 25 lakhs towards O & M of pollution control system.
16. Project Proponent shall operate organic waste digester along with composting facility/ bio-digester (biogas) with composting facility for the treatment of wet garbage.
17. Project Proponent will be responsible for proper operation & maintenance of pollution control systems for initial period of five years after Society formation and afterward handover the facility to the Society for its further operation in good and working conditions.

For and on behalf of the  
Maharashtra Pollution Control Board

(E. Ravendiran, IAS)  
Member Secretary

Received Consent fee of –

| Sr. No. | DR/DR/RTGS/NEFT/TRXN No. | Bank Name | Amount         | Date       |
|---------|--------------------------|-----------|----------------|------------|
| 1       | TXN1805003337            | ---       | Rs. 8,05,340/- | 29/05/2018 |

Copy to:

1. Regional Officer (Mumbai)/ Sub-Regional Officer (Mumbai-I), M.P.C. Board.  
- They are directed to ensure the compliance of the consent conditions.
2. Chief Accounts Officer, MPCB, Mumbai.
3. CC/CAC desk- for record & website updating purposes.

### Schedule-I

#### Terms & conditions for compliance of Water Pollution Control:

- 1) A] As per your application, you have provided STP of capacity 100 CMD with MBBR Technology for the treatment of 59 CMD sewage.
- B] The Applicant shall operate the Sewage Treatment Plant (STP) to treat the sewage so as to achieve the following standards/ prescribed under EP Act, 1986 and Rules made there under from time to time, whichever is stringent:

| Sr. No. | Parameters        | Standards prescribed by Board                 |
|---------|-------------------|---|
|         |                   | Limiting Concentration in mg/l, except for pH |
| 01      | BOD (3 days 27°C) | 10  |
| 02      | Suspended Solids  | 20  |
| 03      | COD               | 50  |
| 04      | Residual Chlorine | 1 ppm   |

- C] The treated domestic effluent shall be 60% recycled for secondary purposes such as toilet flushing, air conditioning, cooling tower make up, firefighting etc. and remaining shall be utilized on land for gardening and connected to the sewerage system provided by local body. In no case, effluent shall find its way to any water body directly/indirectly at any time. Project proponent shall provide flow meter to ensure 60% recycling of treated sewage and shall maintain the record with data logging system.

Project Proponent shall install online continuous monitoring system for the parameters Flow, BOD & TSS at the outlet of Sewage Treatment Plant with the connectivity to MPCB Server within 3 months.

- 2] The Board reserves its rights to review plans, specifications or other data relating to plant setup for the treatment of waterworks for the purification thereof & the system for the disposal of sewage or trade effluent or in connection with the grant of any consent conditions. The Applicant shall obtain prior consent of the Board to take steps to establish the unit or establish any treatment and disposal system and/ or extension or addition thereto.
- 3] The industry shall ensure replacement of pollution control system or its parts after expiry of its expected life as defined by manufacturer so as to ensure the compliance of standards and safety of the operation thereof.
- 4] The Applicant shall consume water as follows:

| Sr. no. | Purpose for water consumed   | Water consumption quantity (CMD) |
|---------|--|----------------------------------|
| 1.      | Industrial Cooling, spraying in mine pits or boiler feed                                       | 0.00                             |
| 2.      | Domestic purpose   | 74.0                             |
| 3.      | Processing whereby water gets polluted & pollutants are easily biodegradable                   | 0.00                             |
| 4.      | Processing whereby water gets polluted & pollutants are not easily biodegradable and are toxic | 0.00                             |

Schedule-II

Terms & conditions for compliance of Air Pollution Control:

1. As per your application, you have proposed to installed the Air pollution control (APC) system and also erected following stack (s) and to observe the following fuel pattern-

| Sr. No. | Stack Attached To    | APC System         | Height in Mtrs. | Type of Fuel | Quantity & UoM | S% | SO <sub>2</sub> (Kg/D) |
|---------|----------------------|--------------------|-----------------|--------------|----------------|----|------------------------|
| 1.      | D.G. Set (1,250 KVA) | Acoustic Enclosure | 4.5             | HSD          | 197 Kg/Hr      | 1  | 95                     |

2. The applicant shall operate and maintain above mentioned air pollution control system, so as to achieve the level of pollutants to the following standards.

|                          |               |                        |
|--------------------------|---------------|------------------------|
| Total Particulate matter | Not to exceed | 150 mg/Nm <sup>3</sup> |
|--------------------------|---------------|------------------------|

3. The Applicant shall obtain necessary prior permission for providing additional control equipment with necessary specifications and operation thereof or alteration or replacement alteration well before its life come to an end or erection of new pollution control equipment.
4. The Board reserves its rights to vary all or any of the condition in the consent, if due to any technological improvement or otherwise such variation (including the change of any control equipment, other in whole or in part is necessary).

**Schedule-III**  
**Details of Bank Guarantees**

| Sr. No. | Consent (Renewal Of C to O)     | Amt of BG Imposed | Submission Period | Purpose of BG                              | Compliance Period | Validity   |
|---------|---------------------------------|-------------------|-------------------|--|-------------------|------------|
| 1       | 1 <sup>st</sup> C to O (Part-I) | Rs.25 Lakh        | Within 15 Days    | Towards O & M of pollution control systems | 30/06/2019        | 31/10/2019 |

The above Bank Guarantee(s) shall be submitted by the applicant in favour of Regional Officer at the respective Regional Office within 15 days of the date of issue of Consent.

Maharashtra Pollution Control Board

#### Schedule-IV

##### General Conditions:

- 1) The applicant shall provide facility for collection of samples of sewage effluents, air emissions and hazardous waste to the Board staff at the terminal or designated points and shall pay to the Board for the services rendered in this behalf.
- 2) The firm shall strictly comply with the Water (P&CP) Act, 1974, Air (P&CP) Act, 1981 and Environmental Protection Act 1986 and Solid Waste Management Rule 2016, Noise (Pollution and Control) Rules, 2000 and E-Waste (Management & Handling Rule 2011.
- 3) Drainage system shall be provided for collection of sewage effluents. Terminal manholes shall be provided at the end of the collection system with arrangement for measuring the flow. No sewage shall be admitted in the pipes/sewers downstream of the terminal manholes. No sewage shall find its way other than in designed and provided collection system.
- 4) Vehicles hired for bringing construction material to the site should be in good condition and should conform to applicable air and noise emission standards and should be operated only during non-peak hours.
- 5) Conditions for D.G. Set
  - a) Noise from the D.G. Set should be controlled by providing an acoustic enclosure or by treating the room acoustically.
  - b) Applicant should provide acoustic enclosure for control of noise. The acoustic enclosure/ acoustic treatment of the room should be designed for minimum 25 dB (A) insertion loss or for meeting the ambient noise standards, whichever is on higher side. A suitable exhaust muffler with insertion loss of 25 dB (A) shall also be provided. The measurement of insertion loss will be done at different points at 0.5 meters from acoustic enclosure/room and then average.
  - c) Applicant should make efforts to bring down noise level due to DG set, outside their premises, within ambient noise requirements by proper siting and control measures.
  - d) Installation of DG Set must be strictly in compliance with recommendations of DG Set manufacturer.
  - e) A proper routine and preventive maintenance procedure for DG set should be set and followed in consultation with the DG manufacturer which would help to prevent noise levels of DG set from deteriorating with use.
  - f) D.G. Set shall be operated only in case of power failure.
  - g) The applicant should not cause any nuisance in the surrounding area due to operation of D.G. Set.
  - h) The applicant shall comply with the notification of MoEF dated 17.05.2002 regarding noise limit for generator sets run with diesel.
- 6) Solid Waste – The applicant shall provide onsite municipal solid waste processing system & shall comply with Solid Waste Management Rule 2016 & E-Waste (M & H) Rule 2011.
- 7) Affidavit undertaking in respect of no change in the status of consent conditions and compliance of the consent conditions the draft can be downloaded from the official web site of the MPCB.
- 8) Applicant shall submit official e-mail address and any change will be duly informed to the MPCB.
- 9) The treated sewage shall be disinfected using suitable disinfection method.
- 10) The firm shall submit to this office, the 30th day of September every year, the environment statement report for the financial year ending 31st march in the prescribed Form-V as per the provision of rule 14 of the Environmental (Protection) Second Amended rule 1992.
- 11) The applicant shall make an application for renewal of the consent at least 60 days before date of the expiry of the consent.

  5. Minutes of Consent Appraisal Committee meeting held on 14/08/2019.

Your application No.MPCB-CONSENT-0000073917 Dated 10.06.2019

For: grant of Consent to Establish under Section 25 of the Water (Prevention & Control of Pollution) Act, 1974 & under Section 21 of the Air (Prevention & Control of Pollution) Act, 1981 and Authorization / Renewal of Authorization under Rule 6 of the Hazardous & Other Wastes (Management & Transboundary Movement) Rules 2016 is considered and the consent is hereby granted subject to the following terms and conditions and as detailed in the schedule I, II, III & IV annexed to this order:

1. **The Revalidation of Consent to Establish is granted for a period upto commissioning of project or 5 years / or upto 08-08-2024 whichever is earlier.**
2. **The capital investment of the project is Rs.673.56 Crs. (As per undertaking submitted by pp).**
3. **The Consent to Establish is valid for for construction of remaining part of the Project i.e. Building No. 3 & Public Parking Lot of M/s Genext Hardware & Parks Pvt. Ltd., CS Nos. 1903, 1904, 1905, 1/1905 & 2/1905 of Byculla Division, Sane Guruji Marg, Near Jacob Circle, Mahalaxmi, Mumbai on total plot area 61,520.46 sq. mtrs. for remaining construction BUA 1,39,740.52 sq. mtrs. out of total construction BUA 2,05,546.42 sq. mtrs. as per Environment Clearance and construction permission issued by Local Body including utilities and services.**
4. **Conditions under Water (P&CP), 1974 Act for discharge of effluent:**

| Sr No | Description       | Permitted | Standards to        | Disposal  |
|-------|-------------------|-----------|---------------------|---|
| 1.    | Trade effluent    | Nil       | NA                  | NA  |
| 2.    | Domestic effluent | 83        | As per Schedule - I | The treated effluent shall be 60% recycled for secondary purposes such as toilet flushing, air-conditioning, cooling tower make up, firefighting etc. and remaining shall be utilized on land for gardening and connected to local body sewer line. |

5. **Conditions under Air (P& CP) Act, 1981 for air emissions:**

| Stack No. | Description of stack / source | Number of Stack | Standards to be achieved |
|-----------|-------------------------------|-----------------|--------------------------|
| S-1 & S-2 | DG Sets (750 & 1250 KVA)      | 1               | As per Schedule -II      |

6. **Conditions under Solid Waste Rules, 2016:**

| Sr No | Type Of Waste  | Quantity & UoM | Treatment | Disposal   |
|-------|--|----------------|-----------|--|
| 1     | Biodegradable  | 143 Kg/Day     | NA        | Use as Manure  |
| 2     | Non- Biodegradable Waste (Inert, Paper Packaging, Rubber, Glass) | 128 Kg/Day     | NA        | Dry garbage will be segregated and hand over to local body for recycling |
| 3     | STP Sludge   | 10 Kg/Day      | NA        | Use as Manure  |

7. **Conditions under Hazardous & Other Wastes (M & T M) Rules 2008 for treatment and disposal of hazardous waste:**

| Sr No | Category No. | Quantity | UoM   | Treatment | Disposal                          |
|-------|--------------|----------|-------|-----------|-----------------------------------|
| 1     | 5.1          | 200      | Ltr/A | NA        | Sale to Auth. Party/ Re-processor |

- 8 This Board reserves the right to review, amend, suspend, revoke etc. this consent and the same shall be binding on the industry.
- 9 This consent should not be construed as exemption from obtaining necessary NOC/permission from any other Government agencies.
- 10 PP shall provide STP so as to achieve the treated domestic effluent standard for the parameter BOD-10 mg/lit.
- 11 The treated effluent shall be 60% recycled for secondary purposes such as toilet flushing, air-conditioning, cooling tower make up, firefighting etc. and remaining shall be utilized on land for gardening and connected to local body sewer line.
- 12 PP shall install organic waste digester along with composting facility/bio-digester (biogas) with composting facility for the treatment of wet garbage.
- 13 PP shall obtain NOC from MCGM for disposal of construction debris at specific site inspected and approved by Municipal Corporation.
- 14 PP shall submit BG of Rs. 10 Lakhs towards compliance of EC and Consent to Establish conditions.
- 15 PP shall provide bus transport for resident/ employees to the extent possible directly or indirectly through the operator so as to reduce traffic congestion and resultant in reduction of air pollution.
- 16 Consent shall be issued without prejudice to the order passed as may be passed by the Hon'ble Supreme Court of India in special leave petition Civil No. D23708/2017.

For and on behalf of the  
Maharashtra Pollution Control Board.

(E. Ravendiran IAS),  
Member Secretary

**Copy to:**

1. Regional Officer, MPCB, Mumbai and Sub-Regional Officer, MPCB, Mumbai  
- They are directed to ensure the compliance of the consent conditions.
2. Chief Accounts Officer, MPCB, Sion, Mumbai
3. CC-CAC Desk- for record & website updating purpose.

**SCHEDULE-I****Terms & conditions for compliance of Water Pollution Control:**

- 1) A) As per your application, you have proposed to provide MBBR based Sewage Treatment Plants (STPs) of combined capacity **120 CMD for treatment of domestic effluent of 83 CMD.**
- B) The Applicant shall operate the sewage treatment plant (STP) to treat the sewage so as to achieve the following standards prescribed by the Board or under EP Act, 1986 and Rules made there under from time to time, whichever is stringent.

| Sr. No. | Parameters         | Standards prescribed by Board                 |
|---------|--------------------|---|
|         |                    | Limiting Concentration in mg/l, except for pH |
| 1.      | BOD (3 days 27° C) | 10  |
| 2.      | Suspended Solids   | 20  |
| 3.      | COD                | 50  |
| 4.      | Residual Chlorine  | 1ppm  |

- C) The treated domestic effluent shall be 60% recycled for secondary purposes such as toilet flushing, air-conditioning, cooling tower make up, firefighting etc. and remaining shall be utilized on land for gardening and connected to local body sewer line. In no case, effluent shall find its way outside Project Proponent's premise.
- 2) The Board reserves its rights to review plans, specifications or other data relating to plant setup for the treatment of waterworks for the purification thereof & the system for the disposal of sewage or trade effluent or in connection with the grant of any consent conditions. The Applicant shall obtain prior consent of the Board to take steps to establish the unit or establish any treatment and disposal system or and extension or addition thereto.
- 3) The industry shall ensure replacement of pollution control system or its parts after expiry of its expected life as defined by manufacturer so as to ensure the compliance of standards and safety of the operation thereof.
- 4) **The Applicant shall comply with the provisions of the Water (Prevention & Control of Pollution) Act, 1974 and as amended, and other provisions as contained in the said act.**

| Sr. No. | Purpose for water consumed   | Water consumption quantity (CMD) |
|---------|--|----------------------------------|
| 1.      | Industrial Cooling, spraying in mine pits or boiler feed                                       | 0.00                             |
| 2.      | Domestic purpose   | 95.00                            |
| 3.      | Processing whereby water gets polluted & pollutants are easily biodegradable                   | 0.00                             |
| 4.      | Processing whereby water gets polluted & pollutants are not easily biodegradable and are toxic | 0.00                             |

- 5) The Applicant shall provide Specific Water Pollution control system as per the conditions of EP Act, 1986 and rule made there under from time to time.

**SCHEDULE-II**  
**Terms & conditions for compliance of Air Pollution Control:**

- 1) As per your application, you have proposed to provide the Air pollution control (APC) system and also proposed to erect following stack (s) and to observe the following fuel pattern-

| Stack No. | Stack Attached To  | APC System         | Height in Mtrs. | Type of Fuel | Quantity & UoM |
|-----------|--------------------|--------------------|-----------------|--------------|----------------|
| S-1       | DG Set (750 KVA)   | Acoustic Enclosure | 8               | HSD          | 166.5 Kg/Hr    |
| S-2       | DG Sets (1250 KVA) | Acoustic Enclosure | 10              | HSD          | 197 Kg/Hr      |

\* Above roof the building in which it is installed.

- 2) The applicant shall operate and maintain above mentioned air pollution control system, so as to achieve the level of pollutants to the following standards.

|                         |               |                        |
|-------------------------|---------------|------------------------|
| Total Particular matter | Not to exceed | 150 mg/Nm <sup>3</sup> |
|-------------------------|---------------|------------------------|

- 3) The Applicant shall obtain necessary prior permission for providing additional control equipment with necessary specifications and operation thereof or alteration or replacement well before its life come to an end or erection of new pollution control equipment.
- 4) The Board reserves its rights to vary all or any of the condition in the consent, if due to any technological improvement or otherwise such variation (including the change of any control equipment, other in whole or in part is necessary).
- 5) **Conditions for utilities like Kitchen, Eating Places, Canteens:-**
- The kitchen shall be provided with exhaust system chimney with oil catcher connected to chimney through ducting.
  - The toilet shall be provided with exhaust system connected to chimney through ducting.
  - The air conditioner shall be vibration proof and the noise shall not exceed 68 dB(A).
  - The exhaust hot air from A.C. shall be attached to Chimney at least 5 mtrs. higher than the nearest tallest building through ducting and shall discharge into open air in such a way that no nuisance is caused to neighbors.

**SCHEDULE-III**  
**Details of Bank Guarantees:**

| Sr. No. | Consent(C2E/C2O/C2R) | Amt of BG Imposed | Submission Period | Purpose of BG   | Compliance Period | Validity Date |
|---------|----------------------|-------------------|-------------------|---|-------------------|---------------|

**\*\*** The above Bank Guarantee(s) shall be submitted by the applicant in favour of Regional Officer at the respective Regional Office within 15 days of the date of issue of Consent.  
**# Existing BG obtained for above purpose if any may be extended for period of validity as above.**

**BG Forfeiture History**

| Srno. | Consent (C2E/C2O/C2R) | Amount of BG imposed | Submission Period | Purpose of BG | Amount of BG Forfeiture | Reason of BG Forfeiture |
|-------|-----------------------|----------------------|-------------------|---------------|-------------------------|-------------------------|
| NA    |                       |                      |                   |               |                         |                         |

#### SCHEDULE-IV

##### Conditions during construction phase

|          |   |
|----------|---|
| <b>A</b> | During construction phase, applicant shall provide temporary sewage disposal and MSW facility for staff and worker quarters.  |
| <b>B</b> | During construction phase, the ambient air and noise quality should be closely monitored to achieve Ambient Air Quality Standards and Noise by the project proponent through MoEF approved laboratory.  |
| <b>C</b> | Noise should be controlled to ensure that it does not exceed the prescribed standards. During nighttime the noise levels measured at the boundary of the building shall be restricted to the permissible levels to comply with the prevalent regulations. |

##### General Conditions:

- 1 The applicant shall provide facility for collection of samples of sewage effluents, air emissions and hazardous waste to the Board staff at the terminal or designated points and shall pay to the Board for the services rendered in this behalf.
- 2 The firm shall strictly comply with the Water (P&CP) Act, 1974, Air (P&CP) Act, 1981 and Environmental Protection Act 1986 and Solid Waste Management Rule 2016, Noise (Pollution and Control) Rules, 2000 and E-Waste (Management & Handling Rule 2011).
- 3 Drainage system shall be provided for collection of sewage effluents. Terminal manholes shall be provided at the end of the collection system with arrangement for measuring the flow. No sewage shall be admitted in the pipes/sewers downstream of the terminal manholes. No sewage shall find its way other than in designed and provided collection system.
- 4 Vehicles hired for bringing construction material to the site should be in good condition and should conform to applicable air and noise emission standards and should be operated only during non-peak hours.
- 5 Conditions for D.G. Set
  - a) Noise from the D.G. Set should be controlled by providing an acoustic enclosure or by treating the room acoustically.
  - b) Applicant should provide acoustic enclosure for control of noise. The acoustic enclosure/ acoustic treatment of the room should be designed for minimum 25 dB (A) insertion loss or for meeting the ambient noise standards, whichever is on higher side. A suitable exhaust muffler with insertion loss of 25 dB (A) shall also be provided. The measurement of insertion loss will be done at different points at 0.5 meters from acoustic enclosure/room and then average.
  - c) Applicant should make efforts to bring down noise level due to DG set, outside their premises, within ambient noise requirements by proper siting and control measures.
  - d) Installation of DG Set must be strictly in compliance with recommendations of DG Set manufacturer.
  - e) A proper routine and preventive maintenance procedure for DG set should be set and followed in consultation with the DG manufacturer which would help to prevent noise levels of DG set from deteriorating with use.
  - f) D.G. Set shall be operated only in case of power failure.
  - g) The applicant should not cause any nuisance in the surrounding area due to operation of D.G. Set.
  - h) The applicant shall comply with the notification of MoEF dated 17.05.2002 regarding noise limit for generator sets run with diesel.
- 6 Solid Waste - The applicant shall provide onsite municipal solid waste processing system & shall comply with Solid Waste Management Rule 2016 & E-Waste (M & H) Rule 2011.
- 7 Affidavit undertaking in respect of no change in the status of consent conditions and compliance of the consent conditions the draft can be downloaded from the official web site of the MPCB.
- 8 Applicant shall submit official e-mail address and any change will be duly informed to the MPCB.
- 9 The treated sewage shall be disinfected using suitable disinfection method.
- 10 The firm shall submit to this office, the 30th day of September every year, the environment statement report for the financial year ending 31st march in the prescribed Form-V as per the provision of rule 14 of the Environmental (Protection) Second Amended rule 1992.
- 11 The applicant shall obtain Consent to Operate from Maharashtra Pollution Control Board before commissioning of the project.

Your application No.MPCB-CONSENT-0000073142 Dated 14.06.2019

For: grant of Consent to Operate under Section 26 of the Water (Prevention & Control of Pollution) Act, 1974 & under Section 21 of the Air (Prevention & Control of Pollution) Act, 1981 and Authorization / Renewal of Authorization under Rule 6 of the Hazardous & Other Wastes (Management & Transboundary Movement) Rules 2016 is considered and the consent is hereby granted subject to the following terms and conditions and as detailed in the schedule I, II, III & IV annexed to this order:

1. **The 1st Consent to Operate is granted for a period up to 30.06.2020**
2. **The capital investment of the project is Rs.502.7843 Crs. (As per C.A Certificate submitted by industry).**
3. **The Consent to Operate is valid for \_\_ named as Genext Hardware & Parks Pvt. Ltd., Sub plot B, CS No. 1903, 1904, 1905, 1/1905 & 2/1905, Building No. 2 on sub plot B, of CS No. 1903, 1904, 1905, 1/1905 & 2/1905 of Byculla Division, Sane Guruji Marg, Near Jacob Circle, Mahalaxmi, Mumbai, Mumbai city on Total Plot Area of 61520.46 Sq. Meters. SqMtrs for construction BUA of FSI: 31935.02 Sq. Mtrs + Non FSI area 33870.88 (Out of total construction BUA 2,05,546.42 Sq. mtrs) SqMtrs out of Total Construction BUA of SqMtrs as per EC granted dated 2014-09-29 including utilities and services**
4. **Conditions under Water (P&CP), 1974 Act for discharge of effluent:**

| Sr No | Description       | Permitted | Standards to        | Disposal  |
|-------|-------------------|-----------|---------------------|---|
| 1.    | Trade effluent    | Nil       | NA                  | NA  |
| 2.    | Domestic effluent | 59        | As per Schedule - I | The treated effluent shall be 60% recycled for secondary purposes such as toilet flushing, air conditioning, cooling tower make up, fire-fighting etc. and remaining shall be utilized on land for gardening and or connected to local body sewer-line. |

5. **Conditions under Air (P& CP) Act, 1981 for air emissions:**

| Stack No. | Description of stack / source | Number of Stack | Standards to be achieved |
|-----------|-------------------------------|-----------------|--------------------------|
| S-1       | DG Set (1250 KVA)             | 1               | As per Schedule -II      |

6. **Conditions under Solid Waste Rules, 2016:**

| Sr No | Type Of Waste      | Quantity & UoM | Treatment                  | Disposal  |
|-------|--------------------|----------------|----------------------------|---|
| 1     | Bio Degradable     | 165 Kg/Day     | OWC followed by composting | Used as manure for gardening                        |
| 2     | Non-Bio Degradable | 110 Kg/Day     | NA                         | Segregate and hand over to local body for recycling |
| 3     | STP sludge         | 5 Kg/Day       | NA                         | Used as Manure                                      |

7. **Conditions under Hazardous & Other Wastes (M & T M) Rules 2008 for treatment and disposal of hazardous waste:**

| Sr No | Category No. | Quantity | UoM   | Treatment | Disposal                                |
|-------|--------------|----------|-------|-----------|---|
| 1     | 5.1          | 100      | Ltr/A | NA        | Disposal by sale to authorized recycler |

- 8 The Board reserves the right to review, amend, suspend, revoke etc. this consent and the same shall be binding on the industry.
- 9 This consent should not be construed as exemption from obtaining necessary NOC/permission from any other Government authorities.
- 10 PP shall operate STPs so as to achieve the treated domestic effluent standard for the parameter BOD- 10 mg/lit.
- 11 The treated effluent shall be 60% recycled for secondary purposes such as toilet flushing, air conditioning, cooling tower make up, fire-fighting etc. and remaining shall be utilized on land for gardening and or connected to local body sewer line.
- 12 PP shall operate OWC followed by composting facility for the treatment of Biodegradable waste and compost obtained shall be used as manure in their own garden/ plantation.
- 13 PP will be responsible for proper operation & maintenance of pollution control systems for initial period of five years after Society formation and afterward handover the facility to the Society for its further operation in good and working conditions.
- 14 PP shall provide bus transport for residents/ employees to the extent possible directly or indirectly through the operator for the residents so as to reduce traffic congestion and resultant air pollution.
- 15 PP shall extend existing BG of Rs. 25 Lakh towards O & M of pollution control system and compliance of consent to operate conditions.

For and on behalf of the  
Maharashtra Pollution Control Board.

- They are directed to ensure the compliance of the consent conditions.
2. Chief Accounts Officer, MPCB, Sion, Mumbai
3. CC-CAC Desk- for record & website updating purpose.

**SCHEDULE-I**  
**Terms & conditions for compliance of Water Pollution Control:**

- 1) A) As per your application, you have provided MBBR based Sewage Treatment Plants (STPs) of combined capacity **100 CMD for treatment of domestic effluent of 59 CMD.**
- B) The Applicant shall operate the sewage treatment plant (STP) to treat the sewage so as to achieve the following standards prescribed by the Board or under EP Act, 1986 and Rules made there under from time to time, whichever is stringent.

| Sr. No. | Parameters         | Standards prescribed by Board                 |
|---------|--------------------|---|
|         |                    | Limiting Concentration in mg/l, except for pH |
| 1.      | BOD (3 days 27o C) | 10  |
| 2.      | Suspended Solids   | 20  |
| 3.      | COD                | 50  |
| 4.      | Residual Chlorine  | 1ppm  |

- C) The treated effluent shall be 60% recycled for secondary purposes such as toilet flushing, air conditioning, cooling tower make up, fire-fighting etc. and remaining shall be utilized on land for gardening and or connected to local body sewer line. In no case, effluent shall find its way outside Project Proponent's premise.
- 2) The Board reserves its rights to review plans, specifications or other data relating to plant setup for the treatment of waterworks for the purification thereof & the system for the disposal of sewage or trade effluent or in connection with the grant of any consent conditions. The Applicant shall obtain prior consent of the Board to take steps to establish the unit or establish any treatment and disposal system or and extension or addition thereto.
- 3) The industry shall ensure replacement of pollution control system or its parts after expiry of its expected life as defined by manufacturer so as to ensure the compliance of standards and safety of the operation thereof.
- 4) **The Applicant shall comply with the provisions of the Water (Prevention & Control of Pollution) Act, 1974 and as amended, and other provisions as contained in the said act.**

| Sr. No. | Purpose for water consumed   | Water consumption quantity (CMD) |
|---------|--|----------------------------------|
| 1.      | Industrial Cooling, spraying in mine pits or boiler feed                                       | 0.00                             |
| 2.      | Domestic purpose   | 78.00                            |
| 3.      | Processing whereby water gets polluted & pollutants are easily biodegradable                   | 0.00                             |
| 4.      | Processing whereby water gets polluted & pollutants are not easily biodegradable and are toxic | 0.00                             |

- 5) The Applicant shall provide Specific Water Pollution control system as per the conditions of EP Act, 1986 and rule made there under from time to time.

**SCHEDULE-II****Terms & conditions for compliance of Air Pollution Control:**

- 1) As per your application, you have provided the Air pollution control (APC) system and also proposed to erect following stack (s) and to observe the following fuel pattern-

| Stack No. | Stack Attached To | APC System         | Height in Mtrs. | Type of Fuel | Quantity & UoM |
|-----------|-------------------|--------------------|-----------------|--------------|----------------|
| S-1       | DG SET (1250 KVA) | Acoustic Enclosure | 15              | HSD          | 197 Kg/Hr      |

\* Above roof the building in which it is installed.

- 2) The applicant shall operate and maintain above mentioned air pollution control system, so as to achieve the level of pollutants to the following standards.

|                         |               |                        |
|-------------------------|---------------|------------------------|
| Total Particular matter | Not to exceed | 150 mg/Nm <sup>3</sup> |
|-------------------------|---------------|------------------------|

- 3) The Applicant shall obtain necessary prior permission for providing additional control equipment with necessary specifications and operation thereof or alteration or replacement well before its life come to an end or erection of new pollution control equipment.
- 4) The Board reserves its rights to vary all or any of the condition in the consent, if due to any technological improvement or otherwise such variation (including the change of any control equipment, other in whole or in part is necessary).

- 5) **Conditions for utilities like Kitchen, Eating Places, Canteens:-**

- a) The kitchen shall be provided with exhaust system chimney with oil catcher connected to chimney through ducting.
- b) The toilet shall be provided with exhaust system connected to chimney through ducting.
- c) The air conditioner shall be vibration proof and the noise shall not exceed 68 dB(A).
- d) The exhaust hot air from A.C. shall be attached to Chimney at least 5 mtrs. higher than the nearest tallest building through ducting and shall discharge into open air in such a way that no nuisance is caused to neighbors.

**SCHEDULE-III**  
**Details of Bank Guarantees:**

| Sr. No. | Consent(C2E/C2O/C2R) | Amt of BG Imposed | Submission Period | Purpose of BG   | Compliance Period | Validity Date |
|---------|----------------------|-------------------|-------------------|---|-------------------|---------------|
| 1       | C2R (Part-II)        | 2500000           | Existing          | Towards O&M of pollution control systems and towards compliance of the Consent conditions | 30.06.2020        | 30.10.2020    |

\* The above Bank Guarantee(s) shall be submitted by the applicant in favour of Regional Officer at the respective Regional Office within 15 days of the date of issue of Consent.  
# Existing BG obtained for above purpose if any may be extended for period of validity as above.

**BG Forfeiture History**

| Srno. | Consent (C2E/C2O/C2R) | Amount of BG imposed | Submission Period | Purpose of BG | Amount of BG Forfeiture | Reason of BG Forfeiture |

| NA    |                       |                      |                   |               |                         |                         |

*[Handwritten signature]*

#### SCHEDULE-IV

##### General Conditions:

- 1 The applicant shall provide facility for collection of samples of sewage effluents, air emissions and hazardous waste to the Board staff at the terminal or designated points and shall pay to the Board for the services rendered in this behalf.
- 2 The firm shall strictly comply with the Water (P&CP) Act, 1974, Air (P&CP) Act, 1981 and Environmental Protection Act 1986 and Solid Waste Management Rule 2016, Noise (Pollution and Control) Rules, 2000 and E-Waste (Management & Handling) Rule 2011.
- 3 Drainage system shall be provided for collection of sewage effluents. Terminal manholes shall be provided at the end of the collection system with arrangement for measuring the flow. No sewage shall be admitted in the pipes/sewers downstream of the terminal manholes. No sewage shall find its way other than in designed and provided collection system.
- 4 Vehicles hired for bringing construction material to the site should be in good condition and should conform to applicable air and noise emission standards and should be operated only during non-peak hours.
- 5 Conditions for D.G. Set
  - a) Noise from the D.G. Set should be controlled by providing an acoustic enclosure or by treating the room acoustically.
  - b) Applicant should provide acoustic enclosure for control of noise. The acoustic enclosure/ acoustic treatment of the room should be designed for minimum 25 dB (A) insertion loss or for meeting the ambient noise standards, whichever is on higher side. A suitable exhaust muffler with insertion loss of 25 dB (A) shall also be provided. The measurement of insertion loss will be done at different points at 0.5 meters from acoustic enclosure/room and then average.
  - c) Applicant should make efforts to bring down noise level due to DG set, outside their premises, within ambient noise requirements by proper siting and control measures.
  - d) Installation of DG Set must be strictly in compliance with recommendations of DG Set manufacturer.
  - e) A proper routine and preventive maintenance procedure for DG set should be set and followed in consultation with the DG manufacturer which would help to prevent noise levels of DG set from deteriorating with use.
  - f) D.G. Set shall be operated only in case of power failure.
  - g) The applicant should not cause any nuisance in the surrounding area due to operation of D.G. Set.
  - h) The applicant shall comply with the notification of MoEF dated 17.05.2002 regarding noise limit for generator sets run with diesel.
- 6 Solid Waste - The applicant shall provide onsite municipal solid waste processing system & shall comply with Solid Waste Management Rule 2016 & E-Waste (M & H) Rule 2011.
- 7 Affidavit undertaking in respect of no change in the status of consent conditions and compliance of the consent conditions the draft can be downloaded from the official web site of the MPCB.
- 8 Applicant shall submit official e-mail address and any change will be duly informed to the MPCB.
- 9 The treated sewage shall be disinfected using suitable disinfection method.
- 10 The firm shall submit to this office, the 30th day of September every year, the environment statement report for the financial year ending 31st march in the prescribed Form-V as per the provision of rule 14 of the Environmental (Protection) Second Amended rule 1992.
- 11 The applicant shall make an application for renewal of the consent at least 60 days before date of the expiry of the consent.

**SCHEDULE-I**

**Terms & conditions for compliance of Water Pollution Control:**

- 1) A] As per your application, you have provided MBBR based Sewage Treatment Plants (STPs) of combined capacity **300 CMD for treatment of domestic effluent of 14 CMD.**

- B] The Applicant shall operate the sewage treatment plant (STP) to treat the sewage so as to achieve the following standards prescribed by the Board or under EP Act, 1986 and Rules made there under from time to time, whichever is stringent.

| Sr. No. | Parameters         | Standards prescribed by Board                 |
|---------|--------------------|---|
|         |                    | Limiting Concentration in mg/l, except for pH |
| 1.      | BOD (3 days 27o C) | 10  |
| 2.      | Suspended Solids   | 20  |
| 3.      | COD                | 50  |
| 4.      | Residual Chlorine  | 1ppm  |

- C] The treated domestic effluent shall be 60% recycled for secondary purposes such as toilet flushing, air-conditioning, cooling tower make up, fire-fighting etc. and remaining shall be utilised on land for gardening and or connected to local body sewer line. In no case, effluent shall find its way outside Project's premise.

- 2) The Board reserves its rights to review plans, specifications or other data relating to plant setup for the treatment of waterworks for the purification thereof & the system for the disposal of sewage or trade effluent or in connection with the grant of any consent conditions. The Applicant shall obtain prior consent of the Board to take steps to establish the unit or establish any treatment and disposal system or and extension or addition thereto.
- 3) The industry shall ensure replacement of pollution control system or its parts after expiry of its expected life as defined by manufacturer so as to ensure the compliance of standards and safety of the operation thereof.
- 4) **The Applicant shall comply with the provisions of the Water (Prevention & Control of Pollution) Act, 1974 and as amended, and other provisions as contained in the said act.**

| Sr. No. | Purpose for water consumed   | Water consumption quantity (CMD) |
|---------|--|----------------------------------|
| 1.      | Industrial Cooling, spraying in mine pits or boiler feed                                       | 0.00                             |
| 2.      | Domestic purpose   | 15.00                            |
| 3.      | Processing whereby water gets polluted & pollutants are easily biodegradable                   | 0.00                             |
| 4.      | Processing whereby water gets polluted & pollutants are not easily biodegradable and are toxic | 0.00                             |

- 5) The Applicant shall provide Specific Water Pollution control system as per the conditions of EP Act, 1986 and rule made there under from time to time.

**SCHEDULE-II**

**Terms & conditions for compliance of Air Pollution Control:**

- 1) As per your application, you have provided the Air pollution control (APC) system and also proposed to erect following stack (s) and to observe the following fuel pattern-

| Stack No. | Stack Attached To | APC System                | Height in Mtrs. | Type of Fuel | Quantity & UoM |
|-----------|-------------------|---------------------------|-----------------|--------------|----------------|
| S-1       | DG Set (750 KVA)  | Acoustic Enclosure/ Stack | 6.5             | HSD          | 152 Kg/Hr      |

- 2) The applicant shall operate and maintain above mentioned air pollution control system, so as to achieve the level of pollutants to the following standards.

|                         |               |                        |
|-------------------------|---------------|------------------------|
| Total Particular matter | Not to exceed | 150 mg/Nm <sup>3</sup> |
|-------------------------|---------------|------------------------|

- 3) The Applicant shall obtain necessary prior permission for providing additional control equipment with necessary specifications and operation thereof or alteration or replacement well before its life come to an end or erection of new pollution control equipment.
- 4) The Board reserves its rights to vary all or any of the condition in the consent, if due to any technological improvement or otherwise such variation (including the change of any control equipment, other in whole or in part is necessary).
- 5) **Conditions for utilities like Kitchen, Eating Places, Canteens:-**
- The kitchen shall be provided with exhaust system chimney with oil catcher connected to chimney through ducting.
  - The toilet shall be provided with exhaust system connected to chimney through ducting.
  - The air conditioner shall be vibration proof and the noise shall not exceed 68 dB(A).
  - The exhaust hot air from A.C. shall be attached to Chimney at least 5 mtrs. higher than the nearest tallest building through ducting and shall discharge into open air in such a way that no nuisance is caused to neighbors.

**SCHEDULE-III**  
**Details of Bank Guarantees:**

| Sr. No. | Consent(C2E/C2O/C2R) | Amt of BG Imposed | Submission Period | Purpose of BG   | Compliance Period | Validity Date |
|---------|----------------------|-------------------|-------------------|---|-------------------|---------------|
| 1       | C2E                  | 2500000           | Existing          | Towards O&M of pollution control systems and towards compliance of the Consent conditions | 28.02.2021        | 30.06.2021    |

\*\* The above Bank Guarantee(s) shall be submitted by the applicant in favour of Regional Officer at the respective Regional Office within 15 days of the date of issue of Consent.  
# Existing BG obtained for above purpose if any may be extended for period of validity as above.

**BG Forfeiture History**

| Srno. | Consent (C2E/C2O/C2R) | Amount of BG imposed | Submission Period | Purpose of BG | Amount of BG Forfeiture | Reason of BG Forfeiture |
|-------|-----------------------|----------------------|-------------------|---------------|-------------------------|-------------------------|
| NA    |                       |                      |                   |               |                         |                         |

**SCHEDULE-IV**

**General Conditions:**

- 1 The applicant shall provide facility for collection of samples of sewage effluents, air emissions and hazardous waste to the Board staff at the terminal or designated points and shall pay to the Board for the services rendered in this behalf.
- 2 The firm shall strictly comply with the Water (P&CP) Act, 1974, Air (P&CP) Act, 1981 and Environmental Protection Act 1986 and Solid Waste Management Rule 2016, Noise (Pollution and Control) Rules, 2000 and E-Waste (Management & Handling Rule 2011.
- 3 Drainage system shall be provided for collection of sewage effluents. Terminal manholes shall be provided at the end of the collection system with arrangement for measuring the flow. No sewage shall be admitted in the pipes/sewers downstream of the terminal manholes. No sewage shall find its way other than in designed and provided collection system.
- 4 Vehicles hired for bringing construction material to the site should be in good condition and should conform to applicable air and noise emission standards and should be operated only during non-peak hours.
- 5 Conditions for D.G. Set
  - a) Noise from the D.G. Set should be controlled by providing an acoustic enclosure or by treating the room acoustically.
  - b) Industry should provide acoustic enclosure for control of noise. The acoustic enclosure/ acoustic treatment of the room should be designed for minimum 25 dB (A) insertion loss or for meeting the ambient noise standards, whichever is on higher side. A suitable exhaust muffler with insertion loss of 25 dB (A) shall also be provided. The measurement of insertion loss will be done at different points at 0.5 meters from acoustic enclosure/room and then average.
  - c) Industry should make efforts to bring down noise level due to DG set, outside industrial premises, within ambient noise requirements by proper siting and control measures.
  - d) Installation of DG Set must be strictly in compliance with recommendations of DG Set manufacturer.
  - e) A proper routine and preventive maintenance procedure for DG set should be set and followed in consultation with the DG manufacturer which would help to prevent noise levels of DG set from deteriorating with use.
  - f) D.G. Set shall be operated only in case of power failure.
  - g) The applicant should not cause any nuisance in the surrounding area due to operation of D.G. Set.
  - h) The applicant shall comply with the notification of MoEFCC, India on Environment (Protection) second Amendment Rules vide GSR 371(E) dated 17.05.2002 and its amendments regarding noise limit for generator sets run with diesel.
- 6 Solid Waste - The applicant shall provide onsite municipal solid waste processing system & shall comply with Solid Waste Management Rule 2016 & E-Waste (M & H) Rule 2011.
- 7 Affidavit undertaking in respect of no change in the status of consent conditions and compliance of the consent conditions the draft can be downloaded from the official web site of the MPCB.
- 8 Applicant shall submit official e-mail address and any change will be duly informed to the MPCB.
- 9 The treated sewage shall be disinfected using suitable disinfection method.
- 10 The firm shall submit to this office, the 30th day of September every year, the environment statement report for the financial year ending 31st march in the prescribed Form-V as per the provision of rule 14 of the Environmental (Protection) Second Amended rule 1992.
- 11 The applicant shall make an application for renewal of the consent at least 60 days before date of the expiry of the consent.

**SCHEDULE-I**

**Terms & conditions for compliance of Water Pollution Control:**

- 1) A] As per your application, you have proposed to provide MBBR based Sewage Treatment Plants (STPs) of combined capacity **100 CMD for treatment of domestic effluent of 80 CMD.**
- B] The Applicant shall operate the sewage treatment plant (STP) to treat the sewage so as to achieve the following standards prescribed by the Board or under EP Act, 1986 and Rules made there under from time to time, whichever is stringent.

| Sr. No. | Parameters         | Standards prescribed by Board                 |
|---------|--------------------|---|
|         |                    | Limiting Concentration in mg/l, except for pH |
| 1.      | BOD (3 days 27o C) | 10  |
| 2.      | Suspended Solids   | 20  |
| 3.      | COD                | 50  |
| 4.      | Residual Chlorine  | 1ppm  |

- C] The treated domestic effluent shall be 60% recycled for secondary purposes such as toilet flushing, air-conditioning, cooling tower make up, firefighting etc. and remaining shall be utilised on land for gardening and connected to local body sewer line. In no case, effluent shall find its way outside Project's premise.
- 2) The Board reserves its rights to review plans, specifications or other data relating to plant setup for the treatment of waterworks for the purification thereof & the system for the disposal of sewage or trade effluent or in connection with the grant of any consent conditions. The Applicant shall obtain prior consent of the Board to take steps to establish the unit or establish any treatment and disposal system or and extension or addition thereto.
- 3) The industry shall ensure replacement of pollution control system or its parts after expiry of its expected life as defined by manufacturer so as to ensure the compliance of standards and safety of the operation thereof.
- 4) **The Applicant shall comply with the provisions of the Water (Prevention & Control of Pollution) Act, 1974 and as amended, and other provisions as contained in the said act.**

| Sr. No. | Purpose for water consumed   | Water consumption quantity (CMD) |
|---------|--|----------------------------------|
| 1.      | Industrial Cooling, spraying in mine pits or boiler feed                                       | 0.00                             |
| 2.      | Domestic purpose   | 85.00                            |
| 3.      | Processing whereby water gets polluted & pollutants are easily biodegradable                   | 0.00                             |
| 4.      | Processing whereby water gets polluted & pollutants are not easily biodegradable and are toxic | 0.00                             |

- 5) The Applicant shall provide Specific Water Pollution control system as per the conditions of EP Act, 1986 and rule made there under from time to time.

**SCHEDULE-II**

**Terms & conditions for compliance of Air Pollution Control:**

- 1) As per your application, you have proposed to provide the Air pollution control (APC) system and also proposed to erect following stack (s) and to observe the following fuel pattern-

| Stack No. | Stack Attached To | APC System                | Height in Mtrs. | Type of Fuel | Quantity & UoM |
|-----------|-------------------|---------------------------|-----------------|--------------|----------------|
| S-1       | DG Set (1500 KVA) | Acoustic Enclosure/ Stack | 10              | Diesel       | 574 Kg/Hr      |

- 2) The applicant shall operate and maintain above mentioned air pollution control system, so as to achieve the level of pollutants to the following standards.

|                         |               |                        |
|-------------------------|---------------|------------------------|
| Total Particular matter | Not to exceed | 150 mg/Nm <sup>3</sup> |
|-------------------------|---------------|------------------------|

- 3) The Applicant shall obtain necessary prior permission for providing additional control equipment with necessary specifications and operation thereof or alteration or replacement well before its life come to an end or erection of new pollution control equipment.
- 4) The Board reserves its rights to vary all or any of the condition in the consent, if due to any technological improvement or otherwise such variation (including the change of any control equipment, other in whole or in part is necessary).
- 5) **Conditions for utilities like Kitchen, Eating Places, Canteens:-**
- The kitchen shall be provided with exhaust system chimney with oil catcher connected to chimney through ducting.
  - The toilet shall be provided with exhaust system connected to chimney through ducting.
  - The air conditioner shall be vibration proof and the noise shall not exceed 68 dB(A).
  - The exhaust hot air from A.C. shall be attached to Chimney at least 5 mtrs. higher than the nearest tallest building through ducting and shall discharge into open air in such a way that no nuisance is caused to neighbors.

| NA    |                       |                      |                   |               |                         |                         |

**SCHEDULE-IV**

**Conditions during construction phase**

|          |  |
|----------|--|
| <b>A</b> | During construction phase, applicant shall provide temporary sewage and MSW treatment and disposal facility for the staff and worker quarters.   |
| <b>B</b> | During construction phase, the ambient air and noise quality shall be maintained and should be closely monitored through MoEF approved laboratory.   |
| <b>C</b> | Noise should be controlled to ensure that it does not exceed the prescribed standards. During night time the noise levels measured at the boundary of the building shall be restricted to the permissible levels to comply with the prevalent regulations. |

**General Conditions:**

- 1 The applicant shall provide facility for collection of samples of sewage effluents, air emissions and hazardous waste to the Board staff at the terminal or designated points and shall pay to the Board for the services rendered in this behalf.
- 2 The firm shall strictly comply with the Water (P&CP) Act, 1974, Air (P&CP) Act, 1981 and Environmental Protection Act 1986 and Solid Waste Management Rule 2016, Noise (Pollution and Control) Rules, 2000 and E-Waste (Management & Handling Rule 2011.
- 3 Drainage system shall be provided for collection of sewage effluents. Terminal manholes shall be provided at the end of the collection system with arrangement for measuring the flow. No sewage shall be admitted in the pipes/sewers downstream of the terminal manholes. No sewage shall find its way other than in designed and provided collection system.
- 4 Vehicles hired for bringing construction material to the site should be in good condition and should conform to applicable air and noise emission standards and should be operated only during non-peak hours.
- 5 Conditions for D.G. Set
  - a) Noise from the D.G. Set should be controlled by providing an acoustic enclosure or by treating the room acoustically.
  - b) Industry should provide acoustic enclosure for control of noise. The acoustic enclosure/ acoustic treatment of the room should be designed for minimum 25 dB (A) insertion loss or for meeting the ambient noise standards, whichever is on higher side. A suitable exhaust muffler with insertion loss of 25 dB (A) shall also be provided. The measurement of insertion loss will be done at different points at 0.5 meters from acoustic enclosure/room and then average.
  - c) Industry should make efforts to bring down noise level due to DG set, outside industrial premises, within ambient noise requirements by proper siting and control measures.
  - d) Installation of DG Set must be strictly in compliance with recommendations of DG Set manufacturer.
  - e) A proper routine and preventive maintenance procedure for DG set should be set and followed in consultation with the DG manufacturer which would help to prevent noise levels of DG set from deteriorating with use.
  - f) D.G. Set shall be operated only in case of power failure.
  - g) The applicant should not cause any nuisance in the surrounding area due to operation of D.G. Set.
  - h) The applicant shall comply with the notification of MoEFCC, India on Environment (Protection) second Amendment Rules vide GSR 371(E) dated 17.05.2002 and its amendments regarding noise limit for generator sets run with diesel.

**Subject :-** Approval to Construction and Demolition waste management plan for the site at CTS/CS Number 1903,1904,1905,1/1905 and 2/1905 of village Byculla at ward Ward E.

**Reference :-** Your application / online submission for C & D Waste Management Plan leveling & filling at designated site Dtd. 04/Jun/2018  
IOD No. and Date :- EB/5204/E/A-IOD & 06/Jul/2013

With reference to your application / online submission, the Construction and Demolition waste management plan submitted by you has been approved as per "Construction and Demolition Waste Rules 2016". You are allowed to transport Construction & Demolition waste from construction site to the designated filling & leveling site subject to following term conditions.

1. This approval is subject to the orders given by Hon. Supreme Court u/no. in SLP (Civil) No. D23708/2017 dated 15.3.2018. You shall follow this order of Hon'ble Supreme Court and instructions therein.
2. You shall handle & transport Construction & Demolition Waste to the extent of  $3600 \text{ Brass} \times 2.83 = 10188 \text{ Cu. Mtr.}$  Only to designated unloading site - M/s. Thakur Stone Quarry Survey No. 208, (New 4/3) of village Bhayanderpada (Ovala), Taluka Thane, Dist. Thane (M/s. Mishra Transport Service)
3. You shall transport the C & D waste with proper precautions and employ adequate measures safeguards to dispersal of particles through the air.
4. You have mentioned designated site for transportation of C & D waste for filling and leveling purpose. The C & D waste shall be transported and deposited at the designated site only.
5. In the event for any reason whatsoever, the consent given by the Designated Site / Agency is revoked or the time limit for the designated site has expired or the capacity of unloading site is exhausted. In such case the builder / developer shall forthwith stop the transportation activities. The builder / developer shall submit revised Construction and Demolition waste management plan along with required valid documents for revalidation of existing C & D Waste Management Plan.
6. The Construction & Demolition Waste shall be transported through your Transport Contractor M/S. Bastiwala Infrastructure.
7. The deployed vehicles shall abide by all the R.T.O. rules and regulations. You shall ensure that the vehicles should be properly covered with tarpaulin or any other suitable material firmly to avoid any escape / fall of waste on road from moving vehicle. The body and wheels shall be cleaned and washed thoroughly to avoid spreading of waste on road.
8. The copy of approved Construction and Demolition Management Plan shall be accompanied with each and every vehicle under this approval. The developer shall issue the proper challan for each and every trip of vehicles and that shall be acknowledged by the agency of unloading site. The developer shall maintain record of C & D material transported and shall make it available to MCGM

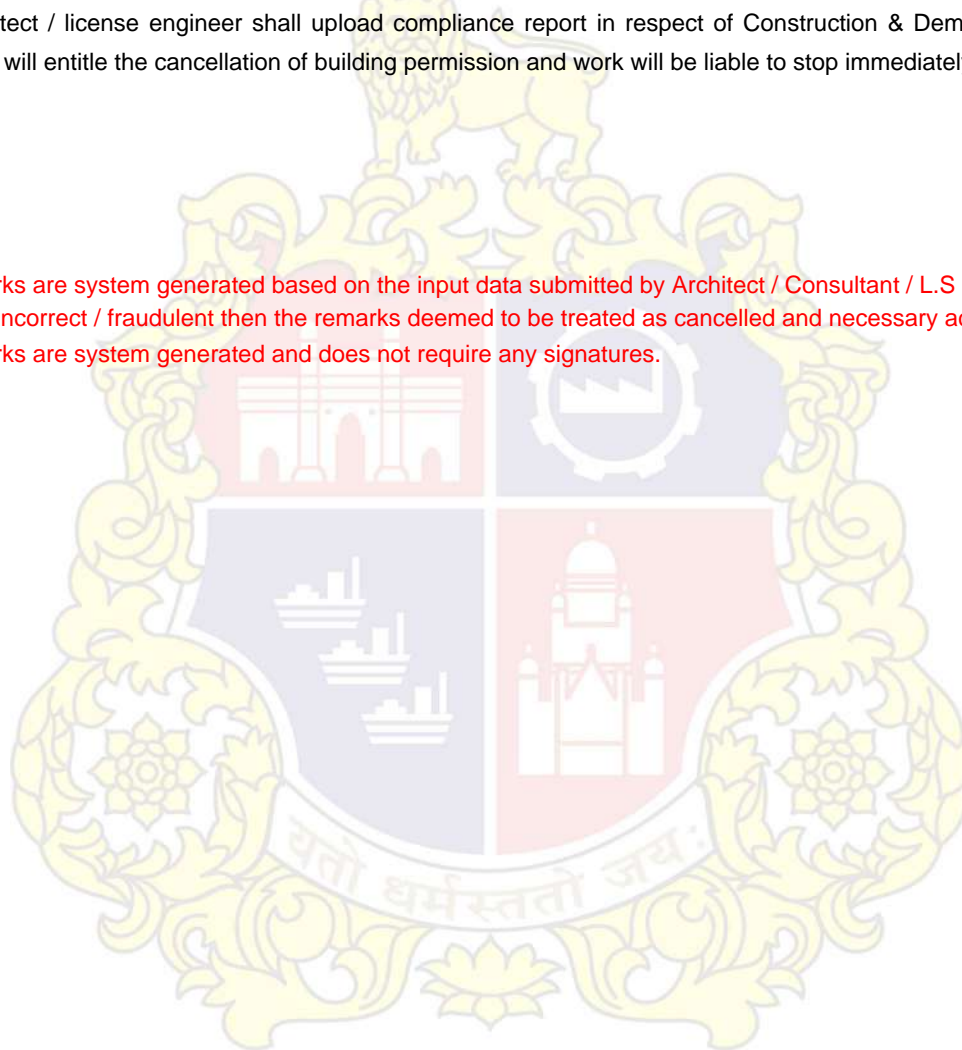

and / or Monitoring Committee whenever required for inspection.

9. The approval is granted presuming that the papers submitted by the applicants / Owners are genuine. For any dispute arising there from out of documents submitted by applicant, POA / Occupant / Owner shall be held responsible as prescribed under the law prevailing in force.
10. The approval is granted hereto does not absolve the other approvals required from the other department of MCGM or Govt. authorities.
11. In case of disputes, court matters etc. related to the subject site / land / property, this approval cannot be treated as a valid proof.
12. In case of any breach of condition is brought to the notice of MCGM or Monitoring committee, Show Cause Notice will be issued and decision will be taken within one month as expeditiously as possible, which shall be binding on you / land owner.
13. This approval is not permission for excavation or permission for dumping but is the only approval under Construction and Demolition Waste Management Plan for the transportation of Construction & Demolition Waste for unloading at designated unloading site.
14. You / Land owner shall submit valid Bank Guarantee from the bankers approved by the MCGM and the amount applicable as per attached table. The bank guarantee remains valid till grant of Occupation Certificate (OCC).
15. The license architect / license engineer shall upload compliance report in respect of Construction & Demolition Waste Management Plan, any breach will entitle the cancellation of building permission and work will be liable to stop immediately.

Note:

1. The above remarks are system generated based on the input data submitted by Architect / Consultant / L.S and if in future it is found that the data is incorrect / fraudulent then the remarks deemed to be treated as cancelled and necessary action will be initiated.
2. The above remarks are system generated and does not require any signatures.

**3. Production during the year (product wise), wherever applicable**

| Product Type * | Product Name *   | Consented Quantity | Actual Quantity | UOM    |
|----------------|--|--------------------|-----------------|--------|
| OTHERS         | Not Applicable as project is for construction of residential building & composite Building with Public Parking Lot | 0.0000             | 0               | --NA-- |

### PART A: To be filled by hazardous waste generators

**1. Total Quantity of waste generated category wise**

| Type of hazardous waste | Waste Name      | Consented Quantity | Quantity | UOM     |
|-------------------------|-----------------|--------------------|----------|---------|
| 5.1 Used or spent oil   | Used/ Spent Oil | 0.100              | 0.50     | KL/Anum |

**2. Quantity dispatched category wise.**

| Type of Waste         | Quantity of waste | UOM     | Dispatched to           | Facility Name  |
|-----------------------|-------------------|---------|-------------------------|--|
| 5.1 Used or spent oil | 0.50              | KL/Anum | Recycler or Actual user | Mercury Metal Industries, B/5, Ground Floor, Porbandarwala Bldg., Chirag Nagar, Ghatkopar (W), Mumbai- 400086. |

**3. Quantity Utilised in-house, If any**

| Type of Waste | Name of Waste  | Quantity of Waste | UOM     |
|---------------|----------------|-------------------|---------|
|               | Not Applicable | 0                 | KL/Anum |

4. Quantity in storage at the end of the year

| Type of Waste         | Name of Waste   | Quantity of Waste | UOM     |
|-----------------------|-----------------|-------------------|---------|
| 5.1 Used or spent oil | Used/ Spent Oil | 0                 | KL/Anum |

PART B: To be filled bt Treatment,storage, and disposal facility operators

|   |         |             |
|---|---------|-------------|
| 1.Total Quantity received                                     | UOM     | State Name  |
| NA  | KL/Anum | Maharashtra |
| 2. Quantity in stock at the beginning of the year             | UOM     |             |
| NA  | KL/Anum |             |
| 3. Quantity treated   | UOM     |             |
| NA  | KL/Anum |             |
| 4. Quantity disposed in landfills as such and after treatment |         |             |
| Direct landfilling  | UOM     |             |
| NA  | KL/Anum |             |
| Landfill after treatment                                      | UOM     |             |
| NA  | KL/Anum |             |
| 5. Quantity incinerated (if applicable)                       | UOM     |             |
| NA  | KL/Anum |             |
| 6. Quantiry processed other than specified above              | UOM     |             |
| NA  | KL/Anum |             |
| 7. Quantity in storage at the end of the year.                | UOM     |             |
| NA  | KL/Anum |             |

PART C: To be filled by recyclers or co-processors or other users

1. Quantity of waste received during the year

| Waste Name/Category | Country Name | State Name  | Quantity of waste received from domestic sources | Quantity of waste imported(If any) | Units   |
|---------------------|--------------|-------------|--|------------------------------------|---------|
| NA                  | India        | Maharashtra | NA   | NA                                 | KL/Anum |

2. Quantity in stock at the beginning of the year

| Waste Name/Category | Quantity | UOM     |
|---------------------|----------|---------|
| NA                  | NA       | KL/Anum |

3. Quantity of waste recycled or co-procesed or used

| Name of Waste | Type of Waste | Quantity | UOM     |
|---------------|---------------|----------|---------|
| NA            | NA            | NA       | KL/Anum |

4. Quantity of products dispatched (wherever applicable)

| Name of product | Quantity | UOM     |
|-----------------|----------|---------|
| NA              | NA       | KL/Anum |

5. Total quantity of waste generated

| Waste name/category | quantity | UOM     |
|---------------------|----------|---------|
| NA                  | NA       | KL/Anum |

6. Total quantity of waste disposed

| Waste name/category | quantity | UOM     |
|---------------------|----------|---------|
| NA                  | NA       | KL/Anum |

7. Total quantity of waste re-exported (If Applicable)

| Waste name/category | quantity | UOM     |
|---------------------|----------|---------|
| NA                  | NA       | KL/Anum |

8. Quantity in storage at the end of the year

| <i><b>Waste name/category</b></i> | <i><b>quantity</b></i> | <i><b>UOM</b></i> |
|-----------------------------------|------------------------|-------------------|
| NA                                | NA                     | KL/Anum           |

| <i><b>Place</b></i> | <i><b>Date</b></i> | <i><b>Designation</b></i> |

NASORU/SABIRA SALIM NASORU" AS  
PER AFFIDAVIT CL-910922

I HAVE CHANGED MY NAME FROM  
NAGWANDAS GOVINDRAM NAGWANDAS  
NAGWANDAS AS PER AFFIDAVIT DATED 3RD  
SEPT 2019 CL-156

NARENDRA MAGMAL PATEL S/O

# Maharashtra Pollution Control Board

महाराष्ट्र प्रदूषण नियंत्रण मंडळ

Annexure XX

## FORM V

(See Rule 14)

Environmental Audit Report for the financial Year ending the 31st March 2022

### Unique Application Number

MPCB-ENVIRONMENT\_STATEMENT-0000050414

### Submitted Date

30-09-2022

## PART A

### Company Information

#### Company Name

Genext Hardware and Parks Pvt Ltd

#### Application UAN number

Not Applicable

#### Address

CS No. 1903 (pt),  
1904(pt),1905,1/1905,2/1905 at  
Byculla Division, Mumbai.

#### Plot no

CS No. 1903 (pt),  
1904(pt),1905,1/1905,2/1905

#### Taluka

Mumbai

#### Village

Mumbai

#### Capital Investment (In lakhs)

192255

#### Scale

Large

#### City

Mumbai

#### Pincode

400013

#### Person Name

Mr. Manish Kothari

#### Designation

Associate Vice President -  
Projects

#### Telephone Number

23003377

#### Fax Number

23003382

#### Email

mkothari@kraheja.com

#### Region

SRO-Mumbai I

#### Industry Category

Red

#### Industry Type

other

#### Last Environmental statement submitted online

yes

#### Consent Number

Format1.0/BO/CAC-cell/EIC-MU-6910-15/CO(Part-I)/CAC-7502 &  
Format 1.0/CAC-CELL/UAN No. 0000077338/CE-2003000841 &  
Format 1.0/CAC- CELL/UAN No. 0000093890/CR-2011000784

#### Consent Issue Date

02/06/2016 & 13/03/2020 &  
12/11/2020

#### Consent Valid Upto

31/10/2021 & 28/02/2025 &  
30/06/2021

#### Establishment Year

2006

#### Date of last environment statement submitted

Sep 29 2021  
12:00:00:000AM

#### Industry Category Primary (STC Code) & Secondary (STC Code)

### Product Information

#### Product Name

Not Applicable (As project is for Residential Complex and a Municipal Parking Lot wing)

#### Consent Quantity Actual Quantity UOM

0 0 MT/A

### By-product Information

#### By Product Name

#### Consent Quantity Actual Quantity UOM

Part-B (Water & Raw Material Consumption)

**Part-D**

**HAZARDOUS WASTES**

**1) From Process**

| Hazardous Waste Type  | Total During Previous Financial year | Total During Current Financial year | UOM  |
|-----------------------|--------------------------------------|-------------------------------------|------|
| 5.1 Used or spent oil | 0.00                                 | 0.50                                | KL/A |
| Other Hazardous Waste | 0.00                                 | 0.04                                | MT/A |

**2) From Pollution Control Facilities**

| Hazardous Waste Type | Total During Previous Financial year | Total During Current Financial year | UOM  |
|----------------------|--------------------------------------|-------------------------------------|------|
| 0                    | 0                                    | 0                                   | KL/A |

**Part-E**

**SOLID WASTES**

**1) From Process**

| Non Hazardous Waste Type | Total During Previous Financial year | Total During Current Financial year | UOM  |
|--------------------------|--------------------------------------|-------------------------------------|------|
| Dry Waste                | 87.48                                | 60                                  | MT/A |
| Wet Waste                | 94.52                                | 84                                  | MT/A |

**2) From Pollution Control Facilities**

| Non Hazardous Waste Type | Total During Previous Financial year | Total During Current Financial year | UOM  |
|--------------------------|--------------------------------------|-------------------------------------|------|
| STP sludge               | 0.70                                 | 0.120                               | MT/A |

**3) Quantity Recycled or Re-utilized within the unit**

| Waste Type | Total During Previous Financial year | Total During Current Financial year | UOM  |
|------------|--------------------------------------|-------------------------------------|------|
| 0          | 0                                    | 0                                   | MT/A |

**Part-F**

**Please specify the characteristics(in terms of concentration and quantum) of hazardous as well as solid wastes and indicate disposal practice adopted for both these categories of wastes.**

**1) Hazardous Waste**

| Type of Hazardous Waste Generated | Qty of Hazardous Waste | UOM  | Concentration of Hazardous Waste                       |
|-----------------------------------|------------------------|------|--|
| 5.1 Used or spent oil             | 0.5                    | KL/A | Oily (Disposal - Sale to authorized recycler)          |
| Other Hazardous Waste             | 0.04                   | MT/A | Solid (Disposal -Sale to authorized E- Waste recycler) |

**2) Solid Waste**

| <b>Type of Solid Waste Generated</b> | <b>Qty of Solid Waste</b> | <b>UOM</b> | <b>Concentration of Solid Waste</b>  |
|--------------------------------------|---------------------------|------------|--|
| Dry Waste                            | 60                        | MT/A       | 100% (Sold to authorized recycler)   |
| Wet Waste                            | 84                        | MT/A       | The generated wet waste is processed through OWC and used at manure within site. |
| STP Sludge                           | 0.120                     | MT/A       | Used as Manure   |

## Part-G

### Impact of the pollution Control measures taken on conservation of natural resources and consequently on the cost of production.

| <b>Description</b>  | <b>Reduction in Water Consumption (M3/day)</b> | <b>Reduction in Fuel &amp; Solvent Consumption (KL/day)</b> | <b>Reduction in Raw Material (Kg)</b> | <b>Reduction in Power Consumption (KWH)</b> | <b>Capital Investment(in Lacs)</b> | <b>Reduction in Maintenance(in Lacs)</b> |
|---|--|---|---------------------------------------|---|------------------------------------|--|
| Sewage Treatment Plant with capacity of 200 CMD is provided to treat sewage generated from entire site. 80 % of sewage is recycled / reused within the site for flushing, fire fighting, cooling of Air | 0.000  | 0.000   | 0.000                                 | 0.000                                       | 143                                | 0.000                                    |

## Part-H

### Additional measures/investment proposal for environmental protection abatement of pollution, prevention of pollution.

#### [A] Investment made during the period of Environmental Statement

##### **Detail of measures for Environmental Protection**

|  | <b>Environmental Protection Measures</b> | <b>Capital Investment (Lacks)</b> |
|--|--|-----------------------------------|
| AMC for OWC, AMC for Environment Monitoring, AMC for STP, Environment Monitoring, Modification | --                                       | 30.50                             |

#### [B] Investment Proposed for next Year

##### **Detail of measures for Environmental Protection**

|  | <b>Environmental Protection Measures</b> | <b>Capital Investment (Lacks)</b> |
|--|--|-----------------------------------|
| AMC for OWC, AMC for Environment Monitoring, AMC for STP, Environment Monitoring, Modification | --                                       | 30.50                             |

## Part-I

### Any other particulars for improving the quality of the environment.

#### Particulars

Water consumption figures are shown for fresh as well as Recycled Water from STP. Housekeeping is taking on top priority and engaged sufficient manpower for maintaining neat and clean environment in the premises.

#### Name & Designation

Mr. Manish Kothari (Associate Vice President - Projects)
